

JURY BILL.

There is before the House at Harrisburg, a new Jury bill, providing for the election of two Jury Commissioners...

On Wednesday, the Radicals of the House voted against taking the jurors from the white portion of the population...

TOWNSHIP ELECTIONS.

The usual spring elections will take place on Friday, the 15th of March. Very much depends upon the election of the right kind men to fill the responsible positions of election officers.

THE TIMES.

Within the past ten days business has somewhat revived. The prospect of a defeat or suspension of the impeachment scheme gives more confidence to capitalists...

The masses are beginning to fully appreciate the effect of the Radical schemes, and instead of applauding the most extreme sentiments, as heretofore, a vast majority strongly incline to a conservative course.

Sherman's reconstruction bill has passed both Houses of Congress, and is now in the hands of the President. Not having been passed ten days before the end of the session, it will fail if the President merely retains it.

The U. S. Senate has rejected the nominations of Hon. A. H. Croft, as Revenue Assessor, and Col. R. C. Swipe, as Revenue Collector, for this District.

W. R. Fish, a member of the Convention, had been Secretary of the "Southern Rights Association," a secession society organized during the Confederation.

Gen. Swift, Gen. Couch, Gen. Pratt, Gen. Egan, Gen. Curtis, Col. Moe, Col. Langdon, Col. Wells, Col. Hunter, Col. Grierson, Col. Cummings, Col. Tally, and Col. Parkhurst—all brave officers of the Federal army—are among the scores of soldiers who have been rejected by the stump Senate as civil appointees of the President.

The Radicals oppose the setting apart of Railroad cars for the special accommodation of negroes. As such an arrangement would add greatly to the convenience and comfort of the negroes, we presume the Radicals object to it only because it would cut them off from the enjoyment of negro society when traveling.

A bill has passed the State Senate incorporating a new railroad company, called the South Mountain and Caledonia Railroad Company.

The impeachment of President Johnson is about given over by the Monarchs in Congress. We thought they were too cowardly to do a thing of the kind. They heard the muttering of a storm which they did not dare to argue, and have abandoned their scheme, not from principle but from cowardice.

The Wabash River is reported to be higher than ever known before. On the Illinois side the flood has almost reached the tops of the houses, and it is reported that steamboats are running over portions of the prairie.

THE NEW ORLEANS RIOT.

The plain and unvarnished report of Mr. Boyer, one of the committee sent to New Orleans to investigate the riot which occurred there some months ago, cannot fail to defeat the purpose of the majority of the committee to turn it merely to party account.

On Wednesday, the Radicals of the House voted against taking the jurors from the white portion of the population alone, and thus squarely expressed themselves in favor of placing THE NEGRO IN THE JURY BOX!

Mr. Boyer clearly shows that the riot was commenced by the negroes. Organized in gangs, and armed, they marched to the convention, cheering and yelling. The sight of a white policeman, albeit perfectly quiet, was enough for them, and without cause or provocation the riot began by a negro shooting a white man.

Are you sure that the shot you saw fired by the negro was the first shot fired in the immediate neighborhood of the Mechanics' Institute?

Do you know of any other facts connected with the proceedings of the 30th of July?

In the middle of the conflict I came out of the institute building and went through the streets without being molested in any way. Right at the door I saw several negroes, five or six; they were standing just inside of the building, and they held in their hands revolvers.

White blood revolved, as it does every where, at seeing negroes murdering white men, and a bloody riot ensued; and the negroes were, as they always under similar circumstances will be, the chief victims.

The character of the "loyal" leaders in New Orleans, who are now so high in favor with the Radicals at Washington, is thus truthfully summed up by Mr. Boyer. It is calculated to furnish food for reflection to all honest but misguided Republicans.

Judge Howell, the ostensible leader of the Conventionists, being the President of the Convention, had been a Confederate officer-holder and as such had taken the oath of allegiance to the rebel government. The exact phraseology of which will be found on page 35 of the testimony.

Ex-Governor Michael Hahn, prominent leader and orator of the Conventionists, had also been, in the early days of the rebellion, a Confederate officer-holder, and had taken a similar oath of allegiance. He had also officiated as orator in presenting Confederate flags to rebel regiments when about to march against the Union army.

Rufus King Cutler, perhaps the most influential of the leaders, had distinguished himself in equipping, at his own expense, a rebel company, known in the Confederate army as the "King Cutler Guards."

W. R. Fish, a member of the Convention, had been Secretary of the "Southern Rights Association," a secession society organized during the Confederation.

William Henry Walters, another member of the Convention, raised a rebel company and commanded it himself.

