

DINGLEY-BILL LIVES.

This Is What Senator Hale Expects to See.

SAYS CLEVELAND WILL SIGN IT.

Democrats Won't Obstruct and Some Silver Republicans Will Vote For It.

WASHINGTON, Dec. 2.—Senator Hale has expressed the opinion that the senate will take up, and he hoped, pass the Dingley bill at the session to begin next Monday.

"We ought to have it," said he, "for the treasury reports show the great need of more revenue. While I would not attempt to speak for all of them, I am satisfied that some of the silver Republicans will give their assistance in the passage of the bill, and I cannot believe that the Democrats would put any unusual obstructions in the way of the necessity of the measure. Furthermore I am quite persuaded that Mr. Cleveland would not veto the bill if it should be presented to him."

Senator Cannon of Utah, who was one of the Republican silver senators who joined the Democrats in their opposition to the Dingley bill, has since the passage of the bill at the St. Louis convention, says that the reasons which induced him to vote against that measure at the last session are no longer operative. He is now in favor of the measure, and he is now in favor of the measure, and he is now in favor of the measure.

Chairman Cannon of the appropriations committee, in speaking of the work of his committee, said: "Through the courtesy of the treasury department the committee on appropriations has on hand advance copies of the estimates covering all the items over which that committee had jurisdiction. The various sub-committees no doubt will make considerable progress in reviewing these statements before congress meets next Monday."

"It would not be proper for me at this time to speak of the details of any of these estimates, but as published recently the estimates for fortifications amount to something more than \$10,000,000. At the last session of congress there was an important departure from the methods of appropriations for fortifications by giving to the secretary of war authority to enter into contracts for material and labor for the construction of gun and mortar batteries at the important ports of our coast to the extent of \$2,500,000. Just what the department has done in the way of acting under this authority has not been developed."

"The committee possibly will be enabled to have the pension appropriation bill ready to report to the house on the first of next month. They expect to have the legislative bill in condition to report by the middle or last of the first of next month. "What in your judgment will be the policy of the committee touching liberal appropriations for the public service?"

"It is perfectly well understood that the revenues received by the government are not equal to the expenditures and that the deficit for the year ending in 1896, the total receipts were \$26,310,696, and the expenditures, \$34,390,730. The receipts for the month of November of this year amount to \$1,811,650,489, and the expenditures, \$1,717,397,385. The deficit for the month of November of this year is \$94,253,104, as compared with \$15,869,337 for the corresponding five months of last year. The receipts from the customs during November amounted to \$9,390,386; from internal revenue, \$13,104,828; and from miscellaneous sources, \$2,153,489. The receipts from the customs during November, 1895, of \$1,544,929, a gain from internal revenue of \$4,744, and a gain of \$684,379 from miscellaneous sources."

A CURRENCY CONVENTION.

A Non-Partisan Movement Inaugurated by Prominent Men at Indianapolis.

INDIANAPOLIS, Dec. 2.—Fifty-two men representing the boards of trade and commercial bodies of 16 cities of the central west, have met in the Century club rooms at the Dennison and issued a call for a national convention of the commercial bodies of the country to be held in the city of St. Louis, 1897, for the purpose of taking action toward securing from congress a remedy for the ill attending the present currency and banking system. The meeting was non-partisan in its character. A permanent organization was effected by the meeting of the stock exchange and the board of trade of St. Louis, and Secretary Smith of the Indianapolis board of trade as secretary.

The convention will have 1,814 delegates from 448 cities, representation as follows: Four cities of 1,000,000 and over, 20 each; 30 cities of 500,000 to 1,000,000, 10 each; 30 cities of 200,000 to 500,000, 5 each; 12 cities of 100,000 to 200,000, 3 each; 20 cities of 50,000 to 100,000, 2 each; 20 cities of 25,000 to 50,000, 1 each; 20 cities of 10,000 to 25,000, 1 each; 94 cities, 8,000 to 10,000, 1 each; 94 delegates.

GOOD, BUT NOT GOOD ENOUGH.

Roosevelt and Others Testify as to the Raines Law.

NEW YORK, Dec. 2.—Chief of Police Conlin when questioned by the senate special committee now in session here pursuing an inquiry into the operation of the Raines law, said: "Judging from the number of arrests for excise violations and selling without a license, I should say that there were fewer places where drinks could be had on S. Y."

Father D... pastor of the Church of the Paulist Fathers, and prominent in Roman Catholic temperance work, said: "It is my firm conviction that Sunday drunkenness has increased very much under the new law."

Theodore Roosevelt, president of the board of police commissioners, took the witness chair and went into a long recital of the violations, arrests and alleged discrimination against liquor dealers not affiliated with Tammany Hall.

Here the commissioner read off a number of arrests made by the police and which arrests were afterward nullified by the action of the police magistrates.

The commissioner said that the bonds between the police and the saloonkeeper had been broken and has reduced political corruption to a minimum.

