

BRYAN IN THE JUMP.

Talked in Maryland and West Virginia Today.

TAMMANY'S BIG DEMONSTRATION.

Thousands Packed the Wigwam and Crowded the Streets About the Building—Bryan Too Exhausted to Make But One Speech—Other Speakers.

MARTINSBURG, W. Va., Sept. 30.—William Jennings Bryan spoke here about noon and then left for Charleston. He spoke at Harper's Ferry this morning. He will speak at Grafton tonight, talking at Keyser enroute.

Tomorrow Clarkburg, Parkersburg and Wheeling will hear him at 10, 11, 12 and 1 o'clock, respectively. The next day at 10 he will be in Charleston, and at 1 p. m. the nominee is due at Huntington.

New York, Sept. 30.—The demonstration that grew in this city was most remarkable in its character. Blockaded streets, crowded auditoriums, besieged speaking stands and crowds that defied the energy of the police in their efforts to keep the peace, were the features of Tammany Hall, that had made the arrangements for the welcome and reception outside itself in the doing Tammany is noted for enthusiastic assemblages and last night the police were overwhelmed by the members of the air with shouts of approval of the candidates of the American flag, and of every comment that savored either of patriotism or loyalty to Democratic principles. Every one who entered was presented with a flag, the effect being that when anything pleased the audience the crowd had seemed one huge wave of the Stars and Stripes. To many it is commonplace and on the severe standards there is no reason for the "Star Spangled Banner," the flag of Italy, of Ireland, of Germany or the Union Jack of England.

Addresses were made by the old soldiers and by L. W. Hull on behalf of the citizens.

A special train of ten coaches brought the second contingent of old soldiers from Walkerton, Ind., and started on railroad men in all branches of the work, farmers, mechanics and citizens in general, and the delegation was met by the mayor and the city officials. The delegation was presented by Judge W. L. Penfield of Auburn, Ind.

Farmers and Ex-Family and Railroaders Have a Fight.

GREENSBORO, Pa., Sept. 30.—A riot has occurred just outside the borough limits of Ligonier over a disputed tract of land, in which Superintendent Geo. Smith of the Ligonier road was slain by both legs and a number of others hurt by being beaten with clubs. The land in dispute is on the farm of Dixon Houston, and Superintendent Smith and the construction crew of the road united to change the course of the stream, when the Houston appeared on the scene and ordered them to stop.

This refusal to do, and Mr. Houston opened fire on them with a double-barreled shotgun, the content-taken effect in Smith's legs, seriously wounding him. This angered the men, and they grabbed clubs and anything else they could get their hands on and a pitched battle took place, in which Houston, his wife and John and John Joe were badly used up, being pounded and bleeding at almost every pore. Mr. Bryan at length appeared and mounted the speaker's stand. He was still falling in torrents, but the mass of umbrellas in the square were lowered. He took off his soft felt hat and bowed several times in acknowledgment of the plaudits, but he did not say a word. After staying on the stand for about a minute he returned to his carriage and was driven off.

From 8 until nearly 10 o'clock a corps of speakers held about 1,000 persons in the wigwam and on the streets in front of Tammany Hall. Senator Guy, shortly before 10 o'clock, announced that he would not speak. Mr. Bryan went to his hotel and at midnight left for the south.

INDIANS' CONDITION IMPROVING.

A Very Favorable Report From Commissioner Browning.

WASHINGTON, Sept. 30.—D. M. Brown-

ing, commissioner of Indian affairs, has made his annual report to the secretary of the interior. He says with no outburst or disturbance during the year the progress of Indians generally in education and civilization has been uninterrupted and substantial. The main effort now is, and for many years must be, to put the Indians upon his allotted land, to get them to support and protect him from encroachment and train his children in books and industries.

As a first step in carrying out his obligations do not interfere by requiring the payment of moneys and issuance of rations or annuities, the Indians are given to understand that the government will not food and cloth while they remain in idleness. Such funds are available for the purpose are devoted to starting Indians in home and garden work upon an allotment and work to improve it the government will assist him in building a house and making him a practical farmer.

The commissioner says the government has furthered the industry for his work. To regular Indian employes the government paid last year \$500,000. A great diversity of crafts and industries are being introduced among the Indians. The reports from Indian agents, he says show that Indians in many different ways are coming to the point of view of a practical farmer.

The entire Indian service, with few exceptions, is now under civil service regulations. Exemption from such regulations is being steadily and non-competitive examinations.

Progress in education of the Indians is reported as satisfactory. The enrollment during the year was 23,352, an increase of 316 over the previous year, average attendance increased to 852.

The reductions of the number of contract schools have been made in accordance with the provisions of the act of appropriation bill, and in 1897 there was an expenditure of \$27,928, on this account against \$463,665 in 1896.
