The Willis brothers had been conversing in a low tone, sitting aport from the others in the guard room for about haif an hour, when Officer Whitham saw the visitor pass a revolver to his brother, and together they sprang towards Turnkey Darling, their intention evidently being to secure his keys. Whitham rushed to Darling's assistance, and as he did so the Willis brothers opened fire. One bullet struck Darling in the thigh.

WILL VISIT ARMOR WORKS

The Naval Board Extended Courtesies by Owners of Plants.

Washington, Aug. 11.-The naval armor board has been in session again in the ordnance bureau, devoting nearly all of the time to a study of the accunvolated information in the navy department bearing on the subject of their investigation. Of this there is a great store, including the great mass of data collected for the benefit of Secretary Herbert when he reported to congress upon the cost of producing armor and also the material collected in pursuance of the investigation into the defective armor supplied some years ago by one of the firms.

The board has arranged for a visit to Bethlehem and also to Carnegie's armor works. Bethlehem will be visited Monday morning. Just how long a stay will be made there has not yet been settled, but from there the board will go to Carnegie's place, near Pittsburg. Both of the armor makers have volunteered to admit the members of the board individually to the interior of their establishments and to fornish all proper information called for, which removes an expected obstacle to the in-

The business of chief importance will be to select 11 men to devote their time to the work mapped out for them to compose the commission. To them will be intrusted the responsibility of undertaking to devise some satisfactory and acceptable plan for revising, reforming and regulating the currency

at Louisville. Louisville, Ang. 11.-James G. Bailey of Magoffin county has been nominated for clerk of the court of appeals by the Republican state conven-

Contrary to the expectations of many, the convention was entirely harmonious in its work. There was an idea in some quarters that there would be a bitter fight between the Bradley and Hunter-Torid factions, but the generalship of the party leaders on and off the floor of the convention prevented the anticipated clash.

The state and national administrations were endorsed and civil service was opposed along the lines laid down by the re-ent Ohio Republican convention. In other words, according to the Kentucky Republican view, civil service is good enough in its way, but there are certain offices which should be removed from its control.

The convention was a quiet one, There was no enthusiasm to speak of, the only real applause coming when the speakers referred to civil service

A SUCCESSFUL INVASION.

Ohio Strikers Complete Closing of the Wheeling District Railroad Mines. WHEELING, Aug. 11 .- A small army of Ohio striking miners from Wheeling Creek, on the Cleveland, Lorain and Wheeling road, numbering 127, have visited the Boggs Run mines. The Boggs Run men got wind of the invasion, and only six or eight arrived to go to work. These were taken in hand by the visitors and persuaded to sign a paper to stay out. Later the other Roogs Run men were seen and agreed to join the strike. This makes the sus-

cension practically complete in the Wheeling district railroad mines. The strikers proceeded up town to the Belmont and Riverside mill mines and made a demonstration there. A committee representing the strikers and one representing the mill miners met. and it was decided that the question of these men joining the strike would be decided by President Ratchford, If this course is pursued it will throw thousands out of employment. The action of the Bellaire reddling banks in shutting down may be rescinded, as the Ohio strike leaders are not in favor

of shutting down the mill banks. The Wegee miners have decided to oin the strike. This mine and the Heatherington mines supply steamboats with fuel. A scarcity of fuel for the boats is now at hand.

The Strikers Held a Big Meeting at Irwin, Pa., Today.

PITTSBURG, Aug. 11.-It is stated that the coal operators are becoming restless ov r the preracted strike and contemplate importing men. It has been repeatedly announced

that the New York and Cleveland Gas Coal company is determined to operate its mines, if p ss ble. If the old men cannot be induced to continue at work it is reported that new men will be employed to take their places in the mines. Mr. DeArmit has refused to say anything on this subject, but has always contended that his old men would resume work if the strikers were withdrawn from around the mines. Other operators, it is known, have been quiety at work trying to secure new men, ut nothing definite regarding their plans could be learned.

The striking miners encamped at Plum Creek claim that a large desertion as taken place from the DeArmit mines, and that the working force in the pit is too small to dig coal enough to supply the waterworks of the city of Pittsburg at Brilliant. The strikers have been pred cting that the diggers would join their ranks as soon as they were paid, and they are disappointed because the men did not quit in a body. The first entrance into Westmoreland county has been made and there was a meeting at Irwin today at 2 p. m., at

which Dolan, Garland, Carrick and others spoke. ASSASSIN'S FATHER MOURNS.

Subsequently he became a compositor. In April, 1896, he was sentenced to 18 months' imprisonment for disseminating anarchist propaganda, but after serving a part of the term he escaped to Spain. He comes of an honest family. His father, who is a tailor, is

grief stricken by the crime of the son. The body of the late premier hes on bed in the apartments which he occupied at Santa Agueda.
