# Jambria Freeman.

ESENSBURG, CAMBRIA CO., PA., FRIDAY, . . . . . . MAY 28, 1807.

As order providing for an investigation of trusts by a special commission part of it: was defeated in the Massachusetts legislature

THE Japanese government has made a formal demand for damages from Hawaii for refusing to permit Japanese immigrants to land,

A MATHEMATICIAN has computed the movements of a rider's feet while working a bicycle, and has demonstrated that it requires less exertion to travel 15 miles on a bicycle than to walk three.

THE Reading iron company will reduce the wages of all employees on June 1st; four hundred men have struck against a reduction by Spang, Chalfant, & Co., of Etna, Pa; and two hundred men are out of work because they would not accept a reduction proposed by the Eleanor iron works company of Hollidaysburg. So much for prosperity and its advance agent.

The Hamilton road bill, says the Greensburg Argus, should have its title changed to "A bill in the interest andfor the convenience of bicycle cranks." Next session they will likely demand a special asphalt track fringing every highway in the state, to be built and maintained at the expense of the farmers, and there will be enough mush heads in the legislature to pass it.

THE New York Board of health is debating a plan to appoint oculists as achool inspectors in addition to the regular medical inspectors. Complaint is made that the schools of the metropolis are badly lighted; that the seats and desks are badly placed with reference to the light, and especially that no attention is paid to pupils' visual defects in seating them. Thus the far-sighted pupils' may be before the blackboard and the near-sighted ones way behind.

THE supreme court has decided that the interstate commerce commission has power to establish rates of transportation on railroads. Its power consists in enforcing publicity of rates, and in preventing preferences and discriminations as between places or persons. To accomplish these purposes it has all necesthrough the courts the abolition of down comfortably and sell their limited

house while the Dingley bill was being discussed was made by John C. Bell of Colorado. With facts which are indisputable and logic which is unanswerable he exposed many of the fallacies of protection. His exposure of the absurd claim that protection helps the workingman is especially good. Here is a

"But our friends upon the other side say that they levy a tariff for the benefit of the wageworkers. I say to you that any tariff bill, I care not from

flow of immigration from foreign counand is opposed to the interest of all wageworkers. [Applause.]

"Protection is always asked in the interest of others. Now, observe how it man-just enough to cover the differwages and our own. What hypocrisy! Who ever heard of the laboring man

getting rich manufacturing? The statisticians clearly figured from the census of 1880 that about 6 per cent on our dutiable list would cover the difference between the European wage schedule and ours, or that about 18 per cent ad valorem covered the entire labor cost of our list of 1880. While the manufacturer then asked for the poor laborer his 6 per cent he got for himself at the hands of congress six times 6 per cent. "Is there any reason why a high tariff affects wages injuriously? Yes; by en-

trust system for the manufacturer and against the laborer. The high tariff makes the manufacturer complete master of the wageworker. "In the review of R. G. Dun & Co.,

Feb. 12, it is stated:

of the steel rail pool. In two days,' says the report, 'after it a greater tonnage of rails was probably purchased than the entire production of the last year, re-

ported at 800,000 tons. And instead of \$28 in December and \$25 in January, east and west are seeking orders. And further,' says the report, 'the Carnegie company has been selling at \$17, Chicago delivery. These sales will employ many thousand hands, with an imporon renewal of railroads."

> employed these thousands of men? Our friend Mr. Hopkins of Illinois tells of the benefits of a higher duty on iron and steel. Did the steel rail pool need more tariff?

manufacturer a double profit through a high tariff or through a pool? Do they ever share the profits of the pool with not been invested by congress with the labor? No. Will they ever share the profits of a tariff? Never. "It takes no political economist to answer these questions. If the United States manufacturers can reap twice the profit under a high tariff by limiting themselves to the home market and running half time, why should they run full time and invade foreign marsary power of inquiry, and can secure kets? They never will. They will sit

#### me of the best speeches made in the Washington Letter.

Washington, May 21, 1897 --- Whethir this is a government by of, and for the people, or a government by, of, and for the sugar trust, is a question that will soon be determined. Not satisfied with holding the people of this country. up to the extent of eight or ten million dollars a year through the sugar schedule of the tariff bill, the trust is seeking to preven either the administration or congress doing anything that will help Cuba. Although Mr. McKinley has

SETTLED OLD SCORES Presbyterians Adoted Majority Report on Big Building.

