A sample package of cream of tartar was analyzed which showed that it contained no cream of tartar, but was made up of acid calcium phosphite, bicarbonate of soda and corn starch.

According to Lord Salisbury's opinion the Monroe doctrine is not international law. It may not be so considered by the diplomats of Europe but they will be given to understand before the Venezuela affair is over that these United States intend to write it on all he statute books published on this side of the Atlantic. They may regard it as law or not in Europe, but over in this hemisphere, ignorance of what they should know will not save their hides.

THE Philadelphia Press as well as Chairman Carter, of the Republican national committee, sounds notes of warning that the Republicans are getting entirely too bumptious in their claims. The Press sees in recent municipal elections an indication that the people are growing restive under this bumptiousness. It makes this statement: "Three years ago when the Republican landslide began it made its first appearance in the cities. Communities which had been governed by Democratic mayors and councils elected Republican mayors and councils. Indianapolis for instance, gave the first intimation that Indiana would go Republican by choosing a Republican mayor, and Chicago and Milwaukee foreshadowed the great overturns in Illinois and Wisconsin by returning large Republican pluralities in the election of city officials.

"During the past few weeks, however, the drift in cities appears to have been in the opposite direction.'

And then it recounts recent Democratic successes in cities of the country, concluding with this warning:

"It will be well if the Republicans take note of these warning signals held out from cities and ask themselves if in the confidence of an assured return to power they have not done something to weaken the trust of the people and ulti- No doubt this will be the program, and mately bring upon themselves such an emphatic rebuke as the Democratic party has received."

Is the house at Washington on Wednesday Mr. Hitt (Republican, Illinois,) introduced a bill appropriating \$100,-000 for the payment of the expenses of a commission to examine into the boundary between Venezuela and British Guiana. Mr. Boutelle, Republican, of Maine, suggested reference to a committee, but made no objection to immediate consideration. After brief, stirring speeches by Mr. Hitt and Mr. Crisp, Democrat, of Georgia, urging united and speedy action as essential to the successful prosecution of the contention by the United States in regard to the boundary dispute, the bill was passed without a dissenting vote.
