

# A GREEK VICTORY.

## They Have Captured and Destroyed Damasi.

### HEAVILY BOMBARDING PREVESA.

#### Turkish Forts Almost Demolished—The Turks Within Ten Miles of Larissa, a Greek Stronghold—Heavy Fighting Reported at Different Points.

ATHENS, April 21.—The report of the capture of Damasi by the Greeks under General Simitzis is confirmed by official dispatches. Official dispatches report also that further heavy breaches have been made in the Turkish forts at Prevesa.

Vigia is still resisting. Another division of the Greek troops, it is reported, has traversed the Reven pass and captured three blockhouses. This division has almost reached Damasi, where it will effect a union with the force that captured the town. The 29,000 troops under General Simitzis displayed the greatest bravery.

Reven lies 15 miles northwest of Larissa. Edhem Pasha, with a force variously estimated at from 10,000 to 14,000 troops, led seven assaults against it but all were repulsed by the Greeks. Crown Prince Constantine has telegraphed here that the Turks at that point were completely and finally repulsed.

In Athens greater attention has been paid to the operations in the neighborhood of Reven than to those at the pass. The theory all along has been that if the Greeks could establish themselves at Damasi their road would be open to Eleassina.

The exact situation at Tyrnovo is somewhat in doubt. The news from that point is conflicting. There is no confirmation of the rumor that the place has been captured by the Turks. What seems to have happened is that Tyrnovo was evacuated in order to send troops forward to Reven and was then recaptured by troops returning from Mitouza.

An official dispatch from Arta says that after crossing the Arachos at Bani, the Greeks occupied the villages of Neokhor and their vicinity, where they strongly entrenched themselves. Colonel Manos is now advancing northward in the direction of Paraskovi. The Greeks report an attempt by the Turks to cross the bridge. A number of Greeks, among them several officers, were killed among the wounded.

Mitouza Pass, April 21.—The Turks have commenced to shell the town of Tyrnovo. All the roads leading to Larissa are closed with machine guns shooting "reserves," don't try conclusions with the Turks.

The Greek villages in the plain are completely deserted.

ATHENS, April 21.—A dispatch from Arta says that 5,000 Greeks have crossed the Arachos at Bani, and a severe artillery duel has been in progress since Monday. The Greek artillery have shelled the Turkish impregnable fort, commanding the town. Two attempts by the Turks to cross the river were repulsed. There has been brisk artillery and infantry fighting in the hills about five miles. Two Greek officers and many Turks have been killed.

LONDON, April 21.—The latest details as to the fighting at Mitouza make it evident that the Greeks suffered severely because of their lack of artillery. Several reports from Athens indicate that if the Greeks had possessed anything like adequate artillery the Turks would never have captured positions so obstinately held by the Greeks.

The Turks have clearly much to be thankful for in the absence of organization of their artillery by German officers.

LONDON, April 21.—A dispatch to the Times from Cairo says that the Turkish government has called upon the khedive to expel all the Greeks from Egypt. The Greek number 50,000 and are the chief promoters of commerce and trade, their removal is desired by none save the old Turkish party. It is reported that France will undertake to protect them, and thus the expansion will be avoided.

NEW YORK, April 21.—A communication has been received from Athens by Solon J. Vlasto, editor of the Greek newspaper Atlantis, from the ladies' committee of the Red Cross of Greece, of which Queen Olga and the Princess Sophia are the president and vice president respectively, asking that the women of America form a committee to assist the work of the Red Cross at the seat of war in caring for the dying and wounded. Mr. Vlasto said that he would issue an appeal to the women of America and that a meeting would be called to discuss various ways to take such action as was thought best.

LONDON, April 21.—A dispatch to the Morning Post from Constantinople says that the report that the Greek volunteers have cut the Salonica railway near Kavala is not confirmed. But the Greeks have captured the town of Chios after a sharp engagement with the Turkish troops.

SPAIN REFUSES TO PAY.

A Report to the Senate Concerning Arrest of American Sailors.

WASHINGTON, April 21.—Secretary Sherman has sent to the senate, in response to a resolution, the correspondence in the case of two American sailors, Gustave Michelien of Boston and August Bolten, who asked of Spain \$10,000 indemnity each on account of their imprisonment for three weeks at Santiago de Cuba. The sailors claimed that they were shipwrecked on the coast of Cuba Feb. 16, 1904.

No charges were preferred against them and after three weeks they were released, one having contracted rheumatism in prison, the other yellow fever. Their attorneys presented claims to the state department and the case is still pending, although Spain has twice refused to pay indemnity, claiming the appearance of the sailors in a boat without clearance papers, at about the time of the first submarine expedition, warranted their arrest and that the proceedings against them were the shortest permitted by the laws; that their statements did not agree and were evidently false.

