

**Unions Matters.**  
**A Prophecy Fulfilled.**—The great New England... Daniel Webster, in a speech delivered in the United States Senate on March 24, 1850, made the following remarkable prediction, which has been fulfilled to the very letter: "If the infernal fanatics and Abolitionists ever get power in their hands they will override the Constitution, set the Supreme Court at defiance, change and make laws to suit themselves, by violent hands on those who differ with them in their opinions, or dare question their infallibility, and finally bankrupt the country and deluge it with blood."

**The word "Copperhead"** has almost dropped out of use now, except with a few malignant political fanatics. With them it formerly meant an opponent of the Government. They use the word with the old virulence now, as meaning a supporter of the Government.

**Geary and the Soldiers.**—A letter from Liverpool to the editor of the Perry County Democrat says: "We have brave soldiers in this region, some of whom served under Geary, who denounce him and would not touch him with a ten-foot pole, notwithstanding their former Republican proclivities."

**A Modest Officer.**—The Postmaster at Columbus, Ohio, anxious to keep out of party strife, declares that he has been too busy to read either of the Presidential votes, and therefore can express no opinion upon them. Discreet officer! He knows that in this case "ignorance is bliss."—Philadelphia Public Ledger.

**In the Jardin des Plantes, Paris,** in an iron cage have been placed a young lion, an American wild boar, and a little dog. This last is quite the master, the lioness generally amusing herself with tugging the boar. When, however, the lion goes too far, the dog interferes and re-establishes order.

**Shoeing Horses.**—A new method of shoeing horses has been on trial in Paris for a year or more past. By it the hoof is but little out of the shoe, the light, the foot rests upon the ground and is allowed to expand naturally, while the horse never slips. It has been tried successfully on the omnibus horses.

**A young soldier,** with respectable connections, named Alexander Webb, shot himself through the heart, on Wednesday, at Baltimore, alleging as a cause that he could get nothing to do, and failed to see his mother in want.

**Babies resemble wheat.** First, neither are good for much till they arrive at maturity; second, both are bred in the house, and are also the flower of the family; third, both have to be cultivated; fourth, both have to be thrashed before they are done.

**TAKE NOTICE.**  
FARMERS AND DEALERS IN FERTILIZERS will please take notice that we have adopted the following Trade Mark to protect ourselves, and prevent those who use our RAW BONE SUPER PHOSPHATE from being deceived when purchasing manures.

We have been obliged to give this protection to our customers, in consequence of several parties having unlawfully used our distinctive name, and by so doing, offering their articles to the public. This Trade Mark is adopted in addition to the title "Raw Bone," which is our exclusive property, and we caution all manufacturers from using it in future. We would state to our trade and consumers, that they are now ready to supply it in large quantities—having made recent additions and improvements. Vessels drawing 16 feet of water can load directly from the wharves of the works, which are located at the foot of Morris Street, Delaware Avenue, Philadelphia.

**BAUGH'S**  
Super Phosphate of Lime,  
Manufactured by BAUGH & SONS,  
No. 20 South Delaware Avenue,  
PHILADELPHIA.

The great popularity of our article has been found sufficient inducement to certain imitators to manufacture and advertise "Raw Bone Phosphates," a name which originated with us, and is our own right property. We will state for the information of all, that we are the exclusive manufacturers of this article—the original and sole proprietors of it—having been manufactured by us for a period of twelve years. Also that it is covered by several patents held only by ourselves. It is now ready to supply it in large quantities—having made recent additions and improvements. Vessels drawing 16 feet of water can load directly from the wharves of the works, which are located at the foot of Morris Street, Delaware Avenue, Philadelphia.
