nent lecturer before farmers' institutes. -The probabilities are now that the Pennsylvania Midland railroad which is projected to traverse a portion of Bedford county will be completed in the early future. On October 5th, the supreme court handed down an opinion in the case affirming the opinion of the court below and authorizing the receiver to borrow money and complete the road.

-To clean a window seems a simple operation. It is, too, but one must know how to do the work. A cloudy day is the best time to do the cleaning, or a day that is clear and dry, so that the sun does not strike the glass, which would cause it to dry in streaks. Clean, soft water in abundance, plenty soft old rags, and a leather or chamois skin -these are necessary. Wash the windows down quickly, inside and out, and dry with the rags. Begin inside, firish outside.

-David Hunter, a carbuilder, of Altoona, marched in the Republican ratification parade at Tyrone Saturday evento and one child, are all ill with ing, and after it was over he and some friends decided to go home on a cabin car. While in the act of getting aboard, St. Louis Express came along on the next track, and striking him, threw his body under the tender of a moving engine on the third track. The unfortunate man was horribly mangled, and lived but a few minutes. Mr. Hunter was thirty-eight years of age and single.

- James Foust, chief of Altoona's police, has been impeached by the city councils on the grounds that he is a deserter from the United States Marine corps. The plaintiffs in the case claim to have concluive evidence of his guilt. -On the Laurel Hill mountain, about six miles from Mechanicsburg and a like distance from Beam's church, in Somerset county, is what is known as "Huckleberry Flat." On the eastern side of the Flat is a ledge of rocks, below which is a steep descent of the mountain, and here is the rendezvous of a pack of woolves that are carrying off pigs, chickens, sheep, etc., from the residents of that section. They have become so hold lately that many persons dread to go out after dark, and the people contemplate concerted action to get rid of

-A Hollidaysburg correspondent of the Altoona Times says that Saturday afternoon an affrighted wild turkey flew over the Kellerman House, in Gaysport and became entangled in the innumerable telegraph wires. It fell to the ground, then arose and flew through one of the windows in the Pennsylvania railroad railroad depot. A number of small boys were in hot pursuit, in which Master Ed. Stroup seems to have been victorious, as he captured the bird. It was a fair specimen, weighing twelve pounds, and made a relished feature of the dinner at the Kellerman House on

imployment of men in the prisons and fails of the state in road building, says the New York Trilarne, but the state prison commission is confronted with a conditionnot a theory. There are two facts to be considered. One is that better roads are greatly needed. The other is that work has got to be found for the inmates of the prisons, without having the articles they produce come in competition with outside labor. Under proper restrictions !t seems possible to employ these people on public roads without offense to the public at

-Saturday night two masked men called at the home of Frederick Kaiser, near Latrobe, while the old gentleman was alone and demanded his money. He had collected some rent that day and told the men where to find it, but they appearantly did not understand Mr. Kaiser's broken German, and one of the robbers knocked him senseless with a sand bag; the other then secure his keys and searched the house for the money, but falling to find any. Mr. Kaiser is seventy-five years of age, and is in a critical condition from the brutal assault. The villians left no clue to

-On Saturday morning the dwelling house of George S. Mitchell, yard master at Cresson, was entered by thieves during the absence of the family and the house thoroughly ransacked. A satchel belonging to Judge Clark, of Washington, D. C. who was visiting the family was broken open, fifty dollars in money, a diamond pin valued at seventy-five dollars, and several other orticles taken from the satchel. Several articles were taken from the house and Mrs. Michael's purse was taken from a bureau drawer. The thieves were evi- | Kelly. dently frightened away before they had ompleted their looting of the house.

-Mrs. Joseph Gutwald died at her home at Cresson, about 10 o'clock on Saturday evening. Mrs. Gutwald took sick suddenly and notwithstanding medical aid was promptly summoned, she expired before it could avail. Mrs. Gutwaid was well known in Ebensburg where the family resided for a number of years and many friends remember her as a kind and generaus neighbor and an estimable and christian woman. She was about 60 years of age and is survived by her husband and the following children: Peter, Andrew and Joseph, of Gallitzin; John, Lizzle and Mrs. Harry Goodman, of Cresson, and Mrs Leonian Delozier, of Patton, Mrs. Gutwald was a constant and exlemplary member of St. Aloysius' Catholic church, Summit, where the funeral services were held on Tuesday morning, after which the remains were taken to Gallitzin and laid to rest in St Patrick's cemetery.

