standard of quality established by the Secretary of the treasury in April last. The busiest consul in the world is the British consul at New York. The British shipping at New York aggregates about 4,000,000 tons annually, and 25,000 to 30,000 seamen are paid off and shipped each yerr, involving the

THE passage of the Republican tariff bill by the senate was greeted by one of the greatest strikes in the history of the country, and yet the measure is the product of the Grand Old Party that promised to provide prosperity for all just as soon as its candidate for president was elected.

ALASKA was bought from Russia in 1867 for \$7,200,000 in gold. It has proved a good investment, but its pur chase met with great opposition. Mil fions of dollars have been secured fromfisheries and furs in that extensive territory, and next year the yield of gold wil be \$50,000,000 or more.

Prosperity seems assured to the farm ers of Southern Pennsylvania at last, for they are about finishing up one of the greatest harvests that section has seen for years. Never has the Cumberland Valley yielded such a large crop of hay and grain as this season, all of which has been harvested in prime condition. The price of hay is low compared with some years. Notwithstanding the large crop of wheat the price has steadily advanced.

THE fact cannot be lost sight of that I the Republican party is scainly respon sible for the plight of 175,000, striking m iners. They, like thousands of workingmen in other lines of labor, were told last year by the prosperity promisers that if they voted for McKinley their wages would be raised right away. They were lowered instead. Now they have peacefully decided that it is better to starve idle than to starve working. The country will hold the Republican party responsible for their deplorable state and the consequences it may entail.

NORTH CAROLINA sets her convicts at the work of road-building, and the experiment is successful from all points of view, says the New York Tribune. The prisoners do good work, keep healthy, show no repugnance to the occupation, and do not try to get away. It costs six cents less a day to feed them while engaged in out-door work than when they court said: "The act is an infringeare in the prison. It is announced officially that they are more efficient than and the employe; more than this, it is hired workmen. Privileges are accorded an insulting attempt to put the laborer them for good conduct. In some eases under a legislative intelage, which is not they are allowed to stay at their homes from Saturday night till Monday. So subversive of his rights as a citizen of far not one of them has violated his par- the United States." In Showalter's ole by trying to get away. The north case it was sufficiently shown, the court Carolina experiment is a valuable held, that the understanding between and interesting object lesson, and its the plaintiff and the defendant was that success is likely to lead to its application | the goods furnished him were on account

A HARRISBURG dispatch of Wednesday last, says: Representative Campbell, of Westmoreland county, who served on the committee which inquired into the industrial condition of the anthracite mines of the state, was here to-day to tell the governor what he knew of the bill of \$177 which the state was asked to pay to him as a member of the committee. Owing to the illness of the governor Mr. Campbell did not see him, but he made public the knowledge he had as to how the amount came to be charged. He said that chairman Meredith and the sergeant-at-arms of the senate had orig- on Tuesday it was explained that the

The new traff formed by the trusts for their on profit, having by President McKin. v's signature become a law, the Republican party, says the New York Journal, stands prepared to defend the work in which it has so willingly and gratefully assisted. The defense well not be that the tariff is a good tariff, that it makes life easier for the millions who work hard for very little, or that it deals fairly with business men, and is as beneficial to manufacture and ployment, pending the settlement of the commerce as a lower and honester tariff would be. Indeed, it will be admitted that the tariff is a swindle from begin-GOVERNOR HASTINGS he signed the ning to end, but it will be contended changes in it in the common interest To plead for mitigation of the robbery of the people by the trusts will be denounced as a sinister onslaught upon "established conditions." Every profrom houses, and two houses were blown | testing squirm of the sheep in the hands of the shearer will be interpreted as a wicked and wanton purpose on the part ALTHOUGH the new tariff law was not of the hapless animal to "disturb business." And the Republican party is not without hope that this sort of defense will avail. It trusts that everybody is so tired of uncertainty that a known amount of blackmail, however large, ADVICES from every wheat growing will be paid quietly in preference to incounty in Oregon show that the wheat viting the chances of change. The crop will be the largest in the history of game has been set to run for three years

> "It is a brace game, gentlemen, of course; as an honest dealer I won't deny what you all know. But you had better come up with your money and let me steal the advertised percentage than go to all the trouble and worry and expense of neglecting other business to get a square game set. You know what you are bound to be cheated out of here, and can make your arrangements in your affairs accordingly.

