The Vice Presidential Candidate Pours Some Hot Shot Into the Gold Bug Ranks-Free Silver the Sole Remedy For Our 11ts.

THE GOLD STANDARD APRAIGNED.

BATH, Me . Oct. 7 - Hon. Arthur Se. wall, Democratic candidate for vice president of the United States, has made public his letter of acceptance

It is as follows: Hon, Stephen M. White, Chairman and Memher of the Notification Committee: GENTLEMEN-I have the honor to accept

in writing, as I have already verbally done, the nomination tendered by you or behalf of the Democratic party as its can didate for vice president of the United States. And in so doing I am glad first te express my satisfaction that the platform of our party, which has commanded my life long allegiance, is honestly and fully declaratory of all the principles and epecially of the absorbing financial issue upon which as you say I took my stand When the hours of triumph seemed remote and when arrogant money changers throughout the world beasted that the conquest of the American masses was completed.

These principles have been of late to abeyance, but only because those who we trusted to maintain them love failed to do so, these principles can never do-We have rescued our party from those who under the influence of the money power have controlled and debased it Our mission now is to rescue from this same power and its foreign allies, on own beloves country. This is the first and highest duty imposed by our party platform; upon the performance of the

duty all other reforms must watt. The test of party principles is the governmen they assure; the proof of good govern ment is a contented and happy people, and the supreme test of both is the ability to yuide the country through crisis a well as to administer the governmen in ordinary times. Our people now face crisis, a crisis more serious than any sine the war. To what party shall they tur in their dire emergency? It is true that the present crisis may not involve al equally, that there are those who do no suffer now a d may not suffer should the crisis threatened by the gold standard

ome on in al. its fury. Human selfishness makes these deaf to all appeals, but to these, fortunately, the Democratic party has never needed to appeal to win its battles, nor does it no save as there are some among them wh can rise superior to self in the sacrific which such a crises demands of every pa triot. We are told that the country prospered under the present monetary standard, that its wealth has enormously increased. Granted so, but in whos-hands? In the hands of the toilers, the farmers, the miners, the fabricators is factories, the traters of the nation's wealth in peace, its defenders in war? have the the prosperity which was theirs so late 20 years ago? I deny it They deny it None affirm it save those whose interest it is to do so. Whose profit would diminish as prosperity returns to those on whose distress they thrive)
All is indeed right, between capital and

labor. The 'best money in the world" none too good for those who have got it but how is it with the 90 per cent of our people who have "got it to get?" How is it with those who must buy this "best money in the world" with the products of their own labor? These are the people for whom the Democratic party would legts late. What is the best money for these is the question for all to ask who really love this land. How else can you mereas labors' purchasing power but by increasing the price of labors products? Is it a fair measure of values, that in our great producing section ten bushels of potator must be paid for a dollar, ten bushels o oats for a dollar, six bushels of corn for dollar, three bushels of wheat and al other products of the soil, and mines, an the labor of all wage carners at the same ratio? Does any fair mind say this is honest money that forces such an exchange, and if it is not a fair exchange,

honest, is it less than robbery? This is the condition to which the single gold standard has brought us. Under it the appreciation of the best money to the world" has increased the wealth the rich, and for the same reason has in creased the debt of the debtor. So it has been, so under the present standard it must continue to be. With these object lessons about me, little need have we for history and statistics, and the studies of scholars. Little satisfaction it is to u-that they have warned us long since of the deadly evil of the gold standard. It has brought us at last to the parting of the ways. Whither shall the people go-in the way that has led to the enslave ment, or into that which offers them theb only chance to regain individual liberty lasting prosperity, and happiness? Let not our opponents charge us with creating not our opponents charge us with creating class distinction. Also, for the republic they are already here, created by the Republican policy of the last 30 years, created by the very system we would now over throw and destroy. Nor do we raise a sectional issue. The nomination you ten der repels the charge.

