FRIDAY, MARCH 12, 1897.

OF the appointments sent to the senate by President Cleveland, shortly before his term expired, 128 have failed of confirmation.

THE colored divine who furnished the Bible upon which President McKinley took the oath of office has filed an early application for office. Politics manages to slip into every profession.

It has not as yet been determined by Chairman Dingley and his Republican associates of the late ways and means committee just how much protection the sugar trust is to have in the tariff adjustment. But this is a matter on which the committee will have to reckon with the senate, in which body the trust has many friends. There is not the least doubt, however, that between the senate and the house the sugar trust will receive ample protection and care.

A WASHINGTON dispatch says: All of the officers of the new cabinet have indicated a purpose to go very slowly in the change of personnel in their depart ments. This not very cheerful news to office seekers has been communicated directly to many of the aspirants who have been unable to repress their ambition, and to add to their discomfort it is intimidated in some quarters that there are to be a very few changes in office, save where the incumbent insists upon immediate retirement, for some time to come.

THE London Daily Chrouicle publishes a dispatch from Athens saying that Greece has 60,000 troops on the frontier, and that the Turkish and Greek outposts are very close in places. For instance at Arta the Turks hold one end of a bridge and the Greeks the other. A Greek general recently while inspecting the frontier was captured by the Ottostate. man patrol, but was eventually rescued by the troops. The situation on the frontier, the dispatch says, is a danger ous one, and little would be required to set the country ablaze.

THE Pennsylvania legislature has been in session nine weeks, and as yet not a single bill has been sent to the governor for his approval. The senate has passed finally 48 bills and the house 25. The governor has signed a number of resolutions and vetoed two, one being a Cuban resolution, which he vetoed because he had signed a similar one. The other America, do hereby proclaim and de-

As all presidential postmasters are commissioned for four years, little doubt is entertained at the department that they will be allowed to serve out their terms save in exceptional cases, where circumstances may warrant early changes. Fourthclass postmasters are not commissioned for four years, but are appointed to serve at the pleasure of the postmaster-gener al. It is not probable that the changes will begin until a new fourth assistant previous years, are included in the estiis appointed, at an early day.

AFTER stating, says the Harrisburg Patriot, that the appropriations of the Fifty-fourth congress are \$1,043,437,018, Chairman Cannon, of the appropriations committee, says, "the appropriations are, in my judgment, in excess of the legitimate demands of the public service." Mr. Sayres, of the minority of per cent. of the crop or 88,000,000 the same committee, makes the total appropriations of this congress \$54,197,-812 in excess of the Fifty-third congress; \$16,632,470 over the Fifty-second crops. ALBANY, March 10 .- The report of the joint committee on trusts, which held several sessions in New York city last month, has been submitted to the legislature. It notes the fact that a decision of Judge Swayne on the federal constitution forbids action on the part of an individual state to absolutely repress trusts, but the committee express the belief that the attorney general can, by bringing action before a supreme court judge, in some respects remedy existing evils. A bill, which accompanies the report, grants immunity for witnesses who incriminate themselves and gives the supreme court the subporna power.
