

ASSTANT EDITOR'S VIEW

Democrats Say Little About the President's Message.

REPUBLICANS MUCH PLEASSED

With the President's Attitude on Foreign Affairs, Especially Regarding Venezuela. They Don't Like the Financial Feature—English Comments.

WASHINGTON, Dec. 4.—The Republicans of the senate do not approve the president's message, so far as it concerns finance. It matters not whether they be silver men or not, they all have something to say against it. Many senators expressed the opinion that the message was disappointing because it did not provide a method for raising revenue. All Republicans who are known as southerners were especially disappointed on account of this feature of the message. The silver men were, of course, very much displeased by the president's raising of the tariff on silver. For the most part, however, the Republicans spoke in terms of approval of the position of the president regarding foreign affairs, and more especially as to what he said about Venezuela. The silver Democrats had very little to say regarding the message and it was for them a disappointment for them. There was a general impression in the senate that the proposition of the president in regard to the greentacks would not be successful.

ENGLISH OPINIONS.

Comments of Different London Journals on the President's Message. LONDON, Dec. 4.—The newspapers today very generally contain editorial comments upon President Cleveland's message to congress. The Graphic says: "The cruelties and indignities of President Cleveland's present pronouncements on foreign affairs might have been evolved by the late Mr. Blaine in his worst mood. Can anything be more absurd than the proposal that the Schomburgk line in Venezuela should be submitted to arbitration? The reference to Cuba is infinitely more injudicious than any other expression of sympathy with filibustering."

The Standard, the Conservative organ, says: "We cannot but regret the tone of President Cleveland's references to Venezuela. If we may judge of the tone and substance of Mr. Olney's dispatch from the paraphrase thus imparted to congress, we are not surprised that no answer would be returned, and we further undertake to predict that when the reply reaches the white house it will furnish the president with ample matter for serious reflection. We must be pardoned if we venture to say that the whole passage referring to Venezuela is a disgraceful assumption of national and unbecoming deductions. If the American desire to carry out the views expressed in the message, they would be eager for arbitration the experience in the Schomburgk line in Venezuela would hardly encourage it. It is not easy to argue calmly when we find President Cleveland has already prejudged the merits of the case. It is not even great states have rights, and though Great Britain is able to maintain her dignity and interests, it ought not to be a mark for public affront in the president's message. We are not much impressed with his currency proposals. He suggests a pallid and not a currency cure."

The Post (Conservative) says: "As regards Panama and Venezuela, the message appears to be framed on lines which Senator Chandler might approve. It is neither dignified nor politic for the administration at Washington to take up the quarrels of South American countries which do not observe the usages of civilized nations. America will find some day that this sort of partizan intrigues are a source of weakness, and they will not like that at all."

Two lively subjects. Resolutions regarding Cuba and the Monroe Doctrine. WASHINGTON, Dec. 4.—The senate has plunged into real business. Naturally the president's message attracted the attention of the day, but aside from this there are other resolutions regarding the Monroe doctrine and the Cuban rebellion, and after that the usual deluge of bills and resolutions, running into the hundreds, followed.

Mr. Call (Dem., Fla.) gave notice that he would call up his Cuban resolution today. Mr. Call (Rep., Ill.) introduced a resolution on the Monroe doctrine similar to that presented by Mr. Lodge. He gave notice that he would call up the resolution as soon as permissible for the purpose of addressing the body thereon. Mr. Allen (Pop., Neb.) offered a concurrent resolution for the immediate abolition of the islands possessions to the United States, the upholding of the Monroe doctrine and a firm foreign policy respecting the protection of American citizens abroad.

At the brief executive session the resolutions of Mr. Olney as secretary of state, and Mr. Harmon, as attorney general, were confirmed, and that of Rufus W. Peckham to the supreme bench referred to the entire committee. Unknown Canadian Girl Indicted. BUFFALO, Dec. 4.—The body of an unknown girl who committed suicide at a fashionable boardinghouse and who is supposed to be from Canada lies at the morgue, unrecognized and unnamed. It is that of a young woman about 24 years of age.

THE MESSAGE READ.

THE PRESIDENT WRITES ON FOREIGN RELATIONS AND FINANCES.

Advocate Retirement of Greentacks and Extension of National Banking System. A Firm Demand on England to Arbitrate With Venezuela.

