

DINGLEY BILL NO LONGER

Action of Republican Senatorial Caucus Means It.

FOR INTERNATIONAL BIMETALLISM

The Caucus Decided to Appoint a Committee to Formulate a Plan—Immigration Bill to Be Passed—Some Silver Senators Didn't Attend.

WASHINGTON, Dec. 9.—The action of the Republican senatorial caucus in referring the Dingley tariff bill to its steering committee and the circumstances under which this action was taken are being discussed in the senate, as practically the end of the agitation in the interest of this measure. The debate in the caucus developed that there were wide differences as to the desirability of attempting to pass the bill even among the Republicans, and the opinion was expressed by some who were on the inside that fully one-third of the Republican senators, not including the absent silver men, were antagonistic to the bill.

Senators Dabois, Pettigrew, Mantle, Cannon, Squire and Teller were absent. All of these, except Senator Teller, attended if they had not been so disposed Senator Dabois resigned as caucus secretary. Senators Carter, Walcott, Mitchell, Hartsough, Cameron, Prichard, Perkins and Clark, who heretofore have always voted for silver in the senate, were present.

Senator Wilson (Wash.) was made secretary, while Senator Shoup was placed on the steering committee in the place vacated by his colleague. The committee was also enlarged by the addition of the name of Senator Hansbrough (N. D.).

It was decided to push the immigration bill as a party measure.

The caucus also decided for an international agreement on silver by the appointment of the following resolution introduced by Senator Walcott:

Resolved, That a special committee of five members of this caucus be appointed to recommend some plan whereby legislation may be had at this session of congress looking to an international agreement with leading commercial nations of the world for the promotion of bimetallic coinage.

The silver senators say, without exception, however, that in taking the position they have they do not mean to place themselves in any way in opposition to a protective tariff policy, but rather that they desire to be in an independent position where they can accept or reject silver legislation as presented by their former party associates.

POSTOFFICE DEPARTMENT.

The Annual Report of Congress of Postmaster General Wilson.

WASHINGTON, Dec. 9.—A vigorous protest against the annual report of postmaster general Wilson. He quotes figures which show an excess of expenditures over receipts of \$8,127,088 for the past fiscal year, which, however, is a decrease in the annual report of \$1,472,366 as compared with the previous fiscal year. This satisfactory exhibit for the past year has been made possible, the postmaster general sets forth, by a vigorous policy of bringing suits or pushing collection on bonds immediately after default.

The total deficiency, even after omitting the amount credited to the Pacific railroads, was \$8,127,088.44, which was a charge on the general treasury. There is no necessity for this annual deficit. The department is powerless to prevent it, but a few lines of amendment by congress to the postal laws will wipe it out and give in its place a steady surplus.

It has its chief cause in the transmission at second-class rates of a large and rapidly increasing volume of matter sent in the form of newspapers and magazines, which gives the nominal rate of 1 cent a pound on such matter, and assuredly outside of the policy of the law as to newspapers and magazines.

The proposed 1 cent letter rate he says is impracticable, while the deficit, since 1885 has reached \$90,000,000 from 1 cent a pound on newspaper matter carried by the Pacific railroads for carrying mail and applied to their indebtedness to the government, owing to claims of letters and indebitment of the department for telegraph service.

In some respects he says our postal service is the best in the world. He again recommends the consolidation of small offices with the nearest major order offices.

The results of rural free delivery experiments are not yet known. He recommends fixity of tenure during efficiency and good behavior to the three assistant postmasters general whose work is entirely non-political. He recommends the placing under the civil service of as many postmasters as possible.

COMPTROLLER ECKELS REPORT.

He Gives Information Concerning National Banks.

WASHINGTON, Dec. 9.—The annual report of the comptroller of the currency, submitted to congress, contains information in detail in regard to the organization, supervision and liquidation of national banks for the year ended Oct. 31, 1896.

During the year 28 new banks were organized, with a capital stock aggregating \$3,245,000. These banks were located in 15 states and the District of Columbia. Of the number, 8 were in Pennsylvania, 2 in New York, Georgia, North Carolina, Ohio, West Virginia, and 1 each in Alabama, Illinois, Kansas, Kentucky, Maine, Missouri, Texas, Virginia, Wisconsin and the District of Columbia. The capital stock of the 28 banks in the eastern states aggregates \$1,180,000, of the 6 located in the western states \$875,000, and the 10 in the southern states, \$1,190,000. The state of Georgia is first in the amount of capital stock represented by the new banks organized, the aggregate being \$600,000; Pennsylvania next, with \$520,000, and the District of Columbia next, with \$400,000.

The total number of national banks organized since June 30, 1863, the date of the granting of the first certificate of authority, is 5,051, making an average of 158 for each year. Of this number, 3,679 were in active operation on Oct. 31, 1896, with an authorized capital stock aggregating \$650,014,895, represented by 288,902 shareholders, or an average capital stock of \$2,170,682, of shares of stock of 2,396, and of shareholders 78.

