AN OLD FARMER.

To KEEP THE FRET DRY .- The following recipe for keeping the feet dry and preserving leather is highly recommended by those who have used it :-"It consists of four articles-tallow, soap, rosin, and water. These ingredients are preparel as follows: Twenty-one parts of tallow are melted in a vessel, three parts of rosin added, and the two, when melted, mixed well together; in another vessel, seven parts of good washing soap are dissolved in seventy parts of pure rain water. After it is dissolved, and the mass heated to a boiling point, we add the part prepared before; let it boil once inore gently, and the preparation is ready for u.o. It is especially adapted to boots, harness and leather gilding."

CREAM IN COLD WEATHER.—For some a crisis arise, in the opinion of such men reason not yet known, cream skimmed as Butler, and Stovers, and Summer, and the other revolutionists in Congress, to butter, when churned, so quickly as that from the same cow in warm weather.
