CARLISLE IS THE FAVORITE.

The Senator Defeated For Member of the Committee on Resolutions by a Gold Man-Three Different Sets of Resolutions to De Reported.

LOUISVILLE, June 26 .- The administration and Socretary Carlisle were certainly favorites in the Democratic state convention. The silverites went into the district meetings and into the convention with confidence. In the district meetings they were beaten 2 to 1. They claimed four out of the 11 district members of the committee on resolutions, but the administration men claim that the committee stood s to 3 originally against free silver, and as completed 2 to 4. The complexion of this committee could not have been changed by the appointment of both members at large from the silverites. But when Judge William Beckner, as temporary charman, divided the members at large giving one of the two to each side, the silver men felt that they had been watclassed, although they would not confess to being outnum-

They claimed a victory in the election of Beckner over Stone, but after the former divided the appointments equalry on all the committees and annumeral his conservative views no claims were made on him. Stone would have appointed only "sound money men on the committees. Judge Becknor is a "sound money" man, but favored General Hardin for governor Although General Hardin favors free counage, he has been supported through out by many who insist on a sound money platform for him.

The feature of the day was the defeat in his home district of Senator J. C. S. Blackburn for member of the commit tee on resolutions by Prof. Armar Yenger, a man of pronounced gold mound views but who has devoted his time to college work and not to pol

Senator Blackburn aspired to the chairmanship of this committee and expoeted to have a majority of its members with him for free coimage and against Cleveland and Carlisle. When Elackharn was defeated in the Seventieth district it was ascortained that the Hardia men did not want to be embarrassed by his appointment as one of the members at large, and then Mr. W. T. Ellis of the Second district offered Senator Blackburn his proxy. Objections were rased in the convention on the announcement of Blackburn's name for the committee from the Second district and no further efforts in that direction were made

PRODUCTION OF PETROLEUM.

Special Agent Weeks Reports Some Features of Last Years

WASHINGTON, June 26.-Several notable features of the production of petrols eum in the United States during 1894 are pointed out in the report of Specia Agent Joseph D. Weeks of the United States geological survey. The chief increase in production was in the Eastern Ohio district, showing 581,276 more barrels than in 1830, the standard barrel being 42 winchester gallons. The production of New York declined almost \$5.000 barrels, and Penusylvania over 1,000,000 barrels. Ohio's output increased almost 500,000 barrels, and Indiana's about 1.300,000.

Colorado's output decreased about 70,000; Colifornia increased over 200,-000, while the production in Kansas, which did not appear as a producer in 1803, aggregated 40,0 0 barrels in 1894. The total increase for the entire c an try was 031,870 barrels, the last year's product being 49,844,516. Wyoming was also added to the pretroleum producing localities, showing a total production of 2,300 barrels. The total value of the year's production was \$15,-522,095, or 72 conts a barrel, an increase in aggregate valuation of almost \$7,000. 000 over 1883;