The country wants rest unquestionably, and business men are anxious for certainty, but the Republican party will be disappointed in its calculations, nevertheless. The argument that it is better to put up with piracy rather than to face the exertion and cost of suppressing the pirates, might be addressed with effect to thieves or slaves. As the American people are neither, they will rise at the very first opportunity and free themhandling of about £60,000 for seamen's selves from this robbery. The price of good government is disturbance until it has been obtained. The house of representatives which passed the McKinley bill was sent flying, and the congress which has passed this Dingley tariff will not escape.

To believe that the people of this Re public will endure gross spoilation at the hands of one political party for fear of what another political party may possibly do as to something else if given pow er-and it is on that assumption the Re publican party has gone off on a de bauch with the trusts-is to believe that Americans are cowards and fools.

There will be no peace for manufac urer, merchant or consumer in the United S ates while the tariff is what we see it now-a compact between the party of protection and the greed of the country to give the license of law to taxation or private profit. The Dingley tariff is theft, theft on a gigantic scale, and as the people are the victims, and know it, they will take all the disturbing conse quences of putting Turpins of the trusts to flight with their ballots. Republican tom-tomming will be noisy, to be sure, but it will not scare.

Among the decisions handed down by the superior court at Pittsburg on Saturday was that in the suit of Edgar E Showalter against the Cumberland and Summit Coal and coke company, appealed from the common pleas court of ourt is reversed. The defendants in he lower court lost the suit, which is an action to recover \$193,71 for wages, lespite the fact that the plaintiff had procured goods at the company's store The plaintiff worked for the coal company for thirteen months, and was paid partially by money and the rest by goods. He sought to recover the amount that was paid by goods, less \$37.18, allowed for powder, etc., claiming that under the act of May 20, 1881, he was entitled to recover his earnings n lawful money.

Judge Wickham, who made the deusion, says the act of May 20, 1891, so far as it applies to this case, is clearly unconstitutional, and he cites the case of Goodcharles vs. Wigeman, decided by the supreme court in 1896, in which the ment allke of the right of the employer only degrading to his manhood, but

By reason of the present miners' strike the opinion is made more important.

THAT the tide of prosperity flows high in Mexico, with its "fifty cent dollar," cannot be doubted. Official statistics ompiled by President Diaz's adminisration shows that the foreign capital invested in Mexico in the last four years amounts to \$1,000,000,000 in national money, Of this amount \$213,302,225 has been invested by English, \$345, 310,000 by Americans and \$441, 387,

775 by French and Germans. In the house of commons, in England,

#### Romance of the Klondike.

Miami, I. T., July 26 -When the steamer Portland brought the news of the righ g ld discoveries in Alaska, her mails "trined a letter which delighted Inola To wee an Italian maiden, living in the V. -des nation. Some years ago William S vers was a non-commis sioned the to the regular army, sta tioned at Fort Gibson. Inola's father was post sotter. She fell in love with Sowers, and they ran away. Soon after Sowers it scited his love and fled to

The Portland brought a letter from Sowers, in which he says that he has struck it rich on the Klondike and intends to return to America in the spring and claim Inola Twowee as his wife. Sowers says the banks of the Yukon River are strewn with the corpses of unfortunates who entered the country un prepared to face the terrible cold which

#### Russia's Big Ditch.

sets in at the beginning of September.