Gentry's Life Spared.

HARRISBURG, April 21.—The board of pardons recommended commutation of the death sentence imposed upon James B. Gentry, for the murder of Actress Judge York, to imprisonment for life. Governor Hastings approved the recommendation. Gentry was to have been hanged Thursday.

# OURTAGES IN CUBA.

## Senator Morgan Tells of Shocking Happenings in the Province of Pinar del Rio—The People of This Country to Put a Stop to the Butchery.

### WASHINGTON, April 21.—Senator Morgan's resolution declaring that a state of war exists in Cuba was discussed briefly in the senate and then went over for a week, owing to the absence of Senator Hale, who has been active in opposition. Mr. Morgan again urged the need of speedy action by this country to stay the devastation going on in Cuba.

He had just listened, he said, to the testimony of a witness before the committee on foreign relations, which presented a shocking condition of affairs in Pinar del Rio. It was morally impossible that the people of the United States should close their eyes to these horrors much longer. We are, he said, aroused over Greece and Crete and Armenia, but the very stretch of these horrors is beyond our power. The Americans protected and scenes worse than those in the bloody days of the Netherlands brought to an end. If this resolution is passed, as he believed it would, human lives would be saved.

Mr. White stated that he had heard it intimated that the president was about to send a commissioner to Cuba. Would it not be desirable to send a commissioner before the committee on foreign relations was taking action?

There was no need of awaiting further news, answered Mr. Morgan. The country had been deluged with reports and unimpeachable evidence for the last two years.

Mr. Morgan went on to say that he expected when this commissioner came back from Cuba another one would go. He would not be satisfied until the country had been deluged with reports and unimpeachable evidence for the last two years.

The agricultural appropriation bill was then taken up and passed without amendment.

WASHINGTON, April 21.—A subcommittee of the senate committee on foreign relations has examined Mr. Earl, a correspondent of several American newspapers in regard to the condition of affairs in Cuba. Mr. Earl recently returned from the island, where he spent all his time with the Spanish forces in Havana and Pinar del Rio. He represented the condition of affairs to be intolerably bad.

THE PRESIDENT'S TRIP.

He Will Go to New York Monday to the Grant Ceremonies.

WASHINGTON, April 21.—The arrangements for the president's trip to New York to attend the dedication of the Grant monument April 23 have been perfected. President McKinley with his family, the members of the cabinet and their wives, the ambassadors and ministers of foreign countries and a few specially invited guests will leave here on a special train for New York Monday morning, arriving in New York at 4:30.

General Miles, commander of the army, and Admiral Brown, the ranking admiral of the navy, will accompany the president as a special escort. Several diplomatic corps will be quartered at the White House during the exercises and review at Riverside park on Tuesday the president will lead the government band, the band of Dolph in the east river and review the naval parade. In the evening Mr. McKinley will be the guest of honor at the Union League club. No arrangements have been set for the return of the party on Wednesday.

Vice President Hobart and the members of the senate and house will leave here on a special train over the Baltimore and Ohio on Tuesday.

The precaution of having the president and vice president travel separately on such occasions is taken because of the danger of assassination. It is regarded as a matter of the remotest possibility of embarrassing the administration of the government in the case of the disability of the president.

RUSHING THROUGH THE LEVEES.

The Flood Spreading Out, Thus Lowering the Main River.

MEMPHIS, April 21.—The river at Vicksburg, Helena, Natchez and all along from St. Joseph, La., to Bayou Sauvage, La., is reported either stationary or falling. This condition is the result of the great amount of water passing through the crevasses at Biggs and Reeds levees, above Natchez and at Hancock, below.

The Red and Texas rivers are now swelling and almost running over their banks and soon will begin spreading over a section of 30 miles to the interior. Work continues on the levees, however, with the abandonment of every thing possible is being done to hold the remainder of the levee system intact.

Reports from the Mississippi and St. Francis deltas, and the relief committees are taxed to their utmost to provide for the wants of the starving. At Memphis the river continues to fall. Reports from Greenville, Rosedale and Cairo state that an encouraging decline is making.

MANY REPORTED DROWNED.

An Appeal Made For Boats to Save Flood Victims.

NATCHEZ, Miss., April 21.—A terrible tale of woe comes from Bayou Vidale, in the lower portion of Madison parish. The water from the Biggs crevasse caught the people there unprepared and unaware of danger. Word was unknown to them that locality representing that boats be sent there at once, as the people were drowning.

