NO NEED OF MORE REVENUE.

The Missonrian Thinks the Money Raised by the Last Bond Issne Would Fill the Fresent Gap-Aldrich's Long Explanation-Cannon Also Spoke.

WASHINGTON, May 26 .- The debate on the tariff hill in the senate is procerding with crowded galle ies and a large attendance of senators and tariff leaders of the house.

Senator Aldrich declared that the estimates of the house bill by its framers of \$60,000,000 increase of revenue if the bill should go into effect July 1, was excessive.

Mr. Aldrich pointed out as one example the wool scheaple, from which \$24,000,000 out of \$76,000,000 increase was expected. The importations in anticipation of tariff changes, would make importation for a year unnecessary, which would cut of this revenue almost entirely, Said he: "The secretary of the

treasury estimates the expenditures for the fiscal year ending June 30, 1898, at \$466,946,047.28. The finance committee estimate the revenue to be derived in the same fiscal year from customs if the provisions of the bill reported by them should be enacted into law, at \$182,744,000. This includes an estimated revenue from the temporary duty on tea of \$8,000,000. The committoe estimate the receipts from internal revenue for the same period at \$170,-00,000. If we add to this the treasury estimate for miscellaneous receipts, second, on, and the receipts on account of the postoffice, \$95,227,076, we have a total estimated receipts for the fiscal year 1898 of \$469,671,076, or an e-tinated excess of receipts over expenditures for the year of \$2,725,028.

"If the estimated revenue from the duty on tea and the additional internal revenue taxes should be omitted from the committee's estimate of receipts there would be an estimated deficiency of \$29,175,000 instead of a surplus of \$2,725,028. The committee believe it to be the imperative duty of congress to provide in the measure under consideration for a revenue which will certainly meet the requirem nts of the government for the next fiscal year.

Assuming that the necessity for additional revenue exists, and of this we believe there can be no question, there is no economic reason, and certainly none that affects the public interests, why beer and tobacco should not bear their share of additional taxation. The committee believe that the duty proposed on tea will not prove a serious arden upon the consumers of that article.

In reference to the sugar duty Mr. Aldrich said :

"The pressing necessity for securing greatly increased revenues seems to render a return to the Republican policy of free sugar adopted in 1890 an impossibility. The demand for revenues proposed and the belief that every reasonable effort should be made to encourage the production of beet sugar in the Uni ed States led a majority of the inance committee to recommend the high rates upon sugar which are con-

tained in the bil now before the senate. important changes have been made

THAT LEXOW EXPENSE every dolla collected by the government beyond its needs is a crime. Why was it, Mr. Vest asked, that the Republican party was about to abandon its re ord and urge a tariff not for protection, but for the amount Dissected by an Anti, It Looks of revenue it will produce. Why does it abandon its record and propose a tax on teay. The senator said there was at this time an available balance in the treasury of \$229,350,650. Deducting HOWEVER, IT PASSED THE SENATE. the gold reserve of \$100,000,000, the available balance was \$129,350,650. This vat amount of idle money was Kauffman Played the Role of Chief Surgeon-Grady Applied the Adhesive now accumulated in the treasury. \$105,000,000 more than when Mr, Harrison turned over government affairs to Mr. Cleveland. How could this obvious fact be avoided. Mr. Chandler interrupted with an inquiry as to where the vast accumulation in the treasury, to which Mr. Vest had alluded, came from.

"We all know," answered Mr. Vest, "that it came from the sale of bonds which I did not approve, but it makes no difference where it came from. There it is in the treasury and what right have you to increase the taxes on the people when enough is in the treasury already." The senator de-clared that the urgent need was not for greater taxes, but for more money and better prices

The fall in prices must be stayed before there could be any prosperity. He mentioned as one source of evil that our workers were paid on a gold basis and came into competition with those paid on a silver basis. "The senator from Nevada (Stewart)

usually makes that argument" interposed Mr. Gallinger (N. H.). He has based it usually on Japan's use of silver, and now Japan has repudiated silver.

"You mean Japan was bought out," Mr. Stewart pat in. Mr. Vest then turned to several of the schedules and discussed them in detail.

