25,000 MEN ARE MADE HAPPY.

The Company's Nine Big Plants Effected. Manufacturers Likely to Follow.

Pitts street, May 15 -The Carnegie company has raised the wages of the 25,000 employes of its different malls 10

per cent, to go into effect . une l The plants in which the new scale goes into effect are: Edgar Thomson furnaces, Edgar Thomson steel works. Duquesne steel works. Homestead steel works, Lucy furnaces, Keystone bridge works, Upper Union mills, Lower Union mills, Beaver Falls mills. In their notices the company says

that the present outlook justifies more Now that the Carnegue company has taken the step with the many other manufacturers who are running nonunion plants, it is likely a large number of other manufacturers who have not as yet granted advances to their workmen will be ferced to do so.

The acknowledgement of the com-

pany that prices warrant such an adcance is taken for much in the business world, and a general stiffening of prices a the many lines of steel manufacture is by this company is looked for at an early date.

### THE MANITOBA ROW,

The Two Governments Have About

Reached an Understanding. OTTAWA, May 15.-It is stated on apparently good authority that the Dominion and Manitoba governments have Import arrayed at ma understanding on the Manitoba school question. Premier Greenway and Attorney General Sifton of Manatoba will arrive in Ottown in a few days to consult with Premier Bowell, Sir Charles H. Tapper, the mini and the militia will remain all summs

ter of justice, and Lord Aberdeen. Munitofur, it is stated, will not objectto allowing Roman Catholi's the priv ilege of establishing separate school while paying for them out of taxes of Carbolies. Archlishop Langevin of St. Boniface, Man., insists that the Sisters of Charity be allowed to teach in these schools without passing teachers' examinations. To this neither the Manitobuler Dominion government is likely to consent. It is probable that a compromise will be effected.

Garding the Disposition of Certain Vessels. Then He Resigned Before a Change Could Be Made.

Washington, May 15. - Secretary Herbert, in response to inquiries, has dictated the following official statement

concerning Admiral Meade: "At the navy department it is learned that the department had addressed a letter to Admiral Mende, stating that it desired to know if he was willing to answer whether he had or had not authorized what purported to be an interview with him, published in the New York Tribune, and that he had replied, acknowledging the receipt of the letter, and declining to answer

The facts in relation to the failure of the department to grant Admiral Meade's request to have the Cincinnati ordered to the New York yard instead of the Norfolk yard are that this vessel was ordered to go to the Norfolk navy yard for some to essary repairs. This was done upon the recommendation of the chief constructor, who desired that work, which is now scarce at both yards, might be equalized between the Norfolk and Brooklyn yards. Admiral deade, who had selected the Cincinnati r his flagship during the absence of the New York, was thereupon ordered to hoist his fing upon that vessel upon her arrival at Novfolk, in the interm

hoisting his flag on the Minneapolis, "He afterward forwarded a seconrequest to the department to have the Cincumati ordered to New York instead of to Norfolk. On the day when this later request was received, Secretary Herbert was not in the department at any time. Assistant Secretary McAdoo being in charge did not act upon the request, as he did not think it proper to take any action in the matter until the secretary's return. On the next morning, when Secretary Herbert came t he office, this matter having been brought to his attention, he at once summoned before him the chief constructor, and, after conferring with him and Assistant Secretary McAdoo, jointly, decided to order the Cincinnati to New York, and at once ordered Admiral Ramsey, who was present, b make out orders to intercept the ship a

Washington, May 15.-An ugly crisis has been reached in the negotiatious between the United States and Great Britain, looking to the adoption of uniform regulations for the government of the seal fisheries this season. The THE SECRETARY'S SIDE OF IT. British government positively refuses to re-enact the regulation of last year, which prohibits the carrying of fire-The Admiral Didn't Like an Order Re- arms by sealing vessels through the zone north of the thirty-fifth parallel during the closed season. The United States officials look upon this as disastrous to the seal fisheries, holling that the result will be to relieve the pelagic sealers of the only restriction, which has operated to prevent an unlimited

slaughter of the herds. While killing by firearms remains illegal, it is realized that it will be impossible to enforce this prohibition if arms can be freely carried, for the scalers would kill freely unless they should happen to be under the very eye of a revenue cutter. Meanwhile, the United States cutters have gone out under the old instructions to seize all vessels carrying arms not under seal. These must be modified speedily by orders sent through the Alaska Commercial company's steamer, which leaves San Franco in a day or two, or else there may be another big claim for damages on account of illegal seizures filed by the

British government. The attitude of the latter is viewed with much dissatisfaction at the state department, where it is regarded as an vidence of unwarrantable concession to the Canadian pelagic sealers. It is also held that the effect of the British action is to practically nullify all measure of protection for the seals that was conferred by the Paris arbitration, and it would not be surprising if this course s persisted in, if it resulted in a declaration by the United States of the abrogation of the treaty.
