PRESIDENT HAS WRITTEN NO NOTE.

At Least Nothing Is Known at the State Department Regarding the Report Published In London-Spaniards Still Bluffing About War.

WASHINGTON, April 15 .- Nothing is known at the state department of any such communication from President Cleveland to the Spanish premier, Senor Castillo, as is referred to in the cablegram from Madrid to the London Pall Mall Gazette. It is surmised here that the matter is entering into Spanish politics, and is perhaps being therefore more or less distorted to serve party The intimation of a purpose on the

part of the Spanish government to grant a large measure of local autonomy to the Cubans confirms an understanding that has obtained here to the effect that the abuses of which the Cubans complain and which have served as the basis of the present insurrection will be largely abated by the Spanish government just as soon as it can be done without the appearance of compulsion against which Spanish pride revolts; and it is perhaps a knowledge of this fact that has operated to shape the present attitude of our administration. The telegram said: "Senor Canovas del Castillo, the Spanish premier, is ill and cannot be interviewed. His relatives, however, confirm the existence of a communique from President Cleveland. But, in the present state of pubhe feeling, it will be impossible for the government to accept his offer. Matters are very complicated and, while the government will do everything in its power to avoid a quarrel with the United States, it will prefer to fight rather than lose Cuba through foreign pressure. The coming cortes will grant Cuba every reasonable franchise to be

Indianapolis, April 15 - At a meet ing of the Pittsburg Window Glass association and the Western Window Glass association held in this city it was decided, owing to the glut in the glass market, to close down every window glass factory in the United States on

The action taken means that thousands of men will be thrown out of employment; just how many the manufacturers themselves could not estimate. The burden will fall heaviest in the east, where many firemen, stokers, coal handlers, etc., are employed owing to the lack of natural gas. One factory in Pittsburg, of which H. Sellers McKee is at the head, will be forced to lay of 2,200 men. In the two associations there are factories that use 1,623 pots, which are capable of a total output an nually of 120,800 boxes of glass. Pearcey at Colon, by Captain John Hendricks, of the American schooner Geo W Whitford, which was seized by the Colombian gunboat Cordova off Manzanillo Point, on March 31, have been received in this city and will be forwarded to the state department. Captain Hendricks' statement says the schooner had complied with all the regulations of the port from which she

Business Betwe. Wheeling, Pittsburg and Cumberle Will Pay Expenses. NEW YORK, April 15 .- Persons in position to know, state that the report of Stephen Little on the Baltimore and Obio and the Pittsburg and Western will show a condition of things considerably more favorable than the public has been led to suppose. The repair shops, it will be remembered, were put en full time shortly after the receivers took hold of the property, and it is now said that the entire rolling stock of the road will have been thoroughly over-hauled within three months. The improvement in this respect is already apparent, and is having its effects on the

ability of the road to handle the traffic now coming to it. It is also stated that during the recent trip of the receivers and their party over the lines it was made plain to them that there is sufficient business in the Cumberland-Pittsburg-Wheeling triangle to put the Baltimore and Ohio on a paying basis. The traffic of the region, chiefly coal, coke and lumber, is said to be susceptible of decided expan-

The business of the line is now said to be showing satisfactory growth: and the returns are helped by the attitude of competing lines which are standing by the traffic agreement. The Baltimore and Ohio is also maintaining rates strictly. In former years the line has been known as a rate cutter; but this policy was some time ago abandoned.

Knapp, the American missionary recently expelled from Bitlis, will be delivered to the United States consul at Alexandretta.

It is further stated that the sultan's irade providing for the expulsion of the other missionaries from Asia Minor has been repealed, and for the present, at least, missionaries need not anticipate any further trouble. M'KINLEY HAS GREAT STRENGTH.

Bunter, His Lieutenant, Led Off In Convention This Atternoon by Trying For Temporary Chairmanship - Third Kentucky District For McKinley.

LOUISVILLE, April 15 .- The state Republican convention today will endorse the presidential candidacy of Governor W. O. Bradley, but not without a struggle.

The gathering was called to order in the auditorium at 2 p. m. this afternoon and promises to be very interesting, the degree of interest depending upon the strength the McKinley or, more properly, the anti-Bradley leaders, will be able to muster. The governor and his friends have control of the organiza-

The fight started in from the time that Chairman Yerkes of the state central committee called the convention to order, over the selection of tem porary chairman. The Bradley candidate is Judge Morrow of Somerset, the governor's brother-in-law. The anti-Pradley men named a candidate in opposition to Judge Morrow and are mak ing their fight on the line that the latter's selection indicates a purpose to force upon the convention a cut and dried Bradley program. Their man is A. R. Burnam, elector for the Eighth district.

The Bradley men claim and the opposition concede to the favorite son a majority of the instructed delegates. The work of the governor's supporters, who are effectively using the argument of state pride and the Democratic encopragement his opponents are receiving, is expected to bring enough of the uninstructed or legates to his support to make a sate working majority.