"Having spoken freely in criticism of the new law, I feel that I ought to say that I am rather fond of the new law with its many defects than the old law."

"I would further suggest that there ought to be a law discriminating between the man who goes to a family resort with his wife and children and makes the occasion a holiday or an outing, and the man who goes to a family resort with a purpose to get drunk. It might be to frame such a measure."

HANNA AND MCKINLEY CONFER.

Former Soon Goes to Washington—May Head a Message to Sherman.

CANTON, O., Dec. 2.—Hon. M. A. Hanna and Major McKinley have had a conference. Mr. Hanna will probably go to Washington Friday to make arrangements for the inauguration. The approaching departure of Chairman Hanna for Washington has renewed the gossip concerning the cabinet appointments of President-elect McKinley. It is confidently believed that when he leaves Canton he will bring with him a message from Mr. McKinley, offering the position of secretary of state to Senator Sherman.

With respect to the possibility of Senator Sherman accepting the place of secretary of state, it is believed that he is a warm friend of Mr. Sherman, and that the senator was willing to bow to the will of his constituents. It is believed that he will remain in the senate he would do so, but if they would otherwise he would acquiesce without a murmur.

Mr. Hanna now connects the name of a California man with a cabinet position. Judge Wayner of San Francisco, who was a member of the advisory committee of the cabinet, is believed to be a close friend of the president-elect. He is believed to be a close friend of the president-elect. He is believed to be a close friend of the president-elect.

WISCONSIN PEOPLE BADLY SCARED BY THE BIG GORGE.

Chippewa Falls Already Flooded and Likely to be Wiped Out When the Gorge Breaks—Another Gorge Forming, Which Increases the Danger.

CHIPPWEVA FALLS, Wis., Dec. 2.—The inhabitants of this little village are in a state bordering on panic. The worst of the situation is the knowledge of the impending danger and of the fact that they are utterly helpless to stay or to avert it. These who houses have been removed and their household goods and belongings to higher ground and are huddled together in the schoolhouses and other vacant buildings out of the path of the water that is rising and spilling down several of the main streets.

All hope of breaking the ice gorge and thus allowing the pent-up water to gradually subside is now abandoned. All efforts have been directed toward removing household goods and merchandise out of the city as fast as possible. Every resident engaged in this work. Every resident and business firm of Chippewa street has moved out. The Chippewa Lumber and Iron company's mill and yards are under water and all hope has been given up of saving the entire business portion of the place. The water will soon reach the courthouse, eight blocks from the river.

The report from Little Falls says that another gorge is forming 30 miles above here and that greatly added to the alarm as in case it should break, nothing could save the city from being wiped out. Reports of a very serious nature come from down the river. The country everywhere is flooded. The gorge continues to grow in extent. It is now over five miles long and in many places 30 to 40 feet high. It completely dams the river and this is what is causing the rapid rise of the river here.

It is not believed that anything serious can happen under the present conditions. A Spanish guerrilla captain named Colza is accused of murdering over 100 persons in the valleys 100 miles south of Madrid during the latter part of November. In one instance he is accused of confining a number of women and girls in a church, and after they had been repeatedly abused and maltreated by their men burned the building with them in it.

UNDECIDED ABOUT CUBA.

All the President's Message Finished, Except That Feature.

WASHINGTON, Dec. 2.—With one exception, the President's message is practically complete and awaiting only a few finishing touches. This exception is most important for it concerns the treatment of the Cuban question. In the natural order of things this subject coming under the head of foreign relations would occupy a most prominent place in the very beginning of the message and so might be expected to receive only the treatment at the hands of the President.

There is still a gap in that part of the message, however, notwithstanding several efforts have been made to close it up for the varying phases of the campaign now in progress in Cuba have made it necessary to change considerably the views of the President and Secretary. They desire to lay before congress in that connection and probably it will not be until the end of this week and at the very latest at the beginning of the next week that the missing paragraphs will be supplied. Of course any expression of opinion as to the nature of the President's views respecting Cuba is only speculative at present, but so far there can be found no warrant for the assumption that he has determined upon any decided course of action to be pursued by the administration in this matter.

A Statement Issued Showing Its Condition Nov. 30.

WASHINGTON, Dec. 2.—The statement of the public debt shows that on Nov. 30, the debt, less cash in the treasury amounted to \$969,708,150, an increase for the month of \$20,200. The debt is recapitulated as follows: Interest bearing debt, \$847,364,520; debt on which interest ceased since maturity, \$122,343,630; total, \$969,708,150. This, however, does not include \$67,523,233, in certificates and treasury notes which are included in the amount of cash in the treasury. The cash in the treasury is recapitulated as follows, cents omitted: Gold, \$169,227,101; silver, \$509,680,450; paper, \$139,616,155; bonds, disbursing officers balances, etc., \$17,184,544; total, \$836,703,250. There are demand liabilities amounting to \$610,604,481 which leaves a cash balance in the treasury of \$226,098,769.
