MOWERS & BEAPERS.

THE undersigned is still Agent for the sale of MOWING AND REAPING MACHINES -both combined and single Mowers.

These machines can be used as Self-Rakers or Hand Bakers, as farmers may wish. They are made with two cutter bars, one for cutting grain with sickle krife—cutting five feet nine inches wide—and extra bar, with two knives, for grass,-cutting four feet six inches wide. having iron or wooden frames as desired. They have two driving wheels and flexible fin-

ger bar.
The company building these machines have secured by lease and purchase, the control of all the desirable and standard patents now in use, among which are the ;
OHIO AND BUCKEYE PATENTS.

to which we direct special attention. In compactness, lightness of draft, excellence of work-manship and finish, combined with great strength and adaptation to all kinds of work, they will compete with, and we believe, surpass, any other machine now offered to the public.

Farmers would do well to examine these

machines before purchasing any other. They will be sold as cheap a pay other first class machine now manufactured, and we warrant them to give entire satisfiction or no sale.

Extras always kept on hand. Specimen machines can be seen by calling on the Agent, residing on the Harrisburg road, two miles north-east of Gettysburg.
WILLIAM WIBLE, Agent. April 23, 1866.

GEO. F. KALBFLEISCH. April 23, 1866.

Reduction in Price AMERICAN WATCHES,

MADE AT WALTHAM, MASS, In consequence of the recent great decline n gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can

be placed WITH GOLD AT PAR, so that no one need hesitate to buy a watch now from the expectation that it will be cheapr at some future time. The test of ten years and the manufacture and sale of

MORE THAN 200,000 WATCHES, have given our productions the very highest ank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings until they now cover over three acres of ground and give accommodation to more than eight

hundred workmen. We are fully justified in stating that we now make MORE THAN ONE HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES The different grades are distinguished by the

following frade marks engraved on the plate: 2. "Appleton, Tracy, & Co.," " 3. "P. S. Bartlett," 4. "Wm. Ellery."

5. OUR LADIES' WATCH of first quality vors to a firm which is making every effort to is named "Appleton, Tracy & Co." Waltham, accommodate them in the best manner possible. Mass. 7. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These

watches are furnished in a great variety of sizes and styles of cases. The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade marks or price, ALL THE PRODUCTS OF THEIR FACTORY

ARE FULLY WARRANTED to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham, are for sale by dealers generally throughout the country, we de not solicit orders for single watches. CAUTION.—The public are cautioned to buy

ing counterfeits will be prosecuted. ROBBINS & APPLETON. Agents for the American Watch Company, 182 Broadway, N. Y.

THE HUBBARD.

THE undersigned are agents for the sale of Hubbard's celebrated Mowers and Reapboth combined and single Mowers and Self-Rakers. Farmers would do well to examine our specimen machines before purchas-ing any other. We warrant satisfaction or no sale. The advantages of the Hubbard as a loseph fillesple to light draft, great strength, James Grimes, Mower, are its light draft, great strength, simplicity and durability, freedom from all side draft, no weight on the horses' necks, and is easy work for two small horses. The main features and advantages of the Hubbar d as a Mower are retained in the Resper, and can be changed from a Mower to a Resper by changing three bolts and two shoe pins. The ra-ker, with one easy natural motion, brings the grain towards him and deposits it in a compact sheaf in the rear of the machine, leaving ample room for the machine to pass next time around. The Self-Rake has no equal; it is a reel and a rake combined. The driver by use of a lever regulates the size of the bundle, and it can be worked in all kinds of grain from the shortest oats to the tallest rye; is very simple in construction, and less liable to get out of repair than any other Rake. They are made with two cutter bars, one for cutting grain with G sickle knife, cutting five feet nine inches wide, and an extra bar, with two knives, for grass, cutways kept on hand. Specimen machines can be seen by calling on the agents, residing near Galden's Station. Post office address, Granite Hill, Pa.
