

Cochran Talks

Back at Bryan

A Weak Attempt of the Gold Bugs to Answer Bryan's Speech.

When Bryan spoke One Week ago the crowd was vast...

New York, Aug. 19.—Ex-Congressman Bourke Cochran spoke in Madison Square Garden last night to 18,000 people.

Further along he said: "We would look to it that through the speech delivered here one week ago I find a true statement of the issue involved in this canvass."

The pretense that the farmer of Nebraska is suffering under the weight of a mortgage is a matter which is steadily increased in value by the farmer's mortgage debts.

On the money question he said: "If Mr. Bryan could show me that by any means known to heaven or on earth, wages could be increased, I will be ready to support him."

He declared that Mr. Bryan's eloquence had fallen flat in New York, and that he remained unaltered and that he openly defended the what Mr. Cochran called the "Populist program of overthrowing the integrity of the supreme court."

On the money question he said: "If Mr. Bryan could show me that by any means known to heaven or on earth, wages could be increased, I will be ready to support him."

Now Mr. Bryan tells us that he wants to cheapen the dollar, that he wants to increase the volume of money, and that he wants to increase the price of gold.

Nothing is more common than the mistake that money is a property and that it is not. There are not a very large volume of circulating medium and very great poverty.

The basis of sound trade is sound money, and the basis of sound money is the value of money which like the gold coinage of this country the government can not affect by its expenditure.

It is perfectly clear that the purpose of the Populist is to put up the price of certain commodities. Mr. Bryan's language is that he is content with the conditions of the people of this country.

Men who tell us that the price of farm products has fallen and that the farmer for the most part is ruined, believe the price of wages has risen.

While we have in existence a system of mutual co-operation which is but another name for child labor, all are entitled to a share in every bounty which Providence showers upon the earth.

It is not the farmer who is ruined, it is the man who is ruined, it is the man who is ruined, it is the man who is ruined.

A government can never be generous because it is not a person. It is not a person, it is not a person, it is not a person.

It is an iron law that the price of commodities and the price of labor will be increased and the price of labor will be increased.

It is an iron law that the price of commodities and the price of labor will be increased and the price of labor will be increased.

It is an iron law that the price of commodities and the price of labor will be increased and the price of labor will be increased.

It is an iron law that the price of commodities and the price of labor will be increased and the price of labor will be increased.

It is an iron law that the price of commodities and the price of labor will be increased and the price of labor will be increased.
