THE secretary of the Interior has made a requisition on the treasury de partment for \$10,745,000 for the quar terly payment of pensions at the leading agencies. The Pittsburg agency gets \$1,600,000.

WHEN William McKinley spoke at al years ago, he announced himself in favor of free coinage, and in emphasizing his position held up a silver dollar as an object lesson, saying: "This money is good enough for you and good enough for the bondholder?"

ALL that the Republican platform promises the farmer is what he is getting now. The present depressed and distressed condition of affairs is the resuit of the contraction of the currency, brought about by the single gold standard. The Republican platform says the gold standard must be maintained.

The gold is in English sovereigns, and as foreign coins are not a legal tender in the United States the gold will be sent to the Unietd States mint at San Francisco to be recoined into United States eagles.

THE demonetization of silver in 1873 reduced the quantity of money and we had a panic and low prices, which lasted for six years; and again in 1893 when we closed our mints against silver we have another panic and low prices which has caused untold poverty and misery to the masses, The restoration of silver to its proper place under the constitution will raise prices and bring back prosperity and happiness to the people. Therefore vote for Bryan and Sewall.

On Wednesday evening the Democratic congressional conferees for this district met at Johnstown, and after taking four ballets unanimously nominated R. C. McNamara, of Bedford, as our candidate for congress. Each county had a candidate, Cambria's choice being F. J. O'Connor, Esq.: Somerset's conferees voted for Reuben Linton and Blair county's conferees voted for Charles B. Bammgardner. All withdrew in favor of Mr. McNamara, who is a well-known lawyer of Bedford coun-

A CIRCULAR of the section of foreign markets, department of agriculture, compares our imports and exports for the past three years. The figures show that we exported of agragricultural products \$75,000,000 less in 1895 than in 1894 and \$246,000,000 less than in 1892. That shows why we are short of money. the deficit in receipts is mainly due to the shrinkage of prices, the quantities exported remaining about the same. As against this we imported goods in county convention at Salt Lake, Utah, 1895 to the value of \$87,000,000 more on Saturday, over a committee report,

Democrats intend to make a determined fight to carry the state. They feel confident of success. About five hundred speakers will be put in the field. Every county in the commonwealth will be thoroughly aroused. Suppose that in 1892 a free-silver president and congress had been elected and unlimited coinage at 16 to 1 inauguarted. Then suppose that these the country sandbagged, workingmen thrown ont employment by the million, farmers unable to sell their produce at a profit, bankruptcy hanging over so near the verge of insolvency owing to depreciation in values that to press their debtors would mean ruin to thems lves, our bond obligations increased by \$262,-000,000 to keep gold in the treasury, payment of the public debt stopped, and a deficit in the revenue of \$12,000,000 a month piled up-suppose all this under a silver administration, and who would there now be to question that our manifold calamities had been brought upon us by free coinage?

All these disasters have befallen under a gold administration, and why should not the gold standard be changed with them? Present facts are better guides than the vaticinations of prophets of evil. Let the defenders of gold monometallism tell why it is that while their money system has been in existence the country has so suffered.

As the gold men promise the people nothing more cheering than a continuance of this distress-breeding system it is not clear why the people should rise with enthusiasm to vote for another four years of the gold standard and hard

THE Republicans tell us, says the Wilkesbarre Telephone, it is repudiation to pay the national debt in silver, in the face of the fact that congress passed a resolution on December 6, 1878, declairing that "all bonds of the United States, issued or authorized to be issued under the acts of congress, to provide for the resumption of special payments, etc., are payable, principal and interest, at the option of the government of the Winchester. > "Resolved, That the long and sucessful existence, under the laws of congress, of the gold and silver standard. warrants us in demanding the early repeal of the legislation which demonetized silver, and established an almost exclusive gold standard; and we therefore favor a return of the free and unrestricted coinage of the dollar of 1798 and its restoration to the position it held as a legal tender during the 80 years of our national existence, thus preserving the equality of the commercial value of the stiver dollar with the gold dollar, keeping both in circulation."

"BRYAN cannot possibly fail to carry the election," said Wharton Baker, of Philadelphia. "He is sure of the vote of all the Southern states, whose total in the electorial college is 142, and the states west of the Mississippi have 61. He will get the 61 without exception. This will foot up 203 out of 447-only 21 short of a majority. In addition there are Minnesota, Iowa and Michigan-a total of 33, which, when added to the South and West will give a total

Washing on Letter.

Washington, Sep., 13, 1896 -Several important Democratic conferences were held in Washington and vicinity things had followed: The industry of during the present week, and the pre cautions taken to keep the subjects talked about at these conferences out of the newspapers have been successful Among those taking part in these con ferences were Senator Jones, chairman countless thousands, banks everywhere of the Democratic national committee; Senator Faulkner, chairman of the congressional committee; Senator Butler, chairman of the populist committee, and Senators Gorman, Teller and Duhois and National Committman Scott, of the Democratic advisory committee. It is enough for those who desire the election of Bryan and the triumph of silver to know that the object of these conferences was to add to the certainty of that result, and that they were in every way satisfactory to those who participated in them. More could not be told without a violation of confidence, and without furnishing information which might enable the McKinley crowd to throw obstacles in the way of certain plans. Suffice it to say that every man who participated in these conferences is certain that Bryan will be elected. Democrats are unsparing in their

Sena-Faulkner declares this to be an invitation to the money sharks to raid the gold reserve of the treasury and force the issue of more bonds, and expresses the opinion that it will be worth thousands of votes to Bryan and silver, by convincing people of the intention of the gold men to go still further than they have yet gone towards turning our financial interests over to half a dezen bankers in Europe and New York. He says this "emphasizes the necessity as well as the duty of those who believe in American financial independence to support the American policy represented by the Democratic ticket.' Hon. E. P. Man and Wife Acquitted of Murder.

Wilkesbarre, Pa., September 18. Edward Younitz and his wife Catharine were acquitted of murder in court yesterday. The tragedy took place at Latwhile she slept, and she shot him down. the woman was committed to jail, where she remained until yesterday, when she took the witness stand in court she told different story. She said she was innocent; that she made the sacrifice for her brother, who is now in Europe. It was the brother, she said, who fired the fatal shot when the murdered man attempted to enter her room. She thought he would be hanged, so she concluded to shoulder the crime on herself. After heafing the testimony of the jury to acquit her and her husband.

Berne, Switzerland, September 21,-A mistake on the part of the Swiss detectives has caused great annoyance to Mr George F. Curtis of Washington, an assistant librarian of the American Congress. When Mr. Curtis arrived a Griddelwald he was pounced upon by detectives who mistook him for a criminal from Montevideo, for whom they were searching. Mr. Curtis was locked up in spite of his energetic protests, but later the production of his passport and other documents convinced the police that they had made an error He was there fore released, and profuse apologies were made to him for the unfortunate mis

Mr. Curtis then went to Geneva, where the police made the same mistake as to his identity, and he was again locked up. It was impossible for him to convince the authorities of Geneva that he was not a criminal, and finally he was compelled to telegraph to Mr John L. Peak, the American Minister at Berne, telling him of his predicament Mr. Peak at once laid the matter before the government, with the result that the release of Mr. Curtis was immediately ordered.
