Do you know we are taking out teeth every day without one particle of pain? Well, we are doing this very thing with "Odontunder," the only local amesthetic that has stood the test and to-day it is the nly one that is used universally by den tists who are up to date in their calling. The price for "Odontunder" when pain less is 50 cents, but if you experience the least pain, we only charge you the usual rice, 25 cents. How about those teeth that need filling

Well, you say they don't ache. That's just the reason why you should have them filled now. After they have ached once you will probably have to have the nerve killed and the tooth treated if you are de sirious of saving it. I only charge 50 cents for amalgum fillings and from \$1.00 up for gold fillings. These are hard-time prices but they go just the same. Why procras-tinate?—that's a big word but it's a good one right here because procrastination means to the patient loss of sleep, neural gia, ear-ache, tooth-ache and goodness knows what else. We know of a good many young ladies of our acquaintance who would have been married long ago i it hadn't been for those horrid-looking teeth. Remember, to every patient naving teeth filled I give a box of Dr. Richards tooth powder and full instructions for the month I will extract teeth free of charge You say why on the 13th. that's my business. All you have to do i Remember I won't take out your good teeth, because I don't believe in it.
Then you say suppose the 13th falls on
Sunday. Come right along and we will be
only too glad to relieve you of the offend-
