received from your Pulmonic Syrup and Sea-weed Tonic in so short a time. By the bless-ling of God it has cured me thus far. Dr. Schenck, I will now make my statement to you as follows: About eighteen mouths ago I was attacked with a severe cough, an ! it seit ed on my lungs; I could not ictain anyand night awerts. I was very much reduced. The whites of my eyes were very yellow; like-wise my skin; my appetite all gone, and in-able to digest what I did eat; bowels swollen, irregular and costive. I was very low spirited, and had such violent spells of conghing when I laid down at right and when I arose in

the morning that they would last one or two

I then would be nearly exhausted, and was entirely unable to lie on my left side. I can-not describe my wretched suffering as I would not describe my wretched suffering as I would wish to do. Every organ in my body was diseased or deranged. Such was my situation set this time, and I was confined to my hed from the last of February, 1862, to June 1862, not while to set up. I had the best midical attendance the whole of the time. My cough was so very had that it racked me very much. If at this time raised a large quantity of thick, yellow, offensive matter, sometimes with blood, and it was generally accompanied by nausea and a furred and thick coated tongue. At the sime of coughing so badly I would have sharp, shooting pains in my left side and heart, night sweats, and soreness all through my whole chest; had much inward fever, pin in my lack and under my shoulder ladder and in the small of my back, and at times so revere that it would throw me into spasms. Now my physician gave me up to die. Others I had, and the best of them, but they could do nothing for me, and at that time I was nothing but skin and bones. I then was is the western part of Vissouri. In June last we left there for the East, and in August lest, we came to New York, and I was so reduced that I could only walk a little with my husban is help. After I had been liere a short time the salt water breeze made me feel much better for a time and then I had again to cent a physician for nid. We had four of the best physicipus of New York on the diseases of the langs, and doctors of all kinds, but of no asaid. They said I was past core, and that my lungs were of Phosphates, or hone Meal. Having sold a too for gone for any one to core me. But ht in number of these machines last season, I can and the consumption diarrhee est in and lasted about eight weeks. We had tried all and everything that I could grasp of like a dying person for my discuss.

consumption and liver complaint-but of no In January, 1863, I was frought down again on my bed, and was not expected to live the night out. My husband stayed at my side, and other friends, and they all gave me up to die. At this time every one who saw me did not think I would ever leave my bed a living The first night I was attacked with spasms, and was deranged most of the time.— A friend, Mrs. Harris, came to see me the last of the week, and brought the Sunday Mercury. In it was an account of a great care perform-and by Dr. Schenck. She read it to me, and it and it was shares can be sharened in the many warks wind. The steel is perfectly in the was so much like my disease that I asked my husband to go and see him for me. At this time I had given up all hopes of ever getting well again, and made my peace with God, to be ready whenever he called for me.

For side by Wil. WIBLE, Agent, Aug. 27, 4800. Near Get ystorg, Pa. On the 27th of January 1863, my husband alled on Dr. Schenck, 32 Boud street, New York, and stated to him my case, with a request for him to call and see me, which he did, and examined me with the respirometer.— When he was about to go I asked him if he confd cure me? His reply was: "I cannot tell, both lungs are diseased, and the bronchial tubes are affected on both sides." And yet be seemed to think that there were lungs enough lett to effect a cure if the diarrhea could be stopped. He said in order to do this, he would h we to give me Mandrake Pills in small Joses at first, to carry off the morbid matter, and then, with astringents, he hoped to check it which he dod, but the constant coughing, night sweats, and diarrheen had prostrated me so that be was afraid my vital powers were too much prostrated ever to rally, and yet he seemed to think it I could live to get enough Pulmonic Syrup through my system to cause expectoration there were lungs enough left for me to recover. He wished me to try the Pulmonic Syrup and Seaweed Tonic at once, saying it would do me no harm, if it did me no good. The first week it seemed to give me strength so that an Sunday after I sat up in bed and ate hearty for a sick woman, but the next week I lost all hope and wished my hisband not to give me any more medicine. But the doctor had warned him of this, and when the medicine was clearing out the system it made me feel somewhat restless, and to persevere; and he insisted on my taking it: and now I feel the benefit of it. For after eight days I began to gain my strength, and, with the exception of a cold that put me back some, I have been gaining strength of body, my cough is going away,

At the foot of the hill, near the old re! mill, In a quiet, shady spot, Just peeping through, half hid from view, Stands a little moss-grown cot; And straying through at the open door, The sunbeams play on the sanded floor. The easy chair, all patched with care,

Is placed by the old hearth-stone; With a witching grace, in the old fire-place. The evergreens are strewn,
And pictures hang on the whitehed wall, And the old clock ticks in the cottage hall. More lovely still, on the window sill,

The dew-eyed flowers rest; While mid the leaves, on the moss-grown caves, The martin builds her nest, And adday long the summer breeze Is whispering low to the bending trees.