Russia proposes to connect by canal he Black and Baltic seas, the big ditch which is to carry the largest battleships, being 1,000 miles long, 213 feet wide at he sureace and 115 at the base, and 28 feet deep, and connecting Riga on the Baltic with Cherson on the Dneiper, near the Black sea. The canal will run from Riga into the river Dvina which will be used to Dvinaburg, whence the canal will be cut to Sepel, and the Beresina and Daeiper Rivers utilized trom thence to Cherson, and it is proposed also to over all the river regions with such a network of canals as will aid greatly in leveloping the surrounding country The steamship voyage between the two seas will be reduced from 12 to 6 days, as travel will go on night and day at permitted speed of 7 miles an hour The estimated cost is \$95,000,000, which will fall far short of the actuality, and Germany sees in the work not only cheaper food but a new demand for her iron and steel products.

#### Five Persons Browned.

Boston, Mass., July 28.—The Allan line steamer Seandianvian arrived this afternoon from Glasgow, and brought with her the four survivors of the crew sf the British barkantine Florence, Captain Henry Olson, which sunk in a collision with the Scandinavian last Saturday while a dense fog twenty miles south of Cape Race. Four members of the crew were drowned, together with the wife of Captain Olson. The Florence was bound from Sydney to St. John's, N. F., with a cargo of coal. The men ost their lives weae: Noah Morris. cook, aged 51 years; William Yabsley. sley, awed 25 years, a nephew of the captain's wife; James Norman, seaman, aged 22 years, and William Frye, seaman, aged 33 years, of Poole, England The former three were from St. John's,

#### Gold Nearer Home.

Sacramento, July 23 -- It will doubt le s be of interest at the present time. when people are becoming excited over ne stories of the great gold discoveries in Alaska, to know that rich strikes are still being made in the mining district of California, as private advices were received here to-day by a mine owner that a marvelously rich strike had been mede near Placerville.

C. C Cohn, a merchant at Folsom, writes that there were exhibited in his store yesterday 31 5-8 ounces of gold which were obtained from a claim six miles from that town in three hours by one man. Mr. Cohn says the amount of earth received, from which this amount of gold was obtained, was brought to the surface in a coal oil can and one ordinary wooden bucket.

#### Women Prisoners Sentenced.

Budapest, July 23 -The trial of 1 women and two men charged with wholesale poisoning was concluded here today, and sentences were pronounced upon six. Four were condemned to death, one to penal servitude for life and and one to six years' imprisonment. Of those sentenced to death, one was found guilty of having caused the death of four persons by administering poison, another was convicted of having noisoned Somerset county, in which the lower two persons, the third of having poison ed one, and the charge of murder was proven against the fourth. The victims were in most cases married men who were killed by their wives, the motive being a desire to obtain insurance money. An alleged midwife named Marie Jager supplied the other female prisoners with the poison used by them.

#### Copper in York County.

York, Pa., July 23.-Valuable silver and copper discoveries in the South Mountains, in which York county capitalists are interested, were made public in York to-day. The discoveries were made by a Colorado miner of experience and the yield of copper is said to be unusually rich.

Cengressman Sulzer, of New York, Edison and other well-known people have been interested in the find and 19 year leases have been secured on proper ties on which a rich output is promised It is the intention of those interested to organize stock companies and work the mineral lands. A representative of the projectors who visited Edison says the wizard will furnish a process which will make the copper mining, which is naturally so, particularly profitable.

#### Hanged With a Hawser.

James B Campbell, ex City Clerk of Chester, Pa., was killed Sunday by a most peculiar accident. He was one of a party standing on the government pier awaiting the Wilmington (Del.,) passenger steamboat. A steam tug which was lying at the pier with a hawser attached to a post began to move and the hawser, becoming taunt, slipped over the top of the post, and, whirling rapidly through the air, caught Campbell under the chin. The rope encircled itself tightly about his neck, lifted the unfortunate man ten feet in the air, and then dropped him to the pier. His neck was broken and he was found to be dead when the horror stricken spectators ran to assist him.

Indians and Whites Fight. Salt Lake, Utah, July 23.—There is trouble again among the Uncompangre | the prevalence of heavy rain and thunnally placed his claim at \$709, which he East Indian Railway, owned by the gov- in large numbers and are slaughtering azine at the Empire mine, operated by d was made up of mileage. It ernment, had bought 7,708 tons of steel deer by the wholesale for the hides. Fifwas subsequently reduced to \$177, rails in the United States because the ty carcasses were found in one place and pany, was struck by lightning. The which Mr. Campbell says is entirely too American bid was £8,675 less than the numerous others are strewn all over the building was shattered, and the force of high, as he expended only about \$12 lowest English bid. That is more than force to capture and bring back to the the foundation of nearly every dwelling while serving the state on the committee. \$5, a ton less than the English were reservation the offenders. A band of in Wilkesbarre. He further declared that he had no part ready to offer steel rails for. It is a pity about twenty was encountered. It offerin making up the bill. Mr. Campbell is we have no official means of discovered ed resistance and in the fight an Indian stored in the building. No one was in one of the members who on the floor of ing whether the American bidders would others wounded. Authorite killed and the place at the time, but John Higgins,

Highest of all in Leavening Power .- Latest U.S. Gov't Report

# Baking Powder

Washington Letter.

Washington, July 23, 1897.—The enators who opposed the tariff bill be gan their kicking several weeks too late. Had they not allowed themselves to be tricked in the senate they might have had everything that they kicked too late for, and might even have succeeded in defeating the bill. When cotton ties, cotton bagging and burlaps were put on the free list, and the duty on white pine lumber was reduced to \$1, the trustbound senators did it merely to keep the opposition quiet and with no intention of allowing them to remain. Had the kicking deen done at that stage of the game it would have been easy to have secured pledges that would have insured those items being let alone in conference. To kick on the conference report could accomplish nothing, unless backed by votes enough to reject the report, because the report had to be accepted or rejected as a whole. The new tariff will do more for the Democrats thanjany idle kicking on the floor of the senate could do.

The fight against the confirmation of J. V. Powderly to be commissioner general of immigration has become so warm that Mr McKinley has requested Republican senators not to have a vote taken upon the nomination until the regular session of congress. The labor leaders who are fighting confirmation say they have pledges from a sufficient number of sena ors to make the rejection certain, if the vote were taken now, and Mr Mckinley regards rejection as so probable that he has promised to give the place to another man He wan s Powderly to nold it during the recess of congress, in payment of campaign ob-

Senator Tillman was a very mad man when Czar Reed made the house committee on rules refuse his request for a special order for the house to vote upon his dispensary bill, already pessed by the senate, at this session. Representative Elliot, of S. C., opposed the granting of

Senator Tillman's request. According to an expert business man, The following is the tax that will be paid to the sugar, tobacco, and leather trusts, on account of the new Republican tar-An average of 50 cents more for each pair of shoes: from 25 cents to \$1 more for every leather satchel or trunk; from 15 to 25 per cent advance in price belts, straps, harness and other leather goods. 1 2 to 1 cent a pound more for sugar, and a general advance in prices and detoriation in quality of all candies and preserves; an advance of 50 cents a box on imported cigars and a general lowering of quality in all grades of cigars and cigarettes

Some of Speaker Reed's admirers are very sore because they accepted that little fairy story about the house conferees standing out for a snear schedul that would operate against the trust, and played sugar stock to fall. Its tremendous use, which is now history, caught them for large amounts.

