The transfer cannot be made, for several reasons; first, because Phillips wouldn't suit the company, and the company would therefore kick him out if he tried to get in; secondly, he does suit where he is, and would please nobody by leaving; and, thirdly, the Republican party would be deprived of its most far-reaching leader,

### THE DESPRÉNCHISEMENT ACT.

In speaking of the recent decision of Repository (radical Republican) says:

It would, remarks a cotemporary, be strange, indeed, if. when the Supreme Court has decided that the vote of a citizen whose name appears on the list of a provost marshal as a "deserter," cannot lawfully be rejected by an election board, that the same act of the Legislature—thus practically set aside—could be used to punish an election officer for receiving or a citizen for offering such vote. It being decided that every citizen qualified under the election laws shall be allowed to vote, notwithstanding that his name appears on a list of deserters or non-reporting conscripts, it is sufficiently evident that the penalty clause of the act-being a mere corrollary falls with the fall of the disfranchising clause. There being no crime in voting and none in receiving the vote, there can of course be no penalty. It needs no further action of the Supreme Court to establish this fact.
