

DINED WITH HILL AT ALBANY.

Several Prominent Democrats at the Same Table-Mr. Bryan Then Spoke to Fully 7,000 People-A Platform Broke Down at Utica.

ALBANT, Aug. 26.-The second day of William J Eryan's trip westward from the seclusion of Red Hook was an eventful one, crowded with a variety of incidents of travel, including a picturesque reception at a summer hotel, a stirring speech to a crowd of workingmen at the town of Kingston. and culminating in a great meeting at Albany, where the candidate spoke to a crowd estimated at from 7,000 to 16,000 people, packed in the city hall square under the shadow of the statehouse.

Before this demonstration Mr. and Mrs. Bryan sat down to a dinner with Senator Hill and prominent Albany Democrats at the senator's magnificent home titled "Wolfert's Roost," whitner they were driven directly from the depot, where a strong-lunged crowd came near to mobbing them on their arrival. Those who met the Democratic candidate and his wife at Mr. Hill's much discussed dinner were : Supreme Court Judge D. Cady Herrick and wife. Louis W. Pratt, the collector of customs, and wife, Norton Chase, chairman of the city Democratic committee, which, with other local organizations.

had the meeting in charge. For nearly three hours Mr. Bryan was the guest of the New York senator, and, although every participant in the dinner averred that it was purely a social affair, their descriptions were taken with a grain of salt, it being the general impression that an understanding was reached which will insure to Mr. Bryan the support of the party organization in the

Mr. Bryan, in his speech in city hall square, said that he endorsed every word of the Chicago platform, but that he expected the support of many Democrats, who are not willing to endorse all that the platform declares for. Then he said :

permanent continuation of the gold stand ard, because we do not believe that other and, because we do not believe that other nations will take pity upon us before we take pity upon our own people. We have then to consider this question: ought the American people to submit longer to a gold standard? [Cries of "no, no."] The Democratic party has begun a war of er termination periods the gold standard termination against the gold standard We ask no quarter, we give no quarter We shall prosecute our warfare until there is not an American citizen that dares to advocate a gold standard policy. [Cheers.] You ask why? We reply that the gold standard is reconspiracy against the human race, and that we would no more join it than we would join an army marching to despoil our home and destroy our families. [Applanse.] I ask you bot to take my word for the evils of the gold standard I call as a witness a gentleman whose voice has been heard in the councils of the Democratic party. I ask you if you are Inclined to accuse us of using extravagant language, I ask you to read and reflect upon the language used by John G Car-lisle in 1878. In a speech made in congress he said:

'According to my opinion, the conspiracy which seems to have been formed here and in Europe to destroy by legislation and otherwise from three sevenths to one half the metaille money of the world is the most gigantic crime of this or any other age. Its consummation would ultimately entail more misery upon the human race than all the wars, pestilences

and famines that ever occurred in the history of the world." That is the language of John G. Car-# liste. I believe he spoke the truth and if it was true then it is true today and will the was true then it is true tonay and while be true, no matter who may change his opinion or his course upon this question. Truths once uttered will live, no matter what may become of those who uttered those truths. Men cannot retract truths. That prophecy was spoken 18 years ago, and 18 years of follower has an black and 18 years of fulfillment has enabled us to believe words which were believed by all at the time they were spoken. Our op ponents tell us that the free coinage of silver is going to disturb business. I ask our opponents to write down the worst thing they can possibly think of as a pos-sible consequence of the immediate restoration of the free coinage of silver, and when they have written their worst. I would place against the most dismal prophecy they can atter the works of John G. Carlisle and tell them that I would like the worst thing they could think of rather than bring a misery greater than war, pestilence and famine. [Applause] Can you imagine the meaning of those words? No, my friends, the imagination cannot conceive, the tongue cannot de scribe all that is wrapped up in those words.

Some of our opponents say that they are afraid that we cannot maintain bimetal lism alone. We reply to them that we have waited for 20 years for other nations to help us, and if we are going to restor-bimetallism we have got to restore in alone, because others do not come to our assistance. [Applause:] More than that, we believe that the assertion of American ndependence will do more to bring about international bimetallism than a servile dependence upon our enemies to bring it to us. [Applause.] Our opponents say that all we need is a restoration of confi to suit the pleasure of foreign nations the will not loan us any money. We reply
