A PASSENGER train on the Lehigh Vallev railroad, between White Haven and Hazleton, Pa., ran into a cow on Monday afternoon, and the engine and three cars toppled over the edge of a high embankment. Engineer William Doude received injuries from which he died shortly afterwards. Barney Mooney, the fireman, was seriously injured, and more than a score of passengers were badly hurt. Several of these will die.

SENATORS HILL, Murphy, Gorman, Brice and Smith will support Bryan and Sewall and Tammany will be in line for the success of the Democracy the same as it has always been during its long career. All of the gentlemen mentioned, as well as the Tammanyites, rightfully believe that the success of the Democratic ticket is the best thing for the country now and is preferable to the election of McKinley and Hobart and a return to the policy of protection.

SENATOR JONES, of Arkansas, who was elected chairman of the Democratic national executive committee, left Chicago for Washington on Monday, and will announce from there the executive committee of the national committee, which will have charge of the campaign. The time and place for the formal notification of the Democratic presidential yet been determined, but will be in a few days. In Minnesota over one hundred Re publican weekly newspapers and several dalies have bolted their party. Only a few days ago many of the leading Republicans of that state including Congressman Charles A. Towne, of Duluth, whose speech in congress last winter electrified the whole country; the Hon. John Lind, ex-congressman from the Second District, the Hon. Frank A. Day, Lieutenant governor: the Hon. Frank M. Nye, the late Bill Nye's brother, and hundreds of others leading Republicans, including many state senators and members of the legislature joined in signing a manifesto renouncing all allegiance to the Republican party. Such defections in Republican strongholds will certainly result in the defeat of the Republican national ticket.

THE Republican newspapers are now publishing columns of stuff relative to what McKinley will do for the business interests in this country if elected, all of which is mere rot, and will catch none but the most gullible. Even should McKinley be elected he will be the merest figurehead. Neither he nor his party will be able to bring about the enactment of a single law without the concurence of the United States senate. which body they do not control, neither will they be able to control it for some es the enthusiastic belief that the Chiyears to come. Ir has been said that Wm. Jennings Bryan, of Nebraska, "won fame in an hour" by his address on the tariff in congress in March, 1892, but his race for fame began 12 years prior to that date, for he was a student of political economy at a very early age and was on the stump before he was old enough to

Wm Jennings Bryan was born in Sa lem, Marion county, Illinois, March 19, 1860. In 1877 he entered Illinois college, and graduated as valedictorian in studying in the office of Lyman Trumbull. After graduation he began practice at Jacksonville.

In 1887 he removed to Lincoln, Nebraska, and became a member of the law firm of Talbot & Bryan. He was elected to congress in the First Nebraska district in 1890 over W. J. Connell, of Omaha, and was re-elected in 1892 over Allen W. Field, of Lincoln. In these successful campaigns Mr. Bryan won Mr. Bryan declined a third nomination, and was nominated by the Democratic state convention for United States senwas run into by a fast freight and all of ator by the unanimous vote of the convention. The Republicans, however, ditched. The conductor of the freight had a majority in the legislature, and Bryan was defeated.

He first appeared in the political arena of Nebraska in the campaign of 1888 when he stumped the first district for J. Sterling Morton, nominee for congress. The same year he declined a nomination for lieutenant governor.

Arthur Sewall, the Democratic nominee for vice president, was born in Bath, Me., his present place of residence, on November 25, 1835. He is at present the senior member of the extensive shipbuilding firm of Arthur Se wall & Co. Mr. Sewall was, for a number of years, president of the Maine Central railway, and the Portland, Mt. Desert & Machias steam boat company. He is a director in several other raiload lines and president of a national bank. In brief, Mr. Sewall is one of the most prominent business men in New tender money by private contract. England. He springs from a pioneer family of Maine. For some years he has been an advocate of free coinage. He has been the Maine member of the Democratic national committee continnously since 1884.

The Platform.