None knew better than I that this nomination is meant as no record tribute.

ination is meant as no personal tribute, but as an assurance that our party is a non-sectional party. Not by our policy, but only by the continuance of the gold standard can sectionalism be revived Neither shall our opponents be permitted to terrify the people by predictions that temporary disturbances or panic will come from the policy we propose. The American people will be loyal to the na tion's money, will stand behind it and maintain it at whatever value they them selves may put upon it. Once before in the present generation have our people been called upon to face a momentons crisis. What then said Mr. Lincoln, the chosen leader of the plain people of the inoth Was he awed by threats or weak ened by the wily persuasion of the false friends, who, as today pleaded for com-promise with wrong. His answer was:

"If our sense of duty forbids this, then let us stand by our duty fearlessly and effectively. Let us be diverted by none of these sophistical contrivances wherewith we are so industriously placed and be labored, controvenes such as groping for some middle ground between right and wrong reversing the divine rule and caliing not the sinners but the righteous to tepentance, such as invocations to Wash ington, imploring men to unsay what Washington said, and undo what Wash ington did. Neither let us be slandered from our duty by false accusations against us. Let us have faith that right makes might, and in that faith let us to the end lare to do our duty as we understand it. We know well the nature of the struggle in which we are engaged, we are anxious only that the people of the land shall understand it, and then our battle is one. Behind the strong entrench-ment of the gold standard are gathered all those favored classes it has fostered, the only dangerous classes of the land. A varice and unholy greed are there, every trust and combination is there. Every monopoly is there, led by the greatest monopoly of all, the monopoly of the power of gold. With us in our assault upon these entrenchments are all these unselfish non-who to the second men, who not now suffering themselves, cannot rest content with conditions so full of sufferings for others, and that vaster number of our people who have been sacrifleed to the small and selfish class who now resist their attempts 40 regain their ancient rights and liberties. These are the patriots of 1806; the fors of a "dishone t dollar" which enriches 10 per cent of our people to rob the rest; the defenders of the

homes of the land, the public morals and the public faith, both of which alike for bid the pryment of government obliga-tions in a coin costlier to those who have to pay than that the contract calls for; the defenders of the honor of the na

bonor of the nomination you tender. I am, truly yours.

\* The Bryan party arrived in Indian-apolis at 12-45 o'clock, and was received at the station with great enthusiasm from many thousands gathered about the station. He was taken immediately to the Grand hotel, and the parade from the depot to the hotel was a con tinuous ovation to the candidate.

The Cleveland club in Prince Albert coats and silk hats, the Indianapsits Republican Silver club and the Gray club acted as escorts, and the parade passed through streets lined with people, the principal thoroughfares being so crowded that the sidewalks wer roped off in order to keep the crowdfrom pressing upon the carriages

After dinner Mr Bryan addressed the largest crowd of the day at the state house. Every inch of available standing and climbing room was taken The park in front of the state house was packed with humanity, the streets on either side were crowded, and people were gathered in the windows of the buildings across the street in order to see the candidate, even if they could not hear him. Probably less than one fourth of the audience heard his speech but those who were able to get within the sound of his voice were enthusiastic to a degree.

It would be an impossibility to esti mate the crowd so great was it. Mo Bryan began talking at 3:15 o'clock and made a half hour's speech

After the nominee had concluded hi remarks at the state house he was taken to Tombuson hall, where he spoke to a many people as could be gotten into and in front of the balcony where he stood This meeting was also enthusiastic and often during his speech the candidate was stopped by the demonstrations of approval. At might he spoke to three more audiences, one to the Commercial Travelets' association in the Grand hotel and one from a platform outside the courthouse and one in Tombuser hall. The speech inside the hall was to the laboring men of Indianapolis.

In his state house speech Mr. Bryan made some hard slaps at Mr. Bynam one of the principal leaders of the gold Democratic movement. He was deal ing some hot blows at the gold Lemoerats when a voice said:

Mr Bryan said: If you want to know what that misting
