CONGRESS.

The Democratic Conferees of this Con-gressional district met at Mellvain's, in isture. Fulton county, on Thursday last. - Hon. J. McDowell Sharpe, of Chambersburg, was nominated on the 26th ballot, Franklin, Fulton and Adams going for him .-We preferred the nomination of Mr. McSherry, but will give Mr. Sharpe a cheerful support-and so will the Democracy of Adams. Though received at a late hour, the proceedings of the Confer-Znce will be found in another column.

THE PHILADELPHIA CONVENTION.

We could fill column upon column of our paper with the preparations for the great Philadelphia Convention, to commence to-morrow, (the 14th of August.) In every State the best men have been pelected as delegates, and the Convention promises to be the most important reprecontative body that ever assembled in the United States. The Radicals are howling at it because 'it presages their doom, but the masses of the people are looking forward to its deliberations with the most profound interest. We do not believe that they will be disappointed. A Convention embracing all the States, its voice will be for the whole Union—one and undivided—and as such will ²bc heard and headed by the people.

THE PROSPECT.

Everywhere throughout the State the Democracy are rapidly perfecting their organization, and from every quarter we hear the most cheering news. The conservative men of Pennsylvania have 'resolved that there shall be an end of the rule of radicalism and fanaticisn, and to effect that most desirable result they are combining, irrespective of past party ties, Hundreds and thousands of honest voters who have heretofers stood opposed to the Democratic party will refuse to support Geary because they cannot :endorse the platform on which he stands and the principles which he professes. He is known and recognized by all intolligent voters as the pliant tool of Thaddeus Stevens, Simon Cameron and

"THE BOYS IN BLUE."

The grand demonstration of the "boys In blue" at Harrisburg has struck torror to the hearts of the Geary disunionists. It is the handwriting on the wall which portends their utter and overwhelming defeat in October. Before the Convention met they undertook to ridicule it. but since it has proved a magnificent success they have no other resort than hard Juing to counteract its influence on the people. The Harrisburg Telegraph, we should judge, has been employed by its party to lie by contract, and for pay. That any editor, however depraved, would do the wholesale lying of the Telegraph merely for the fun of the thing, is hardly a supposable case. The work, however, has not been well performed by the Telegraph-its lies have been gotten up in a bungling manner for an adept in the business. For instance, it characterizes the Convention as a "failure," a "fizzle" &c.; and then calls for a mass meeting of Geary soldiers to "countenaot the influence" of this "fizzle." If the Clymer Convention was a "fizzle," where is the necessity of counteracting its influence? A "fizzle" could hardly be said to have any influence to counter-
