It Will Remain the Leading Issue Until Rightly Settled Silver Men of All Parties Should All Unite-Sibley Suggested For the Presidency.

Washington, March 4.—The Ameriran Bimetallic league, which has been in conference here, has assued its address to the people for the formation of a new party, as it was predicted it would in these dispatches yesterday A statement of the issues on which the new party will organize, preceded the address, which reads as follows

"The money question is now indisputabley the dominant issue in the United States and will remain so until settled and settled rightly. Other questions, however important, must wait for this, which, to a greater or less extent, involves all others. The issue is between the gold standard, gold bonds and bank currency, on the one side, and the bimetallic standard, no bonds and government currency, on the other. "First- On this issue we declare our

selves to be unalterably opposed to the single gold standard, and demand the immediate return to the constitutional standard of gold and silver, by the res toration by this government independ ently of any fore-gu power, of the unrestricted comage of both silver and gold into standard money, at the ratio of 16 to 1, and upon terms of exact equality, the silver coin to be a full legal tender, equal with gold, for all debts and does, public and private "Second - We hold that the power to control and regulate a paper currency is inseparable from the power to coin money, and hence that all currency in tended to circulate as money should be issued, and its volume controlled, by the

general government only, and should "Third- We are unalterably opposed to the issue by the United States of interest bearing bonds in the time of peace, and demand the payment of all coin obligations of the United States as provided by existing laws, in either gold or silver coin, at the option of the government, and not at the option of

The address makes a long argument on the above basis and says that silver Democrats or silver Republicans can expect nothing from their party; neither will silver Democrats join the silver wing of the Republican party, nor silver Republicans join the silver wing of the Democratic party; neither will either join the Populists on account of objectionable features in their platform The only hope for silver is for the silver men in all parties to organize a new The address further says: "If the conference had authority

from the people to name a candidate for president, it would name Joseph C Sibley of Pennsylvania, but not having name, and invite expressions from the people by petition, resolutions or other wise, believing that nominations when made should reflect in the most direct manner the will of the people, uncontroffed by caucus machinery or by professional politicians

"Petitions or letters indorsing this ew should be addressed to General A. J. Warner, chairman of the executive committee, American Bimetallic party. Sun building, Washington, D. C. We pray you not to let the settle-

ment of this question go beyond the election of 1896, but, subordinating all question for the time being to this, the preme issue, settle this now, and set tle it forever. And we especially urge upon you the importance of immediate organization in townships and counties throughout the entire country, for the purpose of carrying on this great move meat for the common good of all."
It is signed by the following execu-

He protested against an allegation that he had caused the young woman's servants to be ar rayed in the W K Vanderbilt's livery. The demal of this charge was vehement and the explanation was made public that the Neustreeter's livery, while sim ilar to that of Mr Vanderbilt's servants. had never been changed and that at no time had the two been identical. Though the fact has been known for some nonths that the Vanderbilts were agreed upon the general proposition of a di vorce, was not known by the public until the decree was filed that proceed ings had been begun.
