

# THE GREEKS WILL YIELD

## To the Conditions Insisted Upon by Germany.

### AUTONOMY FOR THE CRETANS.

Affairs at Volo Are Now Fast Assuming Their Normal Condition—The Inhabitants Indignant at the Greek Troops' Desecration of the Town.

Athens, May 11.—The conditions insisted upon by Germany, the chief of which is that Greece shall give formal consent to the principal of autonomy for Crete, will be accepted by the Greek government. The note of the powers has not been received, but it has been drawn, and is to the following effect:

Upon a formal declaration by Greece that she will accept the conditions agreed to such an autonomous regime shall be given, and accept unreservedly the course of the powers, which will intervene in the interests of peace.

The note will probably be presented this afternoon, after the German minister has received final instructions. It is understood that Greece in her reply will assent to all of these conditions.

M. Raill, the premier, and M. Skoufopoulos, minister of foreign affairs, had a long interview last evening with the British representative, Lord Curzon, which has caused considerable comment. It is believed to be connected with the expected intervention of the powers.

A dispatch from Domokos says that the heavy rains there prevent fighting. Affairs at Volo are fast assuming their normal condition, but the inhabitants are very indignant at the way in which they were deserted by the Greek troops. The municipal authorities asked the military commandant what they were to do when the Turks arrived, and he replied: "Do what you like; it's no concern of mine."

The Greeks at Almyros are in a state of panic. The newspaper correspondents who were subjected to the severest censorship. General Smolenski is highly praised, but the prevailing opinion is that the majority of Greek officers are not only the smallest practical training, and entirely fail to command the confidence of their men.

The Turks have a quantity of railroad material at the Volo railroad station, but they were unable to use the engines, as the Greeks had removed essential parts of the machinery.

The Turkish officers complain of the non-resistance of the Greeks, and declare it is not war, but merely a military promenade. The opinion is expressed that the Greeks are avoiding a serious fight in order to spare their troops, who may be needed at Athens in the event of a revolution.

It is reported that Turkey's terms of peace include the payment of an indemnity of \$20,000,000 (\$50,000,000), a rearrangement of the Greek frontier, the annulling of the treaties favoring the Greeks, the cession of the Greek fleet to Turkey and the settlement of the Cretan question.

Mr. Stevens, the special correspondent of the London Daily Mail with the Turkish forces in Thessaly, declares that the province has been through rank covetous. Everything is ripe for a revolution. The army is discontented, and the population is universally discontented. The Greek National society could not have a better opportunity than this.

The recall of the forces from Crete has been received with resignation by the public. The Delianis organs attack the government bitterly for appealing to Europe, but most of the papers accept this as inevitable, and violently attack the Ethniko Hetairia, asking it to render an account of its action.

The Greek army now occupies all the passes from Lake Nympha, south of Domokos, to the Gulf of Patras, the latter point being occupied by General Smolenski's brigade. Skirmishes have occurred at Plaka.

Almost the entire population of Thessaly, numbering 250,000, has fled to the mountains in the west. Refugees from Volo, Pharsalos and the villages around Mount Pelion, transferred to the islands of Skiathos, Skiopos and Zifos. Forty-five thousand refugees from villages along the coast are clamoring for food and shelter.

On learning that the crown prince had appointed his dismissed chief of staff, Colonel Papadopoulos, and his aide-de-camp, Captain Dimitriou, to the command of an artillery regiment, the government recalled both officers to Athens, and ordered them to return immediately.

Pennsylvania Legislation.—Harrisburg, May 11.—The first order of business in the house last night was bills on first and second reading, and a large number passed this stage. Contrary to expectations, the bill on the Young Iron bill giving trolley companies the right of eminent domain did not try to reconsider the resolution making a special order if on second and third readings. Senate bill to establish a dental council and state board of dental examiners was reconsidered on motion of Mr. Focht, and most of the amendments to correct typographical errors. The measure afterwards passed on reading. The bill on the number of inspectors of the Eastern penitentiary from 2 to 12, and one permitting sheriffs and coroners to invite newspaper representatives to executions.

