Gresham Explains.

On the Administration—One Article Came From Hatch, the Present Minister From Hawaii, So Thurston Acknowledged. Begged to Be Allowed to Resign.

Chicago, Jan. 29.—"Lorin A. Thurston begged Secretary Gresham not to forward his letter of recall to Honoluln, and offered, if the letter was not sent. to immediately return to Hawaii and tender his resignation as minister to that country," said H. M. Landis, ex-private secretary of the late Secretary of State Gresham, when he read the charges made against Gresham and the president, an account of which has already appeared in these dispatches. It will be remembered that Thurston charged the late secretary with trying to pick quarrels with him and denying him information he should have received before it was made public by the state department.

'Long prior to the recall of Thurston,' said he, "it was known he was maintaining, in the Hawaiian delegation at Washington, a press bureau. This was known to the members of the diplomatic corps and to the best posted men of Newspaper row. The object of this bureau was to secure the publication of matter abusive of the administration and of those Americans who were opposed to annexation of Hawaii. "An origininal draft of an article coming from Mr. Thurston was secured and submitted to Secretary Gresham. Mr. Thurston was called to the state department and the original shown to him. Thurston said that he had been

Mr. Thurston, I understand, was also persona non grata in his own country "No state official of this government was bound by any code of diplomacy to perpetually endure the press attacks which Mr. Thurston authorized from the legation of which he was the head."

A NEW B. & O. SYSTEM.

Pittsburg to Chicago Lines to Form It. King to Be President. Baltimore, Jan. 29.-It is not improbable that the refunding of the floating debt of the Baltimore & Ohio Railroad company will result in the formation of a new system, to be known as the Baltimore and Ohio Northwestern. The proposed collateral trust loan will probably amount to \$12,000,000 instead of \$10,000,000, as at first estimated, the greater part of it being intended to fund vide for needed improvements on the en-

tire system. To carry out this arrangement, it intended to form, it is said, the Baltimore and Ohio Northwestern system out of the various small branches running from Pittsburg to Chicago and forming the main line to Chicago. The Pittsburg and Western branch will be the nucleus of the proposed new system. Mr. Thomas M. King, second vice president, will likely be elevated to the presidency of the new line.

Ammunition Thrown Overboard.

New York, Jan. 29.—Some survivors from the Cuban filibustering steamer Hawkins, wrecked off Long Island Monday morning, have reached this city. Authorities all along the coast, from this city to Florida, were on the lookout for her, not knowing that the vessel had been wrecked. The cruisers Montgomery and Raleigh were also supposed to be on the lookout. A survivor says that she had 120 men on board, all being rescued by three schooners, but six who were drowned in getting on to the

The vessel sprang a feak about 3 o'clock Monday morning and they were unable to keep her going in the rough sea. The water put out the fires. They threw overboard all the coal and the arms and ammunition. There were over \$80,000 worth of arms alone, two Hotchkiss guns, 1,200 Reminton and Winchester rifles and 1,000,000 rounds of ammunition. In addition to this there were 3,000 pounds of dynamite and a lot of raw material for making

heavy explosives. Calisto Garcia Iniga was in command of the revolutionists and his son, Carlos Garcia, was second in command. General Rosa was also on board. The survivors were landed at different points along the coast

way, it was denied that the Hawkins was on its way to Cuba. The survivors that reached this city were landed at Vineyard Haven, N. J. by the schooner Helen H. Benedict. The other two schooners are on their way to Boston.

A Boston special says: The arrivals of schooners Helen H. Benedict and Leander V. Beebe are anxiously awaited to furnish more satisfactory details of the foundering of the steamer J. W. Hawkins, carrying an alleged filibustering expedition in the waters south of New England. Both the schooners mentioned are coal laden, bound from Norfolk to Boston, and according to meagre particulars of the disaster at sea bringing into safety many survivors, the exact number of those lost at sea being undetermined until the number saved are fully accounted for.
