

# RESERVE SAVED AGAIN

## The Bond Syndicate Deposits \$2,000,000 More of Gold.

### \$1,100,000 SENT TO EUROPE TODAY

#### Feeling in Financial Circles Serious and Hopeful

New York, Sept. 4.—It is quite evident that the Morgan-backed syndicate expects another large drain on the sub-treasury this week. The Farmers Loan and Trust company has deposited \$2,000,000 in the sub-treasury. The explanation of the deposit was made, but it was generally known that it was for the account of the bond syndicate and the belief was confirmed later by Washington advices.

This is the second financial institution to come to the aid of the syndicate. The first was the American Exchange National bank, which deposited \$2,000,000 a week ago. At that time it was said that a number of national banks and financial institutions, which had been members of the bond syndicate, had agreed with Messrs. Morgan and Co. to contribute to the syndicate in the spirit of the contract with the government to maintain the gold reserve against expansion of the Federal Reserve. The deposit, while it is not included in the net gold reserve, will, if necessary, maintain the reserve above \$100,000,000. The reserve is a trifle in excess of \$101,000,000.

The first withdrawal of the week and month was made by Messrs. Morgan and Co. who notified the treasury officials that they would ship \$1,000,000 in gold on an outgoing steamer today. Lator Hiss, who is in charge of the gold shipments, would \$1,000,000 in gold for shipment today, making a total of \$1,000,000.

Notwithstanding the continued gold shipments the feeling in financial circles concerning the outlook is serious and hopeful. The possibility of the \$100,000,000 being encroached upon as soon as the bond syndicate failed to continue to put gold into the sub-treasury does not yet seem to be considered. This is due almost entirely to the expectation that the movement of gold to Europe will, before long, cause a plentiful supply of commercial bills to circulate in this country.

### U. S. TREASURY'S CONDITION.

#### Comparative Statement of Receipts and Expenditures for the Fiscal Year.

WASHINGTON, Sept. 4.—The official comparative statement of government receipts and expenditures for the current fiscal year to date and for August has been issued from the treasury.

It shows the receipts for the two months of the fiscal year to have been \$55,222,293, against \$55,222,293 for the corresponding months of the last fiscal year. Expenditures for the two months of the fiscal year to date are \$54,135,248, against \$53,203,219 for the last fiscal year.

The receipts show a gain in customs as compared with the two months of the last fiscal year of more than \$4,000,000, the almost entire increase being collected on imported sugar. In internal revenue a decrease of \$2,000,000 is noted, caused by the heavy withdrawal of \$1,000,000 from bond during July and August, 1914, to escape the increased tax put on by the new tariff bill.

Expenditures are an increase of \$2,000,000 on the war account is shown as compared with two months of the last fiscal year. \$1,000,000 on the Indian account, nearly a million on the pension account and \$1,200,000 on the interest account, are the several items which account for the increase.

A saving of nearly \$1,000,000 is shown this year over the last year on the miscellaneous account. They are entirely quiet now and have been in fact they would not say so to a goose.

# A RICH WOMAN POISONED.

## Her Daughter Arrested Charged With the Crime.

New York, Sept. 4.—The funeral of Mrs. Evalina Bliss, a wealthy lady who died last Friday, has been held in this city. Immediately afterward the daughter of the dead woman, Mrs. Alice Fleming, was arrested at the Colonial hotel on a charge that she murdered her mother by poison. The case is a mysterious, and in some respects, a sensational one. The daughter had been an estate of \$100,000 left by Robert Swift Livingstone, who was the first husband of Mrs. Bliss. The daughter, who was named to her bed-side Friday night, Mrs. Bliss said that she had been poisoned by relatives who would be financially benefited by her death. She said that she had eaten clam chowder and a piece of apple pie, remnants of which she had given to her attendant, and that Mrs. Bliss died within an hour. She said that she had given her the medicine she left for her. He secured the dish in which the chowder had been served, and the apple pie, and gave them to the coroner. The coroner had an examination made of the dead woman's stomach by Chemist W. E. Scholes, who says that he found traces of metallic poison in the stomach, and also in the dish which contained chowder. The dish had evidently been very skillfully prepared by some one with a knowledge of poison.

### THEY NEED A THRASHING.

#### French in Madagascar Use Deterring Tactics.

WASHINGTON, Sept. 4.—Acting Consul Wetter, at Tananarive, Madagascar, has supplied the department of state a translation of the more important parts of a report on customs duties published by the French military authorities. One of the regulations requires that a shop register, guarantee papers and bills of lading shall be deposited at the customs bureau at the same time as the manifest, and remain there until the departure of the vessel. Mr. Wetter says this is so much at variance with his instructions that the arrival of an American merchant man in that port would place the consulate in a most peculiar position. He also calls attention to the effect of the regulations which he says are at variance with our treaty with Madagascar. Mr. Wetter states that the effect of the regulations would be to allow the American cotton trade of 25 per cent on cost price, and the exports to the United States are nearly as heavily encumbered.

### CUBANS ATTACK MINERS.

#### A Pennsylvania Company Operating in Cuba Suffer in Consequence.

WASHINGTON, Sept. 4.—United States Consul Hart, local at Santiago de Cuba, in reporting to the state department concerning the Pampa Mining company, which supplies manganese ore for the American market, gives some interesting details of an attack on the miners employed by this company by the Cuban insurgents. The company is an American corporation, and its stockholders reside in Pennsylvania, but the Spanish officers derive a tonnage royalty from the mine. This fact excited the displeasure of the rebels to such an extent that they fired upon the miners, causing such a stampede that the mine was compelled to close. General Macao has since promised protection, but it has been impossible to prevail upon the men to return. The company had just shipped its first shipment of 600 tons of ore to Philadelphia, when the demand is so great as to be beyond the supply capacity of this company if allowed to operate. The ore is used in the manufacture of steel.