How many were actually drowned is unknown, but Thomas Blackman, his wife and infant are known to have been drowned and Mr. T. P. Kells came near losing his life in attempting to save them. It is believed no others have perished. Boats have been sent to the fated locality.

Won't Support Ivory's Claim.

WASHINGTON, April 21.—The United States government will not support the demand for indemnity from the British government of Edward Ivory, who was for some time in prison in London under suspicion of being concerned in a dynamite plot and recently fled with the state department a demand for an indemnity of about \$100,000. The proceedings were regular in every respect.

# MUST HAVE HOLIDAY.

## The Legislators Will Attend Grant Ceremonies.

### THE HOUSE OVERRIDES THE VETO.

#### The Members of the Lower Branch Coincide With the Senators—Grant a Tip That the Governor Did Not Care—Business Transacted.

HARRISBURG, April 21.—The legislature has decided to take a day off to attend the unveiling of the Grant monument Tuesday in New York. Plans for the trip are being made by a joint committee of the two bodies and will be announced during the week. The senate will adjourn Thursday until the following Wednesday, and the house will adjourn Friday morning.

The resolution providing for the trip was back to the senate Monday night without executive approval, and was once unanimously passed over the governor's veto. When it came up in the house, concurrence Speaker Boyer stated that he was informed by an official of the executive department that the governor's reason for disapproving the resolution was because he was asked to get away Friday morning.

The Rodgers charter and the Lyon "ripper" were brought out of the house municipal corporations committee, just as they were being made, in spite of opponents' attempts to amend them.

HARRISBURG, April 21.—There was a slim attendance of members when the senate opened. After the usual preliminaries were over, the resolution was adopted providing for the formation of an independent Irish league in which agrarian interests are not to be dominant and which will be founded upon the broadest basis of political action for the benefit of the whole Irish nation.

The object of the league will be to further the interests of the Irish people; absolute independence of alliances with any English party and reverting to the old laws for coordinate arrangements; the principle of federalism in Mr. Gladstone's home rule proposals and manhood suffrage; and the development and encouragement of labor and the industrial resources of the country, etc.

A temporary executive committee was elected to draft a plan of organization and to hold the office until the Parnellite convention meets again in October.

KANSAS CITY, April 21.—Burglar Frank Connors and Highwaysman Ben Johnson, desperate criminals, seriously and perhaps fatally wounded Jailer Charles Ryan at the Penitentiary at Kansas City, Kan., in an attempt to escape. Both men were armed with revolvers. They managed to fling their keys through a window into the jail yard before the prisoners could get them. Other officials came to the jailer's rescue.

After being locked up Connors and Johnson attempted to commit suicide, each taking a big dose of opium. They were found unconscious and groaning, and it took two hours hard work before their lives were saved. They are now in the hospital and are expected to live.

# MUNICIPAL ELECTIONS.

## Lines Not to be Drawn in Illinois.

### CHICAGO, April 21.—Reports received of the municipal elections held throughout Illinois indicate that party lines were not sharply drawn.

Central, Hamilton, Bloomington, Joliet, Decatur and Lemont elected Republican mayors, and in Freeport, Kankakee, Litchfield, Jacksonville and Peoria the Democratic mayorality ticket was victorious. In the latter city John Warner was the successful candidate, winning by the narrow plurality of 17 out of a total vote of 10,400. The Republicans will contest the election.

In Rockford the election was the hottest in the history of the city, the A. P. A. question being the issue. The present incumbent, J. H. Danville, elected an independent candidate, the Republicans carrying the balance of the tickets for the year. The mayor turned up in the Civic Federation candidate.

OMAHA, April 21.—The election here was conducted under discouraging circumstances, cold rain falling. The public interest was light and the vote was remarkably small. Party lines were not sharply drawn. The fusion of Democrats, Populists and free silver Republicans against the Republican nominees, Frank Moore, Republican, is elected mayor over E. E. Howell, fusion, by less than 200.

THE PARNELLITE CONVENTION.

Redmond Irishmen Meet and Formulate Policies in Dublin.

DUBLIN, April 21.—There were 160 prominent Parnellites present at the convention summoned to meet in this city by John E. Redmond. The meeting was devoted to the discussion of the proposed political action for the benefit of an independent Irish league in which agrarian interests are not to be dominant and which will be founded upon the broadest basis of political action for the benefit of the whole Irish nation.

The object of the league will be to further the interests of the Irish people; absolute independence of alliances with any English party and reverting to the old laws for coordinate arrangements; the principle of federalism in Mr. Gladstone's home rule proposals and manhood suffrage; and the development and encouragement of labor and the industrial resources of the country, etc.
