On Saturday several of the leading officials were n Philipsburg and took a trip over the road, and rumors are affoat that the work of extending the road on through to Alcoons will be resumed before very long. The officials when they reached Ramey on Saturday, hired conveyances and drove out along the line of the survey for quite a distance, and this fact, with other circumstances, strengthens the belief that there is some foundation for the rumors now affoat respecting the proposed extension. There are some rich coal fields beyond Ramey that would be tapped if the road would be extended and would greatly in-
