SIXTY-FOUR CENT RATE IN EFFECT

Very Little Trouble Any Place In the Pittsburg District - Miners at Beilevernon Refused to Work, but an Amicable Settlement Is Expected.

PITTSEURG, Oct. 2 - The quantimity with which the railroad operators have acceded to the uniform rate surprises the miners themselves. About 100 empleyes of J. Somers & Co. at Bellevernon, refused to go to work on account of the company store problem Secretary William Warner called at the mine and discussed the difference with Superintendent Bates The 64-cent

rate is in effect generally. The company agreed to pay the 64cent cash rate, which, in their case, would be 51 cents a ton, but in doing so they would also honor any orders on Somers & Co. from the store. Mr Bates argued that if the men wanted to give an order they could do so with out interference, and not to give them the privilege would be to tamper with their rights

Mr. Warner explained to Mr Bates that it was the very principle they were fighting for, and the operators had agreed on paying the 69-cent rate where store orders were honored. whether they were company stores An amicable settlement is expected No other trouble has been heard of

SOME OPERATORS ACCEDE Massillon Miners Wto Their Strike a

CLEVELAND, Oct. 2 - The Ohio and Pennsylvania Coal company of this city has granted the demand of their miners employed in the Messenger mines at Massillon, where about 2,000 men struck yesterday morning for an advance of 9 cents per ton.

Other Massillon operators say their mines will remain closed until they be come satisfied that the advance had been granted in Pennsylvania. Two thousand Massillon miners have

stopped work. They want 60 cents and operators want to pay 60, but the two disagree as to the plan of fixing the rate. These miners are disposed leave the United Mine Workers of America, who are in happy touch as to prices with operators in four states and the latter are not in sympathy with the Massillon men's stop.
The Panhandle Coal company and the Youghiogheny Gas Coal company.

which control mines in the Pittsburg district, agreed to pay their miners the 64-cent cash rate today. The companie anticipate no trouble among the miners A Pittsburg special says: The new mining rate has gone into effect. There is some controversy as to whether oper-ators are paying the advanced rate of 64 cents per ton cash or 69 cents where a company store exists. So far only on firm is known to have positively refused to pay the rate, as their men are under contract. This may abrogate the agree clare a strike at the mines that do not pay the rate decided upon.

May Interfere With the Fight.

WASHINGTON, Oct. 2. - Secretary Smith, when asked if he would take any steps to prevent the Corbett-Fitz ammons fight taking place in the Indian Territory, replied that if an attempt were made to pull off the fight on any reservation which is directly under the control of the interior de partment, and not set apart as a separ ate government, he most certainly would prevent it. He knew of nothing he said, that would give the department authority to prevent the light upon lands controlled by the five civil ized tribes if the Indians consent.

Schoolboy Meets a Shocking Death. WILLIAMSPORT, Pa., Oct. 2. - A schoolboy impaled on a picket fence and slowly bleeding to death was the horrible spectacle witnessed in the village of Hughesville. A Y. M. C. A. C helal Gets Mixed Up In

the Lurrant Case. San Francisco, Oct. 2.—The defense in the Durrant case has begun the building of an alibi for the young medical student from April 4 up to April 12 inclusive. The purpose of the alibi is to impeach the testimeny of Pawnbroker Oppenhelm and W. J. Phillips, who testified that on April 12 Durrant tried to pawn Blanche Lamont's ring at Oppenheim's store. During the course of the testimony which covered Durrant's movements on April 4 and 5 a struggle was precipitated by District Attorney Barnes, who again challenged the reliability of a rollcall book at Cooper college. The argument resulted in a victory for the defense, so far as the question before the court was concerned, as Judge Murphy sustained an objection to a question propounded by himself to the witness and cut off the

A HOT POLITICAL ROW.

Texas' Special Legislative Session Develops One.

TWO BILLS AGAINST THE FIGHT.

Both Contain au Emergency Clause For Immediate Enforcement - The Sports Can Block the Passage of Any Measure. Governor's Forcible Message.

Austin, Tex., Oct. 2.- The two bills introduced in the special session of the legislature, called by Governor Culberson, to take action regarding the coming Corbett-Fitzsimmons fight, contain an emergency clause, which provides for the acts to go into effect immediately should they become laws.

One of the bills, introduced by Senator Lewis, is recognized as the administration bill, and prescribes that a fistic encounter between man and man shall be deemed a felony, and shall be punished by an imprisonment of not less than one or more than five years. The other bill, prepared by Senator Simpson, provides for an imprisonment of from five to ten years.

