Labor Conference Demands Living Wages For Minets.

COURT INJUNCTIONS DENOUNCED.

Fovernors of the Different States Called Uppen to Guarantee to Min-rs the Highls of Free Assemblage and Free -peach-Those at the Meeting.

WEEELING, W. Va. July 28 .- The report of the special committee of five to newise ways and means to aid the moners has made its report to the conforence of labor leaders, has issued a monifesto to the country, which says : "We, the representatives of the trade unions and of all organized labor of the United States, in conference assembled to consider the pending struggle of the minors for wages sufficient to enable them to live and to enjoy at least some degree of the necessities of life are determined to forever put a stop to a state of starvation in which they are now engulfed.

"The deplorable condition of the minute is well known to all of our people. They live in hovels, unable to buy sufficient bread to ward off starvation, in many cases not sufficiently clothed to cover their nakedness, and their children unfit to to attend school h cause of lack of food and clothing, making them a danger to the future stability of our republic. We feel asured that all men and women who love their own families, or who have one spark of human sympathy for their fellows, cannot fail to give all the and in their power to enable the miners to win their present battle.

We denounce the issuance of injunctions by the judges of West Virgunua, Fennsylvania and other states as wholly unjustified, unwarranted and unprecidented, more especially in the absence of any exhibition or manife-tation of force on the part of the outraged miners. We call on the goverment of West Virginia and upon the governors of all other states and on all public officials for full and ample protection in the exercise of our rights of free speech and public assemblage. We have no desire to trespass upon the right- of anyone and we demand provection in the exercise of those rights nanded down to us by the founders of the republic. We recommend that inintration mussmeetings be held broughout the entire country to give expression to the condemnation of the unwarmanted injunctions interfering with the tree rights of free assemblage and free speech and we also extend evinpathy and support to the mine workers to the utmost extent.

"We nereby call upon each national and international organization of labor to soud r-presentatives to act for and by the american of the United Mine Workers as organizers in West Virginia, Pennsylvania and such other states as may be necessary. Fully imbued with the heroic struggle which be min 74 are making for pure womanhead and innocent childhood, for decency, for manhood, and for civil zation, and with the consciousness of the justice of their cause and of the responsibility of their actions, we call upon the workingmen of our country to lend all possible assistance to our suffering. s rugging fellow-workers of the mines. and to unite in defense of our homes, our rights, our citizenship and our