WASHINGTON, Dec. 4.—President Cleveland, in the opening of his message to congress, says that the present legislative session presents an important juncture in our history. He says that the interests of our people and the needs of the country give special prominence to the consideration of our foreign relations and of our national finances. He then says: "In speaking of the attacks on mission-aries in China, the demand that the United States and other powers for redress were followed by the disgrace and dismissal of certain prominent officers, and the execution of the sentence of death by a number of those unjustly convicted, I am reminded of the participation in the outbreak of 1895."

Of the case of ex-United States Consul John L. Waller, sentenced to 30 years imprisonment in France by a French court in Madagascar, accused of giving information to the Hoivas, in their war to prevent France seizing their island, in return for a bribe of \$250,000. (The president says that to him (Waller), the president says France has furnished this government a copy of the court record, but the evidence in support of the charges has been withheld.)

Should Retaliate Against Germany. The president, in regard to the discrimination of Germany against our food products and insurance companies, advocates that we retaliate against her in the same manner as she has treated us. He says that in regard to our relations with Great Britain the president says that England has failed to conduct her policy with respect to the regulations required. He says that unless she will be satisfied with the regulations, we will be satisfied with the regulations. He says that we will be satisfied with the regulations, and she will be satisfied with the regulations.

ments of foreign capital, as well as the return of our securities already sold abroad, and the highest possible rate of change, which induced the shipment of our gold to be drawn against a matter of speculation. The failure to maintain the gold reserve by repeated bond sales is described as a calamity. The situation was exceedingly critical. With a reserve of only \$10,000,000, the government was in a position to pay its obligations only by the sale of gold. It is estimated that the gold reserve on the date of the contract, and at least one-half of the amount was to be furnished from abroad. It was also agreed by the government that during the continuance of the contract they would by every means in their power protect the government against gold withdrawals. The contract also provided that if congress would authorize the issue of bonds payable by their terms in gold and bearing interest at the rate of 4 per cent per annum, and amounting to about \$22,000,000, the gold reserve would be complete its delivery within about six months from the date of the contract, and at least one-half of the amount was to be furnished from abroad. It was also agreed by the government that during the continuance of the contract they would by every means in their power protect the government against gold withdrawals.

apprehensions as to our ready ability to pay our way with such money as we had and the question whether or not our current receipts meet our current expenses has not entered into the estimate of our solvency. "During the fiscal year ending June 30, 1894, the total receipts of the treasury were \$240,000,000, and the total disbursements were \$230,000,000. The balance on hand at the close of the year was \$10,000,000. The total receipts of the treasury for the fiscal year ending June 30, 1895, were \$240,000,000, and the total disbursements were \$230,000,000. The balance on hand at the close of the year was \$10,000,000.

Argues Against Free Silver. The final portion of the message is devoted to a consideration of free silver. The president says: "Those who believe that the present situation of our country is artificial, that it is the result of the artificial ratio with gold of 16 to 1 would restore the parity between the gold coin and consequently between the gold coin and the silver coin, oppose an unsupported and improbable theory to the general belief and practice of other nations and to the teaching of the wheat, cotton and economic laws of nature. It is not clear how an increase in the circulation of silver, which is a measure of the demand for silver, would satisfy those whose only anxiety is to gain gold from the government store."

A HELPING HAND WOMEN suffering from any form of female weakness are requested to communicate promptly with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America. This confidence has induced more than 100,000 women to write Mrs. Pinkham for advice during the last few months. Think what a volume of experience she has to draw from! No physician living ever treated so many cases of female ills, and from this vast experience surely it is more than possible she has gained the very knowledge that will help your case. She is glad to have you write or call upon her. You will find her a woman full of sympathy and a great desire to assist those who are sick. If her medicine is not what you need, she will frankly tell you so, and there are nine chances out of ten that she will tell you exactly what to do for relief. She asks nothing in return except your good will, and her advice has relieved thousands. Surely any ailing woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance. Read the following illustration: DEAR MRS. PINKHAM: In March I wrote you the following letter, asking you if your remedies would aid me: "I am twenty-eight years old, and have three children. I suffer terribly with pain in the small of the back, dizziness, kidney trouble, nervousness, burning sensation in my stomach, and I am unable to do anything." I received a reply, a very kind helpful letter. I followed your advice. To-day, I am glad to be able to write that I am a well woman. I wish all women in my way afflicted would do as I did, and they will find relief. I think any woman who will continue to suffer with any of these trying diseases peculiar to our sex after hearing what Lydia E. Pinkham's Vegetable Compound has done in so many cases, is responsible for her own sufferings. MRS. JAMES J. HAGAN, 342 Clinton St., Nicetown, Phila., Pa.
