Dr. Jamieson, state chairman and leader of the anti-McKinley forces, agreed that this resolution should not be referred to the committee on resolutions. Dr. Jam-

Already from 10,000 to 12,000 visitors are in the city, and every one of them has taken sides either for McKinley or for Cullom Some of the delegates who have been instructed by their counties to support McKinley say that when the instructions were given it was the understanding that there was to be no Illinois candidate. Now that Cullom has come here as an avowed candidate they believe, they say, that it is their duty to do all in

their power for him But there are many more instructed for McKinley, who will abide by their instructions and fight for him to the end. Should a fight be precipitated on the resolutions question, the truce or agree ment may be declared off and the whole program changed. Nothing is certain, for there are so many politicians on both sides, and each side will do everything to carry its point.
