H. A. ENGLEHART, Chairman Cambria County Democrati committe. Ebensburg, Pa., March 18th, 1896.

AT Harrisburg on Wednesday, Deputy Superintendent of Public Instruction Stewart, rendered an opinion in an important matter that interests the teachers of the state. The McKeesport pubadopted a motion to the effect that "all teachers the required to undergo an examination, regardless of their normal school diplomas, permanent or professreferred to the department of public inright to adopt such a rule. In the opinion Mr. Stewart says that "gradu ates of state normal schools hold a normal school certificate, or diploma, lawfully granted to them by the state board of examiners, which certificate, or diploma, exempts the holder from further examination in any of the branches named thereon." The deputy superintendent declares that the action of the McKeesport board, if carried into effect, will be regarded as an unwarranted and arbitrary exercise of official auttority.

Mr. Reed voted against the original, Bland bill, against the Bland-Allison bills and in favor of sustaining the Haye veto. But with McKinley and Allison he voted in 1890 for the Sherman Silver Purchase act, which was a sop thrown to the silver mine senators in order to secure the passage of that McKinley tariff bill. This political deal was infamous. Mr. Reed has further compromised himself by his leanings toward the establishment of bimetallism by the levy of tariff wars to secure international compliance.

No platform utterance at St. Louis can wipe from the record of McKinley. Allison and Reed the stain of their past performances. If it be true that they have repented of past follies and changed their minds they should take the publie into their confidence. Until they shall have done so it is fair to presume that they are not sound on the financial question. Their popularity, however, indicates that they are as sound as their party, and that a straddling platform may be expected suited to straddling

He made the senate amendment to the post office appropriation bill, giving \$80,000 additional compensation to the Oceanic Steamship Company for carry ing the mails from San Francisco to Hawaii and other points, the text for some interesting remarks, in which he said that the mail subsidy system, which he opposed when he was postmaster gener al, had entirely failed to give a more expeditions or better mail service. The supporters of subsidy defended the amendment on the ground that it was

There is rather a nasty row among the Republican members of the nouse com mittee on public buildings and grounds over the old onestion of a site for a new government printing office. There will be no political reorganizatien of the employes of the senate. This was definitely settled at a conference of representatives of the Republican and Democratic senators, and was brought about because the Republicans did not want to agree to the demands made by the populists for voting with them to elect the secretary and sergeant-at-arms nominated by them early in the session, nor the Democrats to make a deal with populists to vote against them. Under the new arrangement the Democratic secretary and sergeant at arms will be retained, and each senator, regardless of politics, will be given his pro-rata share of the minor positions.
