

Between eleven and twelve o'clock on Friday night an unexpected dwelling fire in Chest Springs caught fire in a serious manner and was burned to the ground. There was no insurance.  
A. W. Patch's big raft has been deluged by the late spring rains. The movement of the raft contains 70,000 feet. This is certainly the largest raft of the season. Mr. Patch had nineteen rafts this season, which he intends to take through to his mills at Camden, N. J.

—A dispatch from South Fork to the Johnston Democrat states that on Saturday last at 2:30 p. m. the miners employed at the Stinemam colliery held a meeting and the following resolutions were adopted:  
"That in the future, when not receiving their monthly pay at the appointed time that it should be paid they would discontinue work until they received their money. Should any employee be discharged on account of their not dealing in a company store, that they would discontinue work until such party should be reinstated. A demand will be made for five cents per ton to take effect May 1st."  
The Meadville (Pa.) Tribune says: "Henry Shafer, the Market street wholesale liquor dealer, now owns the largest tract in the country, having purchased the entire tract of 2,000 acres from the State of Mercer. The tract was in Boone county, Kentucky, and is 5 years old. He is by a Durham sire, graded dam, and weighed on December 22 an even 3,900 pounds. His height is 48 inches; height, 10 feet 6 inches, and measures 3 feet 2 inches around the forearm. It is just 12 feet from the base of his horns to the root of his tail, and his length over all is about 14 feet. On the run, with his nose pushed and his tail straight out, he would probably lap about 25 feet."  
—William Boyd, aged 19 years, who had been making his home with Mr. and Mrs. Johnston G. West, of Fernalde, Upper York township, for the past five years, and treated by them as one of the children, was accidentally shot and killed by Vickroy West, son of Mr. and Mrs. West, between 3 and 4 o'clock Saturday afternoon, while they were hunting ducks near Bensenville, Somerset county. While West was reloading his gun, young Boyd stopped in front of it, when it was accidentally discharged, the bullet striking Boyd in the right arm near the elbow, passing through the muscles and entering the side, perforating the liver and lodging in the lung. He died a few minutes after the accident.

—The Hamilton News fathers the following item: William Thompson and wife, of this place, have concluded to separate after a married life extending over a period of fifty-five years. He is an invalid about 70 years of age, and his wife is about ten years younger. They were the parents of fourteen children, eleven of whom are living. The cause of the separation is not known to themselves.  
—Mr. and Mrs. Moses Kaufman, an aged couple residing near Bensenville, Ind., in Somerset county, were robbed on Sunday night of last week of \$10.75 that they had stored away in a large wooden chest which they kept under their bed. It is thought the burglar used chloroform as the horse was entered and the chest carried outside and broken open. Mr. Kaufman is 75 years of age and his wife over 80.  
—The judges of the contest court arrived here on Monday evening, and Tuesday morning they held a contest court in examining the evidence against the alleged illegal voters and making good progress. This part of the work will likely be completed this week, and next week will be devoted to an examination of the ballots in order to ascertain for whom the illegal voters cast their ballots.—Indian Messenger.  
On Thursday last week G. W. Krebs, a civil engineer employed by the Pennsylvania Railroad Company near Hutz, Indiana, was in company with several others, was shooting mark with revolvers, he accidentally shot an Italian laborer, who had snatched several items and failed to go off, and when the laborer turned in front of him, it was discharged. The bullet entered his side about six inches below the heart and will likely prove fatal.  
Buttermilk is largely prescribed by physicians for stomach and lung difficulties and an excellent food for infants. It is also a remedy for rheumatism, is a cure for Bright's disease. A continued use will satisfy and sometimes cure the craving for alcoholic liquors and strengthen the system. Buttermilk will relieve the acidity of the stomach and will relieve the oppression about the heart, from which so many old people suffer. It is, in fact, the most useful for the system which old people need.

—A dispatch from Wilkesbarre on Tuesday says: Messrs. George W. Wilkes and the government commissioners appointed by the governor to look over the crew county situation, arrived here to day and were in consultation with Civil Engineer W. U. Simonsen. They have as yet done nothing but look over the situation in general along the Schuylkill, Columbia, Wyoming and Sullivan county lines looking up the area which it is proposed to incorporate into the crew county.  
—Mr. George Kurtschek, of Philadelphia, was filling a gasoline stove from a five-gallon can, the can became too heavy for him and slipped and the fluid ran down the front of his dress. The fluid ran down the front of his dress, the fluid ran down the front of his dress, the fluid ran down the front of his dress.

—The Village Improvement Society of Philadelphia, has placed large circular blocks of galvanized iron, neatly painted and lettered, at various places along the streets for the purpose of warning drivers of children. It is placed at the corners of streets and other places where children are likely to be present, and in general exercise an oversight of the sanitary arrangement of the town.  
—A north-bound freight train of thirty cars on the Somerset and Cambria branch of the Baltimore and Ohio railroad ran into a landslide near Kings' station at noon on Friday. The landslide, which was a landslide, was thrown over the forty-foot embankment into the Soney creek river, several lives were taken, and a considerable loss. The engineer and the train conductor were thrown into the air and were killed. The train was thrown into the air and was killed. The train was thrown into the air and was killed.

—The river log drive passed yesterday morning and in a few days will be cleared of logs. The drive is making splendid time this year, the high water allowing the men plenty of time to rest. The drive on Saturday came from above Lumber City to this place within a big day's work. The log had lodged against the pier of this second street bridge, and as the "cuffers" sent them drift the bridge was filled with persons watching the work.  
Log driving is near close on the Susquehanna. In 1902 and twenty years ago, the logs were bunched compared to the ones now sent to market. Some that are cut now would have been used for skids thirty and twenty years ago. As an old driver remarks "Saturday there was a lot of log new days that will bear a man's weight." With the decline in the log business there is also a noticeable decline in the number of rafts sent down each spring, and it will not be many years until there is hardly a log new days that will bear a man's weight by the younger generation.—Clearfield Republican.

—The following licenses were issued by the Clerk of the Orphan's Court for the week ending Thursday, April 18, 1936:
