FR. DAY, - - - JULY 31, 1896. BRYAN, the Democratic nominee for president, is booked to delilver four

speeches in this state during the cam-

paign. tions" when "one of the great parties patriots of which Senator Quay and Tom Platt are conspicuous types.

In the Republican national platform of 1888 we find this declaration on the money question: "The Republican party is in favor of both gold and silver as money." Four years later the national "The American people, from tradition, and interest, favor bimetallism and the Republican party demands the use of both gold and silver as standard money. How about that "tradition and interest"

SECRETARY CARLISLE said, Feb. 21, 1878: "The conspiracy which seems to have been formed here and in Europe to destroy by legislation and otherwise from three sevenths to one-half of the metalic money of the world, is the most gigantic crime of this or any other age. The consumation of such a scheme would ultimately entail more misery upon the human race than all the wars, pestilence and famines that ever occured in the history of the world."

The Republican papers are publishing bankers, brokers, railroad presidents and millionaires who declare their intention for McKinley. Bad as free silver is, according to the Republican press, this policy is likely to strenghten the white metal cause. The fact is, the free silver people don't want the support of the brokers and railroad presidents and it will be good news to them to learn that they will bolt.

FROM 1792 up to February 12 1873, silver in this country had the right of free coinage at the United States mints. the same as gold and during that time by a demonstration to the contrary. there was particularly no flunctuation in the parity of the two metals. The greatest difference known in the market per cent., which was owing to special causes. An experiment of 81 years fully justifies the belief that free coinage would again restore the parity not only between money but property in general

Is a recent interview, Senator Jones, chairman of the Democratic national committee said: "The eastern papers which are belittling this movement are simply doing now what they have done in the past. They are not hurting us, and they are deceiving their own people. We have strengthened our platform by our nominees, and we are certain to win. Illinois, Indiana and Iowa are safely Democratic, and the east is debatable Not only will we elect our president and vice president, but we will have a majority of the next house of representatives, even if we do not get a

THE Democratic state committee of New York, met at the Hoffman house in New York city on Wednesday and at a session lasting only 10 minutes decided to call the convention for the nominaation of state officers to meet at Buffalo on September 16. No other business was considered at the meeting. Prior to the meeting, several of the, leaders among the committeemen were questioned as to the probable action of the state convention in regard to the candidates and platform of the national convention, recently held at Chicago. The general scntiment, was that the candidates will be indorsed but on the subject of the platform there was less upan-

THE cost of the division encampment of the National Guard at Lewistown will foot up not less than \$200,000. The pay of the troops alone aggregates \$139,139,94. The First brigade has received of this amount \$42,006.92 and the Third brigade \$42,722 01. The balance goes to the Second brigade and general division head quarters. The cost of transporting the troops and their supplies to and from Lewistown will amount to at least \$40,000. The subsistence bills and the bills for horse hire and other necessaries will aggregate \$35,000 or \$40,000. These bills will be garden for Wednesday, August 12, for paid by General Stewart as soon as they have been received and approved by the military board. The state makes an annual appropriation of \$325,000 for the support of the National Guard.

THE army worm is a species of caterpillar. It hatches from an egg deposited from the night-flying moth. Like the moth, the caterpillar prefers the night for labor and ordinarily remains quiet during the day. The hot sun is distasteful to the worms, and they die if exposed to it for a considerable time.

The moth that lays the eggs is nearly one inch long and is one and threequarters inches from tip to tip of wing. The eggs are deposited in rows of from fifteen to thirty near the roots of grass

FROM time to time, says the Altoona Times, we see rumors of a threatened bolt of the gold standard Democrats against

the Chicago platform and nominations of Messrs Bryan and Sewall. A conference of a few of these gentlemen was recently held in Chicago and it was decided to organize a national committee and call a convention to be held not later than September. 2 to nominate can didates for president and vice president. ONE of our Republican contemporaries It is possible that such a body may meet. sees "danger theratening our free institu- But if it does it will not amount to much for the reason that there is no recognizes such men as William J. Bryan popular support back of the bolters and Senator Jones as leaders." Doubt- The gold Democrats number but a small less it prefers for leaders that brand of percentage of the membership of the Democratic party. But, small as that percentage is, the majority of them will refuse to oppose the regular ticket and help to elect McKinley. Even if they cannot endorse the platform, they are not prepared to play into the hands of an organization whose ascendency in the affairs of the nation they object assemblage of that party declared that: to for other reasons than those connected with the currency question.

There are thousands of men who ad vocated the gold standard who have loyally accepted the decision of the Chica go convention from a firm conviction that the Democratic party will do nothing to injure the country that it has done so much for in the past bun dred years. They believe that the majority should rule and that an adherence to that principle will generally be found the best thing in the end.

It is impossible to frame a platforn for a party numbering millions of mem bers that will please everyone of them Some will be disappointed because a certain declaration was not put in the document and another will be displeased for the reason that the platform calls for something which he cannot approve. column after column of interviews with It is needless to point out, therefore, why a platform cannot have general acceptance in all its details. It represents, to bolt the Chicago convention and vote nowever, the opinions of the majority

on all the subjects considered. But apart from these considerations, the convention of the gold standard Democrats, if it should meet, will be nothing more than a ripple of the political waters. It will hardly be noticed. The nominations of Bryan and Sewall and the adoption of the Chicago platform are proving to be decidedly popular, and the current of popular favor which has set in for the Democratic candidates and platform cannot be checked

Some of the flopping eastern Democratic papers are making great ado over price in silver and gold bullion, at the the patriotism of the eastern bankers in ratio of 16 to 1, in that period was two coming to the rescue of the government by replenishing the treasury gold reserve from their private hordes. Patriotism, indeed. These flopdoddle papers do not tell their readers that these patriotic bankers and money mongers take from the government in exchange for Itheir gold government paper that is redeemable in the yellow metal. If England or any other European country would make a demand to-morrow on these same, patriotic gentlemen for gold they would present their paper at the national treasury and ship the gold abroad.

Their patriotism is simply nothing more nor less than a political dodge. Were we not on the eve of the presidencial campaign, with the money question as the issue, these patriotic bankers and money mongers would show their patriotism by inducing the government to make another bond issue to replenish single congressman out of the eastern the federal treasury and out of which they would make a big profit. This is patriotism with a vengeance, isn't it.

> In order to correct a misapprehension as to his views regarding the prospective result of the election of a free silver ticket, the Hon. Richard P. Bland writes to the New York Journal

"I have been quoted as saying that if free silver won in the coming election there would be in my opinion a short lived panic. This is a mistake. In my judgment the success of a free silver ticket would bring nothing but prosperity. There would be no sort of a panic, Even Mr. Carlisle, our secretary of the treasury, admits that the restoration of silver would cause a rise in the value of all commodities. The congestion of money in the general centres would be relieved, owing to the desire of capitalists to invest in the rising market. With money flowing from the glutted coffers of the rich into the various channels of trade there would be great financial activity. This condition would preclude the possibility of a panic. Panics are not born of active trade, numerous investments and circulating cur-

TREASURER W. P. St. JOHN, of the national committee has applied in New York for the use of Madison Square the Bryan notification meeting. He was told that he could, likely, have it that day but that the matter would be presented for the consideration of the board of directors. Treasurer St. John was notified that if he got the garden it would probably be on the same terms that it was leased to the national Democratic committee in 1892, when Cleveland and Stevenson were notified. The price paid at that time was \$1,800. Mr. St. John was also told that his national committee would have to give bonds for between \$3,000 and \$4,000 to make good any possible damage the property might suffer from enthusiastic

Washington Letter.

Washington, July 24th, 1896.-Senator Faulkner, chairman of the Democratic congressional committee, is being daily astonished at the extraordinary in ease in silver sentiment in the middle and eastern states, as shown by letters written to the committee asking for information and literature on the subject. He is also surprised to see that a majorty of these seekers after silver docu ients, instead of being farmers, are professional and business men residing n towns and cities Speaking on the ubject Senator Faulkner said: "I am asounded at the tone of some of the leters I am receiving, and it appears to ne that the silver wave is sweeping over he east with as much force as it has shown in the west and south. It may be permanent or it may be only temporary, but that it exists now is certain. Sepator Faulkner is not the sort of man to allow his enthusiasm to bias his judgnent; hence his declaration of his belief. that unless some great reaction takes place, which will change existing public sentiment before election day, Bryan will be elected by a large malority, carries great weight.

Representative Hart, of Pa,. says his district (the eighbt) will roll up a good majority for Bryan and Sewall. He says there are very few Democrats in the listrict who have said they would not opport the Chicago ticket and platform, but that a great many Republicans have ome out for Bryan and Sewall and free | ter a short rest gained the shore. silver. He says that the tariff question outs no figure at all among his people. everything possible about the silver It was largely to satisfy their yearnings in that line that Mr. Hart came to Washington. He has arranged gotten to him. There is another daughwith the congressional committee to send | ter and two sons in the family. a lot of silver literature to his constituents. Among the documents to be sent s the Chicago speech of Mr. Bryan, which Senator Faulkner says "is about the best statement of the silver question. here for eight years. from our standpoint, that has been

Hon. William J. Hendrick, ex-Attoriey General of Kentucky, said in Washngton this week: "In the fierce const that has been waged in Kentucky etween the gold and silver partisans on the side of sound money. I still adhere to the opinion that free silver coinge by this government, independently the other great nations, would be istake. But I am a Democrat, and Democracy stands for so many other things besides free silver that it is impossible for me to renounce my party alfegience, and I shall cheerfully do all in my power to promote the success of the Chicago ticket. With all the faults of the platform it is infinitely better will unquestionably carry Kentucky.'

There is some talk about establishing Democratic daily newspaper in Washington which will support Bryan and Sewall and the Chicago platform. Porhaps such a paper might make some weeklies already established and enjoy- One is wounded in the back. ng more prestige in their localities than Washington paper could possibly get.

Mr. S. D. Weaver, city attorney of Burlington, Kans., who is now visiting Washington, says: "It is the opinion f conservative men that Bryan will cary Kansas. It is true that some Demorats who believe in sound money will not support him, and yet more of these will vote for him than will support Mcsilver Republicans in the state who will vote for Bryan

Theatrical men are as a rule good udges of the drift of public sentiment. Mr. J. W. Morrisey, widely known as a nanager, says of a coming event: Bryan's descent on New York will be a tupendous affair. He will pack Madion Square Garden to its limit-16,000 people-but 10,000 more will be in the streets to give him welcome. Only a raction of that monster gathering will be able to hear a word he utters, -but few will fail to read it afterwards. Al ready there is a big chance of sentiment Bryan's coming will make converts by he thousand.

While it cannot be said that the acion of the populist convention was alogether satisfactory to Democrats, none of them are disposed to worry about it, because their minds were made up beore the convention met that Bryan would get the vote of every Populist who oes not wish to throw his vote away. regardless of what the convention might do, and there was nothing about the work of the convention to cause them to change their opinion.

May Result Fatally.

Pottsville, Pa., July 26.-At midnight last night two Italians named Ley Denorda and Joe Wallendo attacked William Travis. Wallendo used a knife, cutting Travis's nose off, and stabbed him in the right arm and left side, near the lung. During the fight Denorda struck Travis with a stone. Both Italans were committed to prison without bail. Travis, whose injuries are considered fatal, was removed to the hospial. For some time past a bad feeling had existed between the families of Edward Martin and William Snyder, who reside at Gilberton, this county. Last evening a quarrel arose between them. Martin seized a double barreled shot gun and fired at Snyder and his wife, who stood in the yard. Their injuries are not serious. Martin entered bail in the sum of \$1,000.

Miners Compelled to Return Home,

Barclay, Ills., July 26.-A mob of 200 striking miners from the mining districts of Revert n and Spaulding, Ill., marched to this place vesterday and compelled the miners to return home. They would not allow the men to go to work on account of a reduction of 35 cents per ton to 32) cents per ton. The Barclay miners agreed to work no more until next Tuesday. An effort is being made to call out all the miners in this district, and a large mass meeting will be held in Spaulding on Monday to take action on the matter. It is said that the miners will resume work to-morrow morning, and serious trouble is expected if they do.

Flood Damage in Pennsylvania.

All Had Pistols.

Hold-up robbers are at work at the desplaines campmeeting grounds When all the campers had retired last night A. Benson, the ignitor of the colony, was approached by three suspicious looking strangers, who requested tickets entitling them to free bunks in Kinley. There are also a great many the sleeping tents. The request was granted, but the janitor, not liking the appearance of his guests, kept a strict watch on them. They entered the tent about 10:20 o'clock and extinguished the lamps, saying, when remonstrated with, that the light hurt their eyes. Believing their object was to rob the other occupants during the night, the janitor called the night watchman and explained the situation. The men were ordered to leave the tent, but refused. One of them drew a revolver, but before it could be used Watchman Minnick struck it from his hand and ejected him and his companions from the grounds. n New York favorable to silver, and All of the men were found to have pistols, and the police believe they intended robbing the entire camp.

Strange Law Suit.

The case of W. S. Woods vs. Issabella Sheets, decided by Judge McIlvane at Washington this week, is probably unique in court history. Woods bought two lots at Charleroi from Mrs. Shee's and built on them, as he supposed; but it turned out that he made a mistake and built on two lots that Peter Neshon, of Manor Station, owned. He refused to pay for the houses, allow them to be removed or sell the lots, and Woods sued Mrs. Sheets.

The court decided that, in the absence of any covenant in the deed that the lots staked off are the same as those sold. Woods cannot recover; that all he could recover would be the purchase money of the lot, and not for any subsequent improvement; but that, as he still has the two lots purchased-Nos. 634 and 636-he has no standing at all. and judgment is given for the defendant. It is certainly a very peculiar case, and Mr. Woods has sustained loss in a novel

Mistaken For a Burglar.

Chicago, July 26.—Daniel Shroyer, a N. Y. well-known resident of Park Ridge, was shot and killed early this morning by his son-in-law, Geo. E. Pottinger, a dering her step-son by poison. prominent Chicago real estate dealer who mistook him for a burglar. The shooting took place in Pottinger's home in Ingleside avenue.

Mr. Shroyer had been a guest at the Pottinger homestead for several weeks. Mr. Pottinger was aroused at 3 o'clcok his morning, and thinking burglars were abroad, took his revolver and bank and swam across a river. He es started to investigate. He was about to caped. enter the kitchen when he saw the form of a man approaching and raising his revolver fired one shot. The man gave vent to a startled exclamation, and Mr. Pottinger recognized his father-in-law's weeks. voice. The bullet struck Mr. Shroyer, in the groin and he died in an hour. The greatest excitement followed the shooting. Mr. Pottinger is almost distracted and his wife is prostrated.

IT IS AS CHEAP AS IT IS GOOD: Main Line Extress.

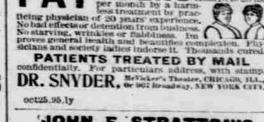

The Price of THE PATRIOT Has Reen Made to Fit the Times. It Is One Cent a Day or \$3 When Paid By the Year. Start the day right by reading the right kind of newspaper. THE PATRIOT is the right kind. It is the only complete morning newspaper that reaches Central Pennsylvania at an early hour of the day. It is one of the foremost Democratic newspapers in the State and the only one printed at the State Capital, the official and political centre of the Communwealth.

THE PATIOT makes a specialy of department news and gives more each day than all the other State papers combined. It gives much more entertaining and substantial family reading. It has (copy-righted) daily "hints for housekeepers" (a new menu for every day) and a fashion department, through which the latest patterns are supplied to PATRIOT READ-

Pennsylvania politics will be of extraordinary interest from this time on. The State Capital will be the centre of exciting THE PATRIOT has exclusive opporortunities for securing advance news of semi-public character. Special attention is given base ball and cycling events, with detailed reports of national league games.

DAILY, every week day morning in the WEEKLY. Tuesday evening of each week, \$1 a year THE DAILY issue will be sent from now receipt of \$1.00. THE WEEKLY will be sent from now until after the election, by mail only, on THE PATRIOT is the best advertising medium in Pennsylvania outside of Pitts-burg and Philadelphia. It has a cent a word want col