The total amount of circulating notes outstanding on Oct. 31, 1896, was \$234,163,897, of which amount \$7,061,203 was secured by bonds still held for account of insolvent and liquidating banks, and \$48,747,430 by lawful money deposited for account of the same and by active banks reducing circulation.

The net increase in circulation secured by bonds during the year was \$20,329,053, and the gross increase in the total circulation was \$31,099,429.

The total resources of the 3,676 banks reporting on Oct. 31, 1896, in the date of last report of condition, was \$2,303,683,212.83, of which \$1,896,268,839.31 represented loans and discounts and \$362,163,783.85 money of all kinds in bank.

Of their liabilities \$1,097,891,023.73 represented individual deposits, \$336,842,894.70 surplus and net undivided profits and \$299,949,019.53 outstanding circulating notes secured by bonds.

His principal recommendations are these:

No one should be made a director, not an executive officer of the bank, except upon collateral security, or a satisfactorily endorsed note.

MAINTAINERS FOR CUBA.

He and Gen. Gomez's Son Killed In Battle.

SPANISH GIVE EXPLICIT DETAILS.

The Cuban General Performed a Great Military Feat Before Death—Crossed the Trocha and Was Getting Near Havana—Weyler Completely Outdone.

HAVANA, Dec. 9.—It is stated in most positive terms by the Spanish authorities that Antonio Maceo, the great insurgent leader, was killed in Havana on the night of the 22d inst. Maceo was killed near Mariel, with the Cuban leader died the youth Francisco Gomez, son of General Maximo Gomez.

Most explicit details are given in the report of the Spanish commander Major Grajales, who contested the passage of the trocha unsuccessfully on Dec. 4, (last Friday) with Maceo, and who sustained another conflict Monday with the forces under the insurgent leader. He stated that the Spanish troops made a reconnaissance of the ground previously held by the Cuban forces. The one body was that of a mulatto, a stout man, with gray, curly hair, and the other, that of a slender, dark haired youth.

Both men were dressed in white linen duck suits. On the corpse of the elder was a fine undershirt with the initials "A. M." upon it. The pair of black silk gloves on his body contained the same initials worked in red silk. There was a gold ring on the finger containing on the inner rim the engraved inscription "Antonio Y. Maria."

It is stated that there was found on the body of the younger man a letter written in pencil, saying that he dies rather than abandon the corpse of his general, Maceo.

WEYLER OUTGENERATED.

General Maceo Crossed the Trocha and Got Near Havana.

HAVANA, Dec. 9.—It is now semi-officially admitted that Antonio Maceo, the insurgent leader, passed the military line at Mariel, the port at its northern extremity. He was accompanied by the son of Maximo Gomez.

There was much excitement here when it became generally known that Maceo had crossed the trocha, a strong force of insurgents especially when coupled with the fighting between Spanish troops and insurgents close to this city.

It seems evident that the insurgent commander has not only cleverly turned the flank of Captain General Weyler, but has succeeded in getting in his rear and crossing the famous military line near the port which was used as a barrier against the insurgent forces in Pinar del Rio. The importance of this movement cannot be exaggerated.

The exact whereabouts of Maceo is not known, but he is believed to be hunting for Maceo in the mountains in the extreme eastern part of the island. General Weyler's chief has seemingly doubled on his tracks, turned the flank of the Spanish general and passed in his rear in the district of Mariel, crossing the military line at will, and possibly being by this time in the vicinity of the capital of Cuba.

If Maximo Gomez has carried out his plan, the insurgent forces are pushing westward to the support of Maceo, a junction of the two main bodies of the insurgent forces may be expected shortly.

Nothing appears to be known of the strength of the insurgent force with Antonio Maceo in this province. In fact, it was not until the news was being passed from person to person in the streets that the authorities would give out the report that Maceo had crossed the military line. This was believed, will alter the whole situation and important events may occur within a short time. There is no doubt that the insurgents have recently increased in number about the capital. The stray bands of 20 or 30 men, who are the Spanish troops have now swollen to the proportions of insurgent forces as 20,000 to 40,000 men.

It is not to be admitted and believed that Maceo will strike before Weyler. It is not to be admitted and believed that the captain general has been wounded in an engagement with the insurgents before the latter crossed the military line, and that he is unable to return here, except as a prisoner of the Cubans.

The authorities, naturally, are doing all they can to prevent the spreading of the trocha by Maceo, and intimate that he is, as usual, according to the Spanish, running away from them. This does not alter the fact that he has escaped the hunter and that the hunter may find difficulty in getting him.

A committee of notaries here are employed at the new trocha. They are employed at the new trocha. They are employed at the new trocha.

There is no denying that the supporters of Maceo are not only energetic and full of confidence, but also are a defeat at the hands of the insurgents, it is admitted, would have been better than the situation of the Spanish troops who have suffered in being so skillfully outmaneuvered by the insurgents.

