Reasons Why The MERICAN WATCH, MADE AT WALTHAM, MASS. IS THE BEST.

It is made on the best principle. Its frame is composed of SULID PLATES. NO jar'can interfere with the harmony of its working and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness) and is therefore properly made. The watch is what all mechanism should be-ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches ere composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancres," "lepines" and "English Patent Legers," are perfectly well awars of the truth of this statement.

At the beginning of our enterprise, more than ten years ago, it was our first object. to make a thoroughly good low-priced watch for the million, to take the place of these foreign impositions -the refuse of foreign actorieswhich were entirely unsaleable at home and perfectly worthless everywhere.

How well we have accomplished this may be understood from the fact, that after so many years of public trial, we now mike MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequalled by anything hitherto made by ourselves, and unsurpassed by anything made in the likewise. world. For this purpose we have the amplest facilities. We have erected an addition to our main buildings expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are paed, and we challengacompurison between this grade of our work and the finest imported chronometers. We do not | 'em all. pretend to sell our watches for less money than foreign watches, but we do assert without fear of contradiction that for the same morning our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the

THE GREAT ZINGARI BITTERS.

THIS WONDERFUL REMEDY was discovered about twenty years ago by D. S. Cheopsus, an eminent Rgyptian physician.

physcian. ile had long seen and felt the want of some remedy which would strike at the root of dis-ease, and so prevent much of the suffering which the human family was then compelled to

endure.

The great question was presented to his mind every day in vivid colors as he moved a-mong the sick and dying, and observed the in-efficiency of nearl all the remedies then in use. Thus he was lead to think and experiment; and after ten years of study and labor, he presented to his fellow man the wonderful Zingari Bitters. The effect of this preparation in the prevention and cure of this preparation in the prevention and cure of disease, was so marvellous and astonishing, that the most flattering marks of royal favor were bestowed upon him who discovered it. It is also invaluable for Bruises, Frosted Feet, Swelled Joints, Bitos of Poisonous Insects, &c., and a prompt and sure remedy for Cramp Cholic and all Pains in the Stomach and Bowels.

The preparation and cure of disease, was so marvellous and assonishing, that the most flattering marks of royal favor were bestowed upon him who discovered it. His name was placed upon the Roll of Nobles, and a gold media with the following inscription—Dr. S. Cheopsus, the Public Benefactor—was presented to him by the Viceroy.

The preparation has been used in several epidemics of cholera, both as a preventive and

curative measure, and with such great success that it has been introduced into nearly all the general hospitals of the old world.

The old saying that an ounce of preventions worth a pound of cure, applies with many remedy that will protect us against this terrible disease should be freely and persistently

All pathologists now agree that the cholera poison acts on the system through the blood, and that any combination which acts on the excretory organs, and keeps them in working order, must prevent a sufficient accumuing order, must prevent a summer accumulation of the poison to exert its terrible effects on the organism. This is true not only of cholera, but of nearly all other maladies, espe-

cially the different forms of fevers.

The Zingari Bitters is just such a remedy as the above conditions require. It acts on the organs of excretion and secretion, keeping up a perfect balance between them. This Bitters is composed entirely of roots and herbs, so nicely concocted that every organ is acted upon and put in tone. Its taste is pleasant and its effects prompt and lesting. and its effects prompt and lasting. and its effects prompt and lasting.

Numerous cases of the following diseases have been cured by it: Cholera, Diarrhoea, Typhoid and Typhus Fever, Fever, Ague, Nervous Debility, Anaemia, Female Irregularies,
