Bids for Rural Mail Delivery.

Post-Office-Inspector Lewis, of Philadelphia, who for a week has been completing arrangements whereby a test o the free delivery in the rural districts will be made in Westmoreland county, has selected Youngwood and Hunker as the distributing points. Three carriers will be appointed for one year, and if the test proves successful the system will be extended throughout Westmoreland and eventually in other counties. Bids for carrying the mail have already been received, but they were all too high, some o them reaching \$900. Owing to there being an appropriation of only \$39,000, the salary paid to each carrier will be between \$30 and \$400. New blds are invited, and should be addressed to Postmaster W. R. Turney, of Greensburg. It has been de cided to allow the carriers to haul pas sengers and freight along their routes and

Never Resist an Arrest. Judge Biddle, of Carlisle, in the trial of John Belt for resisting arrest defined the delicate point in this matter very concise ly. It is well taking note of by all people because there has been some misunder standing in the mind of the public in rearrest a man without a warrant upless they personally see him committing a breach of the peace, but on the other hand If they do arrest a citizen without warrant r justification the citizen should not resist the officer or get into any altercation with him, ask for a habeas corpus, and when the release is given by the court, ther make the officer sweat for making a false arrest. A couple of suits against the officers for making false arrests would settle the matter very effectively. But we have presumed to have proper authority for

TO THE CANDIDATES FOR LEGISLATURE. OF THE SEVERAL PARTIES. NOW SEEK THE VOTES OF THE PEOPLE OF CAM-

WHEREAS, Other candidates for the assembly have kept silent on these points, therefore, in order to obtain for ourselves and the people of Cambria county, the posion of all the candidates as to these ques-ions, embracing needed reforms, we here with submit them the following, request ng direct answers to each:

1.—Do you favor proportional represen-tation, and if elected, will you support neasures intended to accomplish it? 2.—Have you ever accepted or used a ailroad pass or free transportation while a the public service? 3.-If elected, will you use your influence enforce that article of the constitution

f Pennsylvonia prohibiting the use of alroad passes by public officers? Will you support a measure that will flectually prohibit municipalities from ranting special privileges to individuals r corporations for the monopolization of treet railways, telephone or taiggraph ines, light, water, heat, or any other pub-ic function without first submitting it to direct vote of the people? 5. - Will you use your efforts to establish

The above questions refer to matters of uch general public importance—that any namers we have to make should be known o the peowle of Cambria county at large, and therefore we take the liberty of re-dying through the public press, furnish-ag a copy of this letter to every regular

ewspaper in the county. 1. - Proportional representation is one of he very first great reforms to be secured. order to enable the people to govern hemselves as they wish to be governed; he present st em often enables those who make the vs to defy the will of the people. Many laws passed by the last legislature; are examples. To answer our first question directly, we, therefore 3 .- Although the present constitution

3.—Although the present constitution has been in force since January 1, 1874, and at the close of article XVII there is a section which says; "The general assemas never been a single law passed to en ree the article in question or any part of Section 8 of the said article says; "No Broad, railway, or other transportation mpany shall grant free passes, or passes t a discount to any person except to of leers or employees of the company." This ection is repeatedly violated by the suing of passes to many public officers, including such members of the legislature s will accept them, such officers thus be ming parties to the violation of the conon they bind themselves to support. other sections of this article are repeatedyielated because of the failure of the seembly to pass the legislation required f, among them being the section relating o anti-discrimination. It is the belief of bose who have studied this matter that ree railroad passes have been the chief neans of defeating legislation on the pro-isions of article XVII, and we therefore dge ourselves, if elected, to refuse to acpt free passes, and further that we shall se our best endeavors to assist in enactig laws to enforce the provisions of the rticle referred to.

4.- No franchises should be exclusive so is to prevent competion and foster monopoly. They derive their value from the presence of co operation of the members the community, and to grant away such ectal privileges as are spoken of in your estion, in any manner calculated to but out competition and to make the mopoly thus obtained the means of private talls, is to do a fundamental wrong to ociety, the effect of which wrong is to corrupt legislative bodies and to impose or adividuals, the burdens of sustaining the or municipal governments that hould be sustained largely, if not entirely, by the revenues from the public functions you mention. Directly, we answer your urth question in the affirmative.

1.-It is extremely difficult, if not posdble, under our present system, to levy axes so that they will not eventually be shifted until they fall with accumulated ree upon the producing classes. Howver, while the present system is in force should be levied equitably as possible, imposing on each kind of property ts just share of the public burdens. All of which is respectfully submitted.