GAVE BRIGGS A PARTING SHOT.

The Graduates of Offending Union Ordered Not Taken Under the Care of Any Presbytery—Only One Secretary of Home Missions.

EAGLE LAKE, Ind., May 26 .- The Presbyterian general assembly has settled two important questions. The first was not to sell its building in New York and the second to have only one secretary of home missions. The latest echo of the controversy over Dr. Briggs and the Union seminary came up in the report of the judicial committee, which extended to all presbyteries the order to exclude students of that seminary from their care. It was apparent that few commissioners knew what they were voting upon, as the matter came up on appeal from some unusual action of the synod of New York, the name of the case alone being given. The following reply to the cablegram

sent to Queen Victoria was read : "The queen thanks the assembly for its kind telegram. "EDWARDS," (Signed)

One of the special orders for discus sion was the two reports on the Presbyterian building at New York. Dr. Withrow said that many things

had been charged against the commit tee and proceeded to enumerate them These were in effect that all facts in the case had not been presented; that the Twentieth street prop rty had not been procured after the consent of the assembly had been secured and that the mortsage on the building had been misrepresented as to its amount. 10 statements Dr. Withrow replied that the committee had facts and had presented findings on them to relieve the assembly of the trouble; that the acquisition of the Twelfth street property was similar to that of the Twentieth street and that the allegation as to amount of the mortgage was mistaken. As to the legality of the use of the Stuart legacy in the building, it was supported by the opinion of nine

eminent lawyers against the view of The proposal to buy the building, attributed to Mr. Kennedy of New York. was long since dead, having expired by limitation. A letter was read from Miss Kennedy's pastor stating that for over a year Mr. McDougail had had no authority to speak for her, and that she had no intention of doing anything further in regard to the matter. This had reference to offers once made by the former to buy the building on cer-

proved abuses. The function of the interstate commerce commission is to organize and secure fair play.

THE Mississippi floods have ceased to less than \$15,000,000 will repair the material havec which they have wroughtnot so grave a loss as in many former years of over flow yet large enough to call for active measures on the part of the federal government for perfecting a levee system which should stop this periodical drain upon the wealth of the country. The Father of waters is an expensive parent, but it would cost less to curb his propensities than to let him have his sweet will entirely.

THE Democratic legislators must see that not a cent of the public money is wasted on the so-called Philadelphia Lexow committee which was created to serve a partisan purpose and to aid one side in a factional quarrel. It has accomplished have gained, as he would have had fewno good ends whatever. The last legislature refused to give it any money to waste and the present body should act with like wisdom, especially now that people to buy or use his wares. the charitable institutions of the state will need every cent of revenue that can be spared. The responsibility of settling this matter to the bests interests of the public rests with the Democratic members

JUSTICE DEAN, of the supreme court of this state, believes it is within the power of the judges to improve the ju-

supply of goods for increased profits, making them more than whole, while the laborer tramps the country in search of work just as he now does under the trust system.

"It is unfortunate that the humdrum of the tariff has been sounded in the be a menace, and is now apparent that | ears of the people until many of them really believe that foreign trade is unimportant, if not a curse. Why did the breaking of the steel rail pool put so consequent lowered price for iron and steel brought most liberal orders from abroad as well as at home. Suppose the tariff had been prohibitive and we would have been confined to the home market. Would the manufacturers have made so many goods? No, but they would have doubled their profits on what they did make. The people could fer a resolution providing for an invesnot have bought so many because of the tigation before doing so himself, but increased price. Who would have suf-

that the investigation will certainly be fered? First, the workmen, because they would have had fewer goods to make; secondly, the consumer, because he could not have bought so many at a higher price. Who would have been benefited? The manufacturer, because he might have made and handled less goods, made a double profit, and really

er to handle for the same profit. "This bill will increase the manufac turer's profits on the individual articles, but will lessen the power of the "It is the poverty of the buyer, not the producer, that must be relieved before things will thrive. "The manufacturer has every facility to produce, but no facility to sell.

"It is the consumption that must first be stimulated, and that will stimulate production. "There are but a few crumbs in this

bill to aid the oppressed farmer of the interior or the laborer, but thousands have reached here of a disastrous cloudof things to further oppress him. Higher sugar, higher salt, higher lumber, high-
