DEAD WHAT DR. SCHENCK IS DOING. DR. J. H. SOMENCK-

DEAR SIA: I feel it & duty I owe to you, and to all who are suffering under the discuses known as Consumption and Liver Complaint,

to let them know what great benefits I have received from your Pulmonic Syrup and Seaweed Tonic in so short a time. By the bless-ing of Gol it has cured me thus far. Dr. Schenck, I will now make my statement

to you as follows: About cighteen months ago I was attacked with a severe cough, and west side, a few doors from the Public Square Getrysburg, his Lid in an excellent assort-ment of Shoes, Gairers. &c., for MEN, WOMEN AND CHILDREN, it sett.ed on my lungs; I could not retain any-thing I ate, and suffered with evening fevers and night swe its. I was very much reduced. The whiles of my eyes were very yellow ; likewise my akin ; my appet to all gone, and an-able to ligent what I did eat ; howels swallen, irregular and costive. I was very low spirited, and hid such violent spells of coughing when I laid down at night and when I arose in in Surpring that they would last one or two

I then would be nearly exhausted, and was entirely un the to lie on my left side. I cannot describe my wretched suffering as I would wish to do. Every organ in my body was discoved or deranged. Such was my situation at this time, and I was confined to my bed at this time, and I was confined to my bed from the last of February, 1802, to June, 1802, not able to sit up. I had the best medical attendance the whole of the time. My cough was so very bad that it racked me very much. I at this time raised a large quantity of thick, yellow, offensize matter, sometimes with blood, and it was generally accoupting by numes, and a furred and thick coated tongue. At the time of coughing so badly, I would have sharp. shooting pains in my left side and heart, night sweats, and soreness all through my whole chest; had much inward fever, pain in my lack and under my shoulder blades and in the small of my brock, and at times as severe that it would throw me into spasms. Now my physician gave me up to die. Others I hal, and the best of them, but they could do noth-ing for me, and at that time I was nothing

but skift and hones. I then was not intered to was not intered to the the skift and hones. I then was in the was the rest of the start of the source of the I could only walk a little with my husband's help. After I had been here a short time the bushel and a half unbround. THOSE SPARKLING EYES. I loved a mold whom oft I see; Her love, alds, is not for me; but what I never can despise, Are just those eyes, those sparkling eyes.

Her beauty I extelled in rhyme: "Alas," she said, "'tis all lost time;" But what I still as beauty prize, Are just those eyes, those sparkling eyes. Just here I see that pretty dove, But when I try to win her love, Away she hies, away she hies, With both those eyes, those sparkling eyes.

I think I'll try heronice again, But if she will not love me then, Fill let her seek what flirt most tries, To delfy her sparkling eyes. Is virtug not a better mark, of bliss a brighter spark, Then what she has, who daily criss, That she has eyes, yes, sparkling eyes.