Although Senator Wolcott, Mr. Ste venson and Gen. Paine may not know it they are, unless all indications are at fault being used as tools by the single standard gold men. While they suppose themselves in Eupope for the purpose of making friends for international bimetallism it looks as though they were there merely to help the single standard gold men retain their grip on the United States. It will be remembered that these gentlemen were instructed before their departure for Europe that all their negotiations must be conducted through or in conjunction with the U S Ambassadors. Therein lies the whole plot. The U.S. Ambassadors to Great Britain, France and Germany are each as strong advocates of the single gold standard as Secretary Gage is. They had privately made known the situation in the U.S. to the governments to which they are accredited before the arrival of the sil ver commission-that unless the single gold standard countries came to the rescue the silver men would elect a majority of the next house, the senate already having a silver majority, and be in a position to pass a free coinage bill. Nothing more substantial was asked than that those governments should agree to the holding of an international conference next year, and now the announcement has been made that one will be held next fall. The date will be specially arranged so that the congressional elections will take place before it is known that the conference is a failure as it is certain to be. The conference is relied upon to keep those Republicans who believe in the possibility of international bimetalism in the party traces. It is quite a nice scheme, but its success depends upon the willingness of many voters to allow themselves to be hoodwinked into the belief that the international monetary conference will do something.

#### Coal Mine fight.

Pittsburg, Pa., July 26 -A desperate fight in a coal mine is one of the sensational scenes connected with an arrest made here last night. Constable George Schmatzineta returned from Unity with the notorious Primo Caleffi on a charge of attempting to commit a felony.

The accused is interpreter at the coal mines and a leader of an Italian colony. He was hiding in the mine. The constable saw Mrs. Caleffi taking her husband's supper into the mine and followed her. A fierce fight ensued by the light of a pit lamp.

While the men were struggling, Mrs. Cale fli attacked the constable with a pick and would have killed him had he not succeeded in knocking her down. Sehmatzineta also conquered Caleffi and got him out of the mine. The got him out of the mine. The succeeded in knocking her down. Sehmatzineta also conquered Caleffi and got him out of the mine. The succeeding the above appointment, I will sit at my office, Koem No. 6 A ma Hall, Johnstown, Pa., on WEDNESDAY. A UGUST 4 1897, at ten o'clock. A M. when and where all interested may attend if they see got him out of the mine. got him out of the mine. The prisoner would not walk and had to be hauled to the station.

Italians attempted to release the prisoner. The constable and the driver knocked them down with clubs as fast as they came up. The constable says Sam De Armitt, superintendent of the mine and brother of William De Armitt, now figuring prominently in the big coal strike, told Caleffi to resist arrest.

pointed to Frame a Plan For a Government Factory-One Shidbuilding

Firm Has Already Retused.

WASHINGTON, July 28 .- The armor producing companies having declined to furnish the navy department the armor needed for the three battleships now building at the price of \$300 per ton, fixed by congress, Secretary Long has taken the second step in the line marked out by congress and has called upon the ship building companies themselves to submit propositions for procuring and fitting the armor. One of them, the Union Iron Works of San Francisco, has already responded, declining, like the armor companies, the department's invitation.

There is httle doubt that the others will make a like answer, although there is a small chance that some of the shipbuilders may combine to secure the control of one of the plants which the armor makers profess their readiness to sell and turn out the armor they need for the ships in their hands. If, however, as is expected all the shipbuilders replies are unfavorable, Secretary Long will proceed one step further and ap-point a board of officers to carry out the direction of congress and frame plan for the establishment of a gov ernment armor plant.

LOWER THAN EVER BEFORE. The Drop In Silver Considered Due to Lack of Demand.

NEW YORK, July 28 .- Silver is lower than ever before. Until the decline of recent date the lowest prices were those of March 3 and 5, 1894, at the time of the closing of the Indian mints. The opening quotations yesterday were, bar silver 581; Mexican dollars, 45%, and the closing was 5814 and 4534 respect-The local dealers can assign no other

reason than lack of demand. There being no special orders of silver for any European country for mintage and India not being in the market, they regard the fall as natural.

BIG FACTORY BUILDINGS BURNED Eight Hundred Persons Thrown Out of Employment at Yonkers, N. Y.