Chovynski Gets the Decision.—New York, May 11.—The 25-round bout between Joe Chovynski, of California, and Denver "Doc" Smith last night was cut short by referee Roche, who stopped the bout after two minutes and eight seconds of fighting in the fourth round. Smith frequently tried to hold Chovynski's hand during the first three rounds, but was repeatedly hissed for doing so. Chovynski had an easy task, for he knocked Smith down in the first round, and the second in getting to his feet. The fight was so one-sided that Smith repeatedly fouled, despite the referee's warnings, and at the end of the fourth round Chovynski was awarded the decision.

Steamers Foundered, Many Drowned.—Harrisburg, May 11.—A dispatch from the island of Heliogoland announces that the Dutch steamer Erdene, from Capri, island of Sardinia, for Stockholm, has been in collision with the Norwegian bark Roedvar. Both vessels are supposed to have foundered. It is reported that 15 men of the two crews have been rescued, and the drowned are largely in excess of that number.

This decision has the effect of continuing the control of the telephone by the Bell company for 17 years from the date of the last patent, which was granted in 1891. The decision was given yesterday by the United States supreme court.

# CUBA IN THE SENATE.

## Mr. Morgan's Resolution Will Probably Be Referred to Committee.

Washington, May 11.—The Morgan Cuban resolution was discussed at length in the senate yesterday. Mr. Morgan of California spoke against the resolution, while Mr. Turpie of Indiana supported it. The speeches were not of the kind to stimulate the galleries, being in the main calm and dispassionate reviews of the situation in Cuba. There is some prospect that a vote may be reached today on Mr. Hale's motion to refer the resolution to the committee on foreign relations. A resolution was agreed to without opposition putting into effect today the rearrangement of the senate committees as agreed upon by the several caucuses.

The house resumed the transaction of public business which had been suspended since the Indian appropriation bill was passed three weeks ago. The consideration of the senate amendments to the sundry civil appropriation bill was entered upon under a suspension of the rules, and continued each day until disposed of. Mr. Simpson of Kansas attempted to harass the majority with points of no-quorum, but was rebuffed by the majority.

The debate yesterday was confined to the discussion of the senate amendments to restore the lands reserved as forest reservations under President Cleveland's order of Feb. 22 to the public domain. It was agreed to take a vote on this question today.

Waynesville, Ga., May 11.—A race war at Delmar, a little town near here, resulted in a riot yesterday. A storekeeper, William Simmons, a negro politician of some repute, Simmons attempted to refuse to wait on a white customer, whereupon a mob gathered and killed him.

### BRITISH COMMISSIONER'S REPORT.

It Does Not Admit That the Seal Herds Are in Danger of Annihilation, but Declares That the Situation Demands Prudent Management.

Washington, May 11.—Mr. C. S. Hamlin, former assistant secretary of the treasury, and now employed by the government as assistant counsel in the pending negotiations with Great Britain relative to the seal fisheries, has returned from California, where he went to confer with President Jordan, of the Leland Stanford university. President Jordan spent a part of last week in California, and was accompanied by a British commissioner in charge of the seal investigations, and Mr. Hamlin's mission was to secure, if possible, the acceptance of the British proposal for a commission for the coming season.

Mr. Jordan has agreed to undertake the project, and in company with Professors Stejneger and Lucas, of the United States national museum, Mr. Hamlin will visit the Pribiloff islands in the near future. The British commissioner, Mr. Hamlin, is expected to return to California in the near future.

During the voyage there were repeated attempts to poison me with William Jordan, president of the seal herd, but I discovered among the effects of the man calling himself Baron von Turkheim certain papers showing him to be a detective employed by the seal herd's agency, in San Francisco. I charged him with his duplicity he admitted it. We came to London and he was arrested, and will be sent to a boarding house.

London, May 11.—Jeanine von Turkheim, daughter of the late baroness, is in this city in a great distress. She says that she is the victim of a conspiracy which has grown out of the Fair which was held in San Francisco. She charges her husband with a knowledge of the conspiracy, and is anxious to return to California in order to expose it. She is actively employed by the seal herd's agency, in San Francisco, by cable, to send her money enough to pay her passage home.

The correspondence of the Associated Press interviewed the Baroness von Turkheim, as she is known, yesterday. He found her in a state of great mental distress, and the course of the interview she said:

"Owing to my knowledge of important facts bearing on the Fair will case I have been invited to go to San Francisco. I am anxious to return to California in order to expose it.