The following is the full text of the Democratic platform agreed upon by the committee on resolutions by a vote of 23 to 15 and adopted finally by the con-

We, the Democrats of the United States, in national convention assemble do reaffirm our allegiance to those great essential principles of justice and iberty upon which our institutions are founded, and which the De no rati party has advocated from Jefferson's time to our owa-frelom of see h freedom of the press, freedom 1881. For the next two years he attend- of conscience, the preservation of pered the Union Law college, Chicago, sonal rights, the equality of all citizens before the law and the faithful observ-

ance of constitutional limit strons. During all these years the Democratic party has resented the tendency of serfish interests to the centralization of governmental power, and steadfastly main tained the integrity of the dual scheme of government established by the found ers of the republic of republics. Under its guidance and teachings the great principle of local self government has found its best expression in the maintenance of the rights of the states and in its assertion of the necessity of confining national fame as an orator. In IS94 the general government to the exercise of the powers granted by the constitution of the United States

MONEY QUESTION. Recognizing that the money question s paramount to all others at this time, we invite attention to the fact that the federal constitution names silver and gold together as the money of the United States, and that the first coinage law passed by congress under the constitution made the silver dollar the monetary unit and admitted gold to free coinage at a ratio based upon the silver dollar

We declare that the act of 1873, de monetizing silver without the knowledge or approval of the American people, has resulted in the appreciation of gold and a corresponding fall in the price of commodities produced by the people; a heavy increase in the burden of taxation and of all debts, public and private; the enrichment of the money lending class at home and abroad; the prostration of industry and impoverishment of

We are unalterably opposed to monometallism which has locked fast the prosperity of an industrial people in the paralysis of hard times Gold monometallism is a British policy, and its adoption has brought other nations into financial servitude to London. It is not only un-American, but anti-American, and it can be fastened on the United States only by the stifling of that spirit of love of liberty which proclaimed our political independence in 1776 and won it in the war of the revolution.

FREE SHVER COINAGE DEMANDED. We demand the free and unlimited coinage of both gold and silver at the present legal ratio of sixteen to one. without waiting for the aid or consent of any other nation. We demand that the standard silver dollar shall be full legal tender equally with gold for all debts. public and private, and we favor such legislation as will prevent for the future the demonetization of any kind of legal

We are opposed to the policy and practice of surrendering to the holders of the obligations of the United States the option reserved by law to the government of redeeming such obligations in either silver coin or gold coin.

We are opposed to the issuing of interest bearing bonds of the United States in time of peace, and condemn the trafficking with banking syndicates, which, in exchange for bonds and at an enormous profit to themselves, supply tain the policy of gold monometallism.

Congress alone has the power to coin and issue money and President Jackson declared that this power could not be vote and refused to take part in the con- delegated to corporations or individuals. We therefore demand that the power to ssue notes to circulate as money be taken from the national banks, and that all paper money shall be issued directly by the treasury department, be redeemed in coin and receivable for all debts

public and private. We hold that tariff duties should b levied for purposes of revenue, such duduties to be so adjusted as to operate equally throughout the country and not ty. discriminate between class or section, and that should be limited by the needs of the government honestly and economically administered

MCKINLEY LAW DENGUNCED. We denonnce as disturbing to business the Republican threat to restore the McKinley law which has twice been condemned by the people in national elections, and which enacted under the false plea of protection to home judustry. proved a prolitic breeder of trusts and monopolies, enriched the few at the expense of the many, restricted trade and deprived the producers of the great American staples of access to their nat-

But for this decision by the supreme court, there would be no deficit in the revenue under the law passed by a Democratic oongress in strict pursuance of the uniform decisions of that court for nearly 100 years, that court having in that decision sustained constitutional objections to its enactment which had previously been overruled by Boies 20; Harrity, 19; Lewis, 11; Daniel, the ablest judges who have ever sat on 11; Pattison, 2; White, 1; Teller, 1; that bench. We declare that it is the duty of congress to use all the constitutional power which remains after that decision, or which may come from its reversal by the court as it may hereafter be constituted, so that the burdens of taxation may be equally and imparti ally laid, to the end that wealth may bear its due proportion of the expenses

of the government. FOREIGN PAUPER LABOR. We hold that the most efficient way of protecting American labor is to prevent the importation of foreign pauper labor to compete with it in the home market and that the value of the home market to our American farmers and artisans is greatly reduced by a vicious money system, which depresses the prices of their products below the cost of production, and thus deprives them of

The Mystery of a Rullroad Train.

Washington, July 13 .- Harry J. Pocock, for many years register of St. Louis, died suddenly Saturday night on a train in Ohio, between Athens and Parkersburg. His remains were left at the latter city. Mr. Pocock retired apparently in good health. About 11 o'clock deputy United States commissioner of pensions, was awakened by an agonizing shriek from the upper berth occupied by Pocock. The latter tumbled from his berth into the aisle and died soon after. The lower part of the berth occupied by Pocock contained two women, who were discovered in the act of ransacking the dead man's clothes. They claimed to be relatives of Pocock, but later admitted this to be false. They were arrested on the charge of petit larceny, with the assumption that they had doped Mr. Pocock for the purpose of robbing him. They had \$518, which was supposed to have been taken from the dead man's clothes.