As the situation now stands, the

fight management have given up all

hopes in the senate, but they have 18 solid men in the house, and at present these 18 can block the passage of any measure. The matter of the enactment of an anti-prizefight law has narrowed down to a political row between the administration and anti-administration crowds, and the Florida Athletic club has been relegated to the rear. The fight promises to be a very bitter one. The governor in his message reviews the laws against prizefighting in Texas, calling attention to the errors therein and closes by saying: "All persons have been given notice that the Corbett-Fitzsimmons exhibition would not be permitted; that whatever has been done by its projectors was with full responsibility for the consequences. The public interests require that this exhibition especially should be suppressed. Discountenanced by Mexico and the territories, outlawed and driven from every state, it is proposed to assemble a horde of ruffians and gamblers and offer this state this commanding insult to public decency. Against it the instincts and pride of the people revolt, and your prompt and resolute action will spare them this ignominy and

shame He recommends a law making prize fighting a felony. There is a strong lobby here from Dallas, and leaders of it claim to have votes enough in the house to defeat the emergency clause. A Laredo special says: It appears that the Florida club officials have doubts as to their ability to pull off the Corbett-Fitzsimmons fight in Dallas. and have secured by telegraph an option on the amphitheater and arena used for buil-fighting in New Laredo. This would seem to indicate that the fight will be pulled off there. The option is for one month, but further particulars could not be obtained

Prof. Dych Says the Finding of Musk Ox : Saved Their Lives.

New York, Oct. 2. - Lieutenant Peary's colored servant, Matt Henson, and Prof. L. L. Dyche of Kansas State university have arrived from the Arctic regions on the steamship Sylvia. Prof. Dyche, while reticent as to the details of the expedition, admitted that it had been a failure. He declared that Lieutenant Peary had not managed to forge much further north than on his previous expedition. He would not give any reason for the failure other than lack of food in Lieutenant

Peary's camp. When driven back on his first attempt to reach the North Pole, Lieutenant Peary decided to press forward again in 1894. He had buried food in the ice, but when he came to look for it he could not locate the cache. He was obliged to kill his dogs one by one and feed them to the others. Dyche says, and his party hved on walrus meat when they could get it. The pro-fessor states emphatically that the party would never have reached America had it not been that, when just on the verge of starvation, Peary and Henson found some musk oxen, and this saved their lives.

OUR TITLE-HUNTING GIRLS.

London Truth Thinks We Should Manufacture Titles to Keep Cash at Home. LONDON, Oct. 2,-Truth says, commenting upon the engagement between the Duke of Marlborough and Miss Consuelo Vanderbilt: "British mammas and their daughters will soon be clamoring for protection if all the prizes in the marriage market are to fall to the American damsels. The mania for titles inherent in the Anglo-Saxon it is in vain to contend against. But, the matter is somewhat serious to the United States. That country must be a great loser through the accumulations of its wealth crossing the Atlan-If this continues the United States will do well to manufacture the coveted article at home, for it is a wooden nutmeg that is easily bought.

The existence of titles, it is true, is not in accordance with the simplicity of republican institutions; but, in view of the heavy drain, this might be over looked and the parents of any gir might be allowed to buy her a title, sa, for £200,000 (\$41,000,000). Officials Sad Over the Wreck of the Christobal Colon.

INSURGENTS' FRIENDS JUBILANT.

They Claim In Havana That the Rebels Sunk the Cruiser With a Torpedo-She Landed on a Reef During a Storm Crew Saved.

HAVANA, Oct. 2 .- The wreck of the fine Spanish warship Cristobal Colon off the western extremity of the island of Cuba, so soon after the sinking of the Spanish cruiser Barcastegui, which was sunk in collision with the merchant steamer Mortera at the harbor entrance, has cast a feeling of intense gloom over the government officials here. There are none too many Spanish vessels in these waters at present, and the loss of the Cristobal Colon will be keenly felt by the government at this crists.

The friends of the insurgents are circulating the usual sensational stories regarding this, the latest disaster to the Spanish government, claiming that the cruiser was sunk by a torpedo ex ploded by insurgents. In official circles however, this report is classed as being "nothing more than an invention of the rebels." and the distinct statement is made that there is absolutely no reason for doubting the official announce ment made that the Cristobal Colon was driven on the Colorado reef by the violence of the cyclone, and not as result of the explosion of an insurgent In spite of the official assertion, there

not thought it proper to make public all the facts in the case, and this may not be done until the official report of the wrecked cruiser has been received and passed upon. The cruiser carried a crew of 200 officers and men. One report is that she dragged he anchors and went ashore while taking

shelter in the Gulf of Guadiana from

is no doubt that the government has

the fierce cyclonic storm that has been Another report has it that the cruise ran on a reef at night when her com mander believed her to be far enough off shore to continue steaming against the force of the cyclone. Everything possible seems to have been done to save the cruiser, but all efforts in that direction were useless and she wa finally abandoned, a helpiess wreck pounding herself slowly to pieces o the Colorado reef. Some of the crew swam ashore, others reached land by means of pieces of wreckage and the boats, but all the crew, officers and men, were saved by one means or other

"NO MORE DOCTORS FOR ME! They said I was consumptive, sent me to Florida, told me to keep quiet, no excitement, and no tennis. Just think of it. One day I found a little book called 'Guide to Health,' by Mrs. Pinkham, and in it I found out what ailed me. So I wrote to her, got a lovely reply, told me just what to do, and I am in splendid health now." LYDIA E. PINKHAM'S Compound
