The United States Should Try to Be an International Arbiter-The President's Message Invites Lots of Trouble-Interesting Address to Lawyers.

ALBANY, N. Y., Jan. 22 .- Hon, Chauncev M. Depew's address on "Patriotism and Jingcism-The Lawyer's Duty" before the State Bar association, was a notable effort. In part, he said :

"The events of the past few weeks have demonstrated how easy it is to arouse the fighting blood among our own people. A generation has come upon the stage since the civil war who are eager for battle.

"Now is the time for the legal profession to perform a great work upon the lines of the lawyers of the centuries in promoting international arbitration. The present dispute between the English-speaking races which is agitating the world calls for both practical wisdom and legal acumen for its solution. There is no dissent in this country from the Monroe doctrine as promulgated by President Monroe and interpreted by Jefferson, Madison, Webster and Calhoun.

"Yet anyone who studies the Monroe doctrine will see how, in each individual case, excent where there is a flagrant violation like the French invasion of Mexico, the applicable interpretation of it should be the subject of judicial determination. The president's message to congress presents a novel view of the principle. If there is a dispute as to the bandary line between a South American republic and a European power, no matter how insignificant the territory involved or how distantly it affects the independence of the country or how remotely it may interest us, we must demand that the two governments arbitrate the line, and if they refuse, we must find out, as best we can, what the line is and enfore it by war. If, however, pending our inquiry, the two parties agree, we have no further rights or dutics. This seems to surrender the doctrine, if Venezuela or Brazil chooses to sell a portion of its territory,

A slight extention of the principle compels us to assume a protectorate over all these republies. Their enterprises and industries are almost entirely owned or controlled and carried on by Americans, English, Germans, French and Italians. Their governments are in almost perpetual revolu-tion, and the military dictator of the hour confiscates property right and left. except that of foreigners. If he could rely upon the United States to protect him, he would treat the foreigners the same way, and at his whim we would be continually in troable with foreign countries demanding reparation. This would require an immense mavy and

are never without them in the house, - Moses Grenier, Lowell, Mass. "I have used Aver's Pills, for liver troubles and indigestion, during many years, and have always found them prompt and efficient in their action."-L. N. Smith, Utica, N. Y.

" I suffered from constipation which assumed such an obstinate form that I feared it would cause a stoppage of the bowels. Two boxes of Ayer's Pills effected a complete cure."-D. Burke, Saco, Me.

"I have used Ayer's Pills for the past thirty years and consider them an in-valuable family medicine. I know of no better remedy for liver troubles, and have always found them a prompt rure for dyspepsia."- James Quinn, 90 Middle st., Hartford, Conn.

"Having been troubled with costiveness, which seems inevitable with persons of sedentary habits, I have tried Ayer's Pills, hoping for relief. I am glad to say that they have served me better than any other medicine. I arrive at this conclusion only after a faithful trial of their merits."-Samuel T. Jones, Oak st., Boston, Mass.