Forest Fires. The Pennsylvania Forestry commission

in its report for 1895, gives the following in regard to Cambria county: "In Cambria county there were no fires in 1894, but in 1891 the area burned over was fifty square miles. The damage inflicted was very great-seven or eight

Selecting a Senator. The next political event of importance to the people of Pennsylvania will be the selection of a successor to United States

Senator James Donald Cameron. The actual contest will in reality begin with the organization of the legislature on the first Tuesday of next January. The selection of the officers for senate and house will reveal the strength of the rival candidates.

The selection of a senator is conducted as follows:

Each house votes separately on the third Tuesday of January at 3 P. M. On the day following at noon the two houses meet in joint convention, and the journals of the two houses are then read and certificates signed. If, however, the same candidate shall not have received a majority of the votes in each house, or if either house shall have failed to take proceedings as required by law, the joint assembly shall then proceed to choose, by a viva voce vote of each member present, a person for the office, and the person having the majority of all the votes of the joint assembly-a majority of all the members elected to both houses being present and voting-shall be declared elected. In case of no election on the first day, the joint assembly shall meet at noon railroad tracks at Jeannette Saturday of each succeeding day during the session of the legislature and take at least one vote until a senator shall be elected. Nominations must be made at least two grocery store and was returning home days prior to the joint meeting the names when the accident happened. Peterson, with Robert Lovell, John Troxeil, Frank and Robert Willhide, who live near his home went out hunting Saturday morning, and roamed about the moon tains in the vicinity of Jaynesville, Clearfield county. After dinner the hunters separated. About three o'clock Peterson mounted a stump to look for game, and seeing nothing, concluded to finish the lunch he had brought with him, and of which he had partaken of before. His gun rested on the stump. Just as he made a move it slipped off. The trigger struck the top of the stump with sufficient force -There are obvious objections to the to discharge the cartridge. It Was a Black Bear.

Lucretia Ritter, a 19-year-old girl, who eaches school in the Elk Lake district. Sullivan county, had a thrilling experence with a black bear on Monday. While walking alone through the woods she spied what she thought was a yearling calf in the path ahead of her, but the beast proved to be a full grown black bear.

Bruin came toward ber with mouth open. Miss Ritter made for a crooked tree close by and managed to climb to a fork twelve feet above the ground. The bear fell to eating the contents of her lunch basket, while she screamed lustily for help. Having devoured the lunch, the bear demolished the artificial roses and birds on the girl's hat, which fell to the ground during her climb. In her frantic efforts to get higher Miss Ritter's clothing became fast on a broken limb and she

could neither get up or down. The bear made no effort to climb the steam saw mills, thousands of feet of n a . the girl's plight. He was compelled to Once on the ground Miss Ritter fainted.

-Frank Greenleaf, who resides on Stone Creek avenue, in Huntingdon, has an apple tree in his yard that has blossomed taken from the tree, and it may be that this will be the last that this remarkable tree will bear this year. On election day

The work which was commenced some time ago by the Pennsylvania along its main line in this state, and which will be pushed toward completion, says, the Pittsburg Post, as rapidly as the condition of business will permit, is certainly one of the most stupendous undertakings ever conceived by any railroad company in this or any other country. The cost which will be incurred by changing the grades and curves, building new tunnels and bridges, and many miles of new roadbed will be enormous, and by some engineers who are competent to make calculations it has been declared that in the western states new roads 500 or more miles in length have been built at an expense less than that which will be entailed on the Pennsylvania by the improvements now under way, and only temporarily delayed by the depression in business. In t-ying to give some adequate descriptions of this gigantic work of improvement it must be understood that the task is not confined to any one locality or division, but extends to every division all along the 355 miles of main track between Pittsburg and Philadelphia. And the changes that are now being made are simply the development of ideas of improvement conceived by a wise and careful management years ago, and which have been enlarged in proportion to the surplus earnings and the wonderful increase in traffic. As an illustration of the truth of the last

statement may be cited the fact that an observant passenger can perceive at frequent intervals the abacdoned curves over which the traffic passed for many years and which were eliminated during the past quarter of a century by the construction of new lines which were cut across hills and ridges surmounting obstacles, which, when the original survey was made, were considered impregnable barriers against a straight line East, of Pittsburg the first work of magnitude is in the vicinity of Radenbaugh and Greensburg, where by means of immense fills and a long double 2.75 a yard, now track tunnel a series of short curves will be eliminated. This work has been more than half completed and in another six months trains will be running over the new line. The next important work is just west of Johnstown, where a new roadbed wide enough for four tracks skirts the Conemaugh river and will, when finished, have the same effect on the alignment of the road that a strong tension has on a crooked piece of wire. Up along the steep mountain grade, near Lilly, the most wonderful improvement is noticed. Here an entire new line has been projected and partly completed, which will be like a straight toboggan slide down from the great heights in the vicinity of Cresson to the water gap level.
