THE ROSE FARM

AT PUBLIC SALE.—On SATURDAY, the 18th day of AUGUST, 1866, at 1 o'clock, P. M., the undersigned will offer at Public Sale, on the premises, the celebrated "Rose Farm," located 2 miles south-west of Gettysburg, on the Emmitsburg road, containing in all 236 ACRES, more or less, on which are erected a large Two-story STONE HOUSE, with Stone Kitchen attached, Stone Bank Barn, Wagon Shed, Hog House, Spring House, near the dwelling with an excellent Spring, and other improvements. There is a great variety of all kinds of fruit on the premises—two Peach Orchards in their prime, with Apples, Pears, Cherries and Plums in abundance. There are a number of fine Springs of never-failing water on the Farm, supplying almost every field with water. The land is in a high state of cultivation, having been recently heavily limed and manured.

The property consists of two tracts adjoining each other. That on which the buildings are erected contains 186 acres, with about 70 acres of fine Woodland, and lies east of the Emmitsburg road. The other tract contains 50 acres, and lies west of the Emmitsburg road, and all in good farming condition.—They will be sold separately or together, to suit purchasers.

This is one of the most desirable properties in the county, being convenient to markets, Mills, Churches, Schools, &c. Its fine location, with its Springs and Groves, would make a most desirable site for a summer resort, or a boarding house for parties during the Summer. It is located near to Round Top, and on that part of the Battle-field where the fiercest of the conflict raged, giving it a historic interest which may be of great value to the owner.

It will be sold on easy terms and the attention of capitalists is directed to it, as we believe it to be a rare chance for those wishing to invest. For further particulars call upon the undersigned, residing thereon, or address him by letter at Gettysburg, Pa.

The Great Bone Fertilizer.

BAUGH'S RAW BONE PHOSPHATE, containing 53 per cent. of Phosphate of Lime, and 5.05 per cent. Ammonia.

It should be borne in mind that the Phosphate of Lime in this article being obtained exclusively from RAW BONES and a TRUE BIRD GUANO, there is NO PORTION of it INOPERATIVE, as in the case of SUPER PHOSPHATES made from MINERAL GUANOS—out being entirely SOLUBLE in the SOIL, continues to IMPART its FERTILIZING qualities to the CROPS for YEARS.

The REMARKABLE SUCCESS which has attended its use for years past, is a sufficient, GUARANTY to induce those who have not tried it to do so.

The GRAIN CROP where this FERTILIZER has been applied is supposed to have been INCREASED from 25 to 50 per cent. by its use, while for TOBACCO and GRASS LANDS its success has been EQUALLY DECIDED.
