# Barron's Safety Lamps,

LIG-RO-INE (Red) FLUID. THIS Lamp apparently burns without day-thing to feed it. It has, however, a ma-terial which absorbs the liquid and gives it to

the fiame, partly from the wick, and partly in the form of gas, but seas to produce perfect combustion, and is very economical and safe. It is used without a chimney, and perfectly trimmed, does not smoke or smell; it is therefore especially adapted to the purposes of a "run about," night, nurse, shop or hotel lamp, or lantern. The cost of broken chimneys,

alone, will more than pay the cost of this lamp. Every family needs one or more. "It is just what I have been long looking for," writes a model house-keeper.

"I should hardly know how to do without it," writes another. "A perfect contrivance," writes a third.

"Let those who are skeptical try it," writes fourth. JOHN M. SWAN. For sale by

Having been employed very extensively since its introduction and feeling satisfied o its remedial properties, we recommend it with the ntmost confidence, knowing that no one will be disappointed in its use. It is, as its name implies, a white liniment of the consistency of cream, containing nothing offensive but, on the contrary, will be found more pleasant than otherwise.

## Bell's Alterative,

OR CONDITION POWDERS! FOR HORSES, CATTLE & SWINE. 25 cents & paper, or five papers for \$1. The immense sale of these Powders during the short period they have been before the public, is a sufficient guarantee of their great popularity, and the decided benefits derived rom their use.

They are confidently recommended not only as a preventive, but as a complete cure for all diseases incident to the HORSE, COW or HOG, as Loss of Appetite, Coughs, Heaves, Yellow Water, Distemper, Glanders, &c., &c. By their use the Horse's Appetite is improv-ed, all derangements of the digestire organs corrected, softening the skin, and giving to the cost a sleek and shining appearance, and may be used with perfect safety at all times, as it contains no ingredients which can injure

a horse, whether sick or well. They cleanse the breathing apparatus by ejecting from the air cells coagulated matter, or that formation which so severely clogs them, causing a tightness in brea hing, and by their peculiar action on that part, they cause the muchs membrane to resume its natural dimensions, thus equalizing the circulation of