Mr. Cannon (Silver Rep., Utah) introduced an amendment for a bounty on agricultural exports and spoke briefly. He said the pending bill offered no protection to agricultural staples. The passage of the bill without any projection to the farmer would be a violation of the pledge which the victorious party made in its platform to the voters ast year.

REFORMED SYNOD ENDED.

Committee on Nominations Reported a the Closing Session.

THE BAPTISTS ADJOURNED. Missionary Cossum Saubbed For Hi

Criticism of Rockefeller.

PITTSBURG, May 26 .- The Baptist anniversaries, which have been going on in the Fourth Avenue Baptist charch since May 17, are ended.

All who have attended these anniversaries say they have been the most profitable and enthusiastic of any held

for many years. Before the final meeting was formaily opened all foreign missionar.es, with one exception, were invited to the platform. This exc. ption was Rev. W. H. Cossam of China. This omis-sion is believed to have been no accident. Mr. Cossum is the missionary who caused the only unpleasant in (ident of the anniversaries by his imputation on the character of John D. Rockefeller, and the opinion of many was that the failure to invite him to the platform was a further protest by the officials as to the remarks made by him.

Rev. Mr. Cossum occupied a seat close to the front and there was a rather set expression on his face. The missionaries made addresses on their work.

vetoed bills will be taken up and an The nomination committee made their report and the following officers It is said that Mr. Andrews has rallied were elected :

in schedule K, both on the rates on wool and manufactured woolens. "In dealing with the wool schedule

the committee has suggested more liberal rates to the domestic woolgrower than it has recommended for the producer of any manufactured article in the schedule. It has also suggested for him a more effective protection than he has ever received under any tariff of the United S ates at the time of its enactment. The woolgrower is given the benefit of a specific duty upon all classes of wool. Under the operation Under the operation of this fixed specific duty the amount of protection afforded will increase with each new decline in the foreign value of this new material.

The committee has aimed to give the woolgrowers a rate of duty which will average from 10 to 20 per cent higher than the rates of earlier tariffs. In doing this it has given a higher protection upon the raw material than upon the manufactured product in SVETV CLASS.

"Very careful consideration has been given to the compensatory duty on woolen goods, with the result of reducing the compensatory rates on low grade goods, into whose manufacture more or less other materials than wool enter. On the high grades compensatory duties are fixed on the same basis that has obtained in all previous tariffs.

"The house bill rate of 32 per cent on carpet wools costing less than 13 cents a pound has created more agitation and opposition than any other feature of the wool schedule. It is alleged by the woolgrowers that this low rate of duty on carnet wools destroys the effectiveness of the protection afforded upon the higher grades of wool, by reason of the temptation it offers to import these low wools to be used in cheviots, golf suitings and other popular fabrics which do not require tine wools,

"To remove all possible ground for complaint on this score they have fixed the duties on class 3 wools at 4 cents a pound under 10 cents in value and at 7 ints a pound over that valuation. Under these duties the ad valorem equivalents will range on the various clips from 35 per cent up to 60 per cent, and, in some instances, 70 per cent, and they are higher than in any previous law. It is certain that under these duties foreign carpet wools cannot be imported to take the place of domestic

wools in the cloth manufacture. "At the time the bill was reported the committee stated in their behalf that an amendment looking to the more rapid development and extension of reciprocal trade with foreign countries would be reported from the committee at a later day. The committee have not yet found the opportunity to prepare such an amendment. It seemed to them that the provisious of the house bill in this respect would not prove effective. It is the purpose of the committee to prepare a provision which will enable the government of the United States, within certain fixed limits and without further legislative action, to enter upon arrangements or to negotiate reciprocity treaties looking to an extension of our foreign trade. Mr. Pettigrow presented the amendment of which he has heretofore given notice that when articles are manufact ured by a trust articles of such character imported from abroad shall be free of duty. He said he would ask its consideration immediately after the committee amendments.

Mr. Vest, Democratic member of the finance committee, was then recog-nized. "We know," he said, "the desperate condition of the country, the ruined homes, the blasted hearts. If prosperity can come from any source, ven from our adversaries, we will bless the moment. I do not believe the imposition of higher tariff duties will dispel the clouds hanging above us, bringing back the sunshine and illaminating the whole country."

It had been said, Mr. Vest proceeded. that adversity came with the advent of the Democratic party and prosperity with the R publican party. But that adversity dia not come with the advent
