CHOLERA PREVENTIVE:

X. 1466. L. THE GREAT ZINGARI BITTERS.
THIS WONDERFUL REMEDY was discovered and introduced at the control of ered and introduced about twenty years

ago by Dr. S. Cheopsus, an emineut Egyptian physician, He had long seen and felt the want of some remedy which would strike at the root of disease, and so prevent much of the suffering which the human family was then compelled to endare.

endire.

The great question was presented to his min i every day in vivid colors as he moved among the sick and dying, and observed the finefficiency of nearly all the remedies then it use. Thus he was lead to think and experi BOOTS AND SHOES.

SHOES FOR LADIES.—Good, cheap and neat.

SHOES FOR CHILDREN.—The best assortment in town.

GAITERS OF EVERY STYLE.—For Ladies,

Gents and Children.

Gents and Children. Cheopsus, the Public Benefactor—was presented to him by the Viceroy.

The preparation has been used in wever epidemics of cholera, both as a preventive and

curative measure, and with such great success that it has been introduced into nearly all the general hospitals of the old world.

All pathologists now agree that the cholera poison acts on the system through the blood, and that any combination which acts on the excretory organs, and keeps them in work-ing order, must prevent a sufficient accumu-lation of the poison to exert its terrible effects

the above conditions require. It acts on the organs of exerction and secretion, keeping up a perfect balance between them. This Bitters is composed entirely of roots and herbs, so nicely concocted that every organ is acted upon and put in toffe. Its taste is pleasant and its effects prompt and lasting.

Numerous cases of the following diseases have been cured by it: Cholern; Diarrhoen, Typhoil and Typhus Fever, Fever, Agud, Nervous Debility, Annenila, Female fregularties, Dyspepsia, Flatalency, Colic, Strofuin, &c.