EVIDENCE OF CONSPIRACY.

Julian Says He Has It—Fitz Won't Fight It.

SA FRANCISCO, Dec. 9.—Martin Julian states that he had evidence complete which will prove that a conspiracy was planned and operated against Fitzsimmons in the recent Fitzsimmons-Sharkey fight. Julian says that the conspiracy was organized by Egan, Danny Needham, Sharkey's trainer, and Dan Lynch, Sharkey's backer, and the National Club.

Julian says it is to talk of a contest before the Olympic club because Corbett and Fitzsimmons because clubs in New York will offer larger purses for a limited contest than a club in a smaller city. If an unlimited contest cannot be arranged Fitzsimmons wants to fight for the largest available purse in a limited bout.

MEXICAN DISAPPOINTMENT.

They Had Hoped Cleveland Would Favor Granting Recognition.

CITY OF MEXICO, Dec. 9.—There is a keen feeling of disappointment here at the report that Cleveland could not see his way to recognizing the legitimacy of the Cubans, for Mexican opinion is undoubtedly with them, and this country and most of Latin America, with the possible exception of Chile, is ready to follow the lead of the great republic, and it is said here that McKinley will take a more generous attitude.

VALENTINE SENTENCED.

The Forger Chief Pleads Guilty and Goes to Prison.

NEW YORK, Dec. 9.—William E. Valentine has pleaded guilty to the charge of forgery in the second degree and was sentenced to 10 years' imprisonment by Judge Hard.

Valentine was at the head of a gang of forgers and counterfeiters whose operations extended all over the United States and Canada and involved, it has been estimated, as much as \$2,000,000.

QUAY SIDES WITH LABOR.

Ke Place on the Business Men's League In Follies.

WASHINGTON, Dec. 9.—The attention of Senator Quay having been called to the interview of Thomas Dolan, published in Philadelphia, he said:

"My views upon the connection between business and politics were mentioned in a speech at a Republican meeting in Pittsburgh a few days previous to the presidential election."

"I am opposed to the entire scheme of the National Business Men's League as disclosed by Mr. Dolan. His basic theory is that the masses and all other classes, high office, and so take possession of the government. It will be met as stubbornly and overthrown as it is usually met by the masses and all other classes."

"The promoters of this league invoke a class against the government. No league of business men or other men based upon wealth or other foundation, can erect a government class in this country. In the United States we have millions and millions of business men enough to serve all legitimate purposes. Senators are needed who have no specialities, but who will stand for the interests of the country in gross without special affinities."

"The people most deserving of a legislative protection are the farmers, the small stockholders, the artisans and the laboring classes. I go into the barricades with the bourgeois and the men in business. In conclusion, I do not believe to per cent of our business men of the country sympathize with this league. There must be less business and more people in our politics, and the Republican party and the country will go to wreck. The business issues are making our politics sordid and corrupt. The money is being furnished by business men, reluctantly in most instances, are polluting the well springs of our national being."

JOHNSTOWN BOY MISSING.

His Parents Think He May Have Started For Cuba.

JOHNSTOWN, Pa., Dec. 9.—J. Reno Watkins, son of Mr. and Mrs. B. F. Watkins, prominent citizens of Park avenue, this city, left his home for Cuba on the morning of the 22d of October last and nothing has been heard of him since by his anxious and sorrowing parents, who fear that he may have met with foul play.

On the day in question an acquaintance of the boy, who is about 17 years old, saw him at the wharf in Pittsburgh waiting, he said, for a chance to work his way down the river. Repeated inquiries in the quarters where he would be most likely to go have revealed nothing as to his subsequent movements.

He was a very ambitious youth, more anxious to work than to go to school, and shows in his conduct a keenness of progress followed it closely and often expressed to others a desire to join the insurgents. They think that perhaps he was sent to Cuba to enter the Cuban army, but his parents think they would have heard from him on the way if he were living and well.

He is about 5 feet 10 inches high, weighs about 140 pounds, with dark brown hair and brown eyes. He had a very small amount of money about his person.

If he is still alive and should come across this item, his parents request that he be returned to his home or write to his much-grieved mother as to his whereabouts.

Any information concerning him will be gladly received by his distressed parents at Johnstown, Pa.

TERRIBLE MASSACRE BY SPANISH.

A Number of Rebel Prisoners Killed in Philippine Islands.

MANILA, Dec. 9.—Official dispatches received here from Manila announce a terrible massacre of insurgent prisoners in the island of Luzon, one of the Philippine group.

It appears that a number of prisoners were taken from the fortress of Cavite, the fortified seaport of Luzon. The fugitives were pursued by the troops, who overtook and killed 60 of them in the streets. The others were recaptured.

DEATHS FROM PLAGUE IN INDIA.

Bombay, Dec. 9.—Eight hundred deaths were reported by date of the plague, but the number is believed to be much larger.

THE MARKETS.