R. F. Danno, Assistant Sergeant-at-Arms in the Convention, and candidate for delegate, voted for the rebel army, and had paid money to thugs to knock down voters and drive them from the polls. He had also been a thug himself; had knocked down a judge in the street, and was expelled from court.

These men were all prominent among the conventionists. They were political adventurers, known to have favored the Confederacy when it seemed strong, and deserted it when it became weak. Others of less note, who had like them, been rebels when rebellion seemed to prosper, were active in the Convention movement.

Discharged Their Duty.—The Joint Committee appointed to investigate the charges of corruption and bribery in the late Senatorial election, report that they found nothing. As that is just what they were appointed to find, it may be said that they have fully discharged their duty, and are entitled to be discharged from further consideration of the subject.

VARIOUS MATTERS.

They have given pens in Florida. Spratt has arrived at Washington. A Chicago thief was captured in Germany. A long race.

Mr. Gen. Sickles died in New York a few weeks ago. The Marquis of Westminster in England has an income of \$4,000,000 per annum.

Both branches of the bogus Tennessee Legislature have passed the bill allowing negroes to vote.

J. H. Rice, Democrat, has been elected Supervisor at Highampton, N. Y., by five majorities—a gain of 200 since the fall election.

The Rads of the "West Virginia" Legislature have transferred the capital of that bogus State from Wheeling to Morgantown.

Miss Mary Harris, who shot E. J. Burroughs, the Treasury clerk, two years ago, has been sent to the Washington insane asylum.

Both Houses of the Pennsylvania Legislature have passed the joint resolution ratifying the constitutional amendment by a party vote.

Sanford Conover, indicted for perjury, has been found guilty. He was one of the witnesses in the trial of the assassination conspirators.

In Holyoke (Massachusetts) schools they punish refractory pupils by putting cayenne pepper into their mouths. So says the New York Evening Gazette.

In Washington county, Tenn., twenty miles northeast of Jonesboro, is an ancient birch tree, on the bark of which is still legible the following inscription: "1771—D. B. killed a bar."

Brownlow threatens to return to private life, and the Boston Post offers its condolence to private life.

A man in Jackson, Mississippi, gave his intended money to buy her bridal outfit, and the following morning she married his brother.

Among the plants destroyed by the fire at the Washington Conservatory was a Sago palm, which was planted by General Washington.

A New Orleans woman, who was deserted by her husband ten years ago, married again, became a rich widow, and gave one thousand dollars to her first husband.

In Elgin, Canada West, a few nights since, a woman heard her dog barking loudly at the door. She followed the animal for a mile through the snow, and found her father in a drift dying of cold.

The following comes to us from good authority, and is a pungent satire on American republicanism as administered by the revolutionists: A firm in Nashville, one of the largest and most respectable mercantile houses in the West, paying annually many thousand dollars of taxes, and doubtless, well known to most of our Market street merchants, has, including clerks, six persons employed in the concern besides the porter, who is a negro. The latter is now the only one of the whole concern who is allowed a vote under the present Brownlow Constitution.

LETTERS FROM HARRISBURG.

HARRISBURG, Feb. 19, 1867. H. J. STABLE, Esq.—My journal, occupied, in Harrisburg, may induce me to send you a few lines.

Up to within a few days, their whole tenor was occupied with the private or local character—raising the question of their partisan favorite—abusing and traducing the Democrats—and lauding and adding their particular friends, the negroes. Scarcely a bill could be brought up but the first question was, "Is it for the negro?"

The Rads of the "West Virginia" Legislature have transferred the capital of that bogus State from Wheeling to Morgantown.

Miss Mary Harris, who shot E. J. Burroughs, the Treasury clerk, two years ago, has been sent to the Washington insane asylum.

Both Houses of the Pennsylvania Legislature have passed the joint resolution ratifying the constitutional amendment by a party vote.

Sanford Conover, indicted for perjury, has been found guilty. He was one of the witnesses in the trial of the assassination conspirators.

Brownlow threatens to return to private life, and the Boston Post offers its condolence to private life.

A man in Jackson, Mississippi, gave his intended money to buy her bridal outfit, and the following morning she married his brother.

Among the plants destroyed by the fire at the Washington Conservatory was a Sago palm, which was planted by General Washington.

A New Orleans woman, who was deserted by her husband ten years ago, married again, became a rich widow, and gave one thousand dollars to her first husband.

In Elgin, Canada West, a few nights since, a woman heard her dog barking loudly at the door. She followed the animal for a mile through the snow, and found her father in a drift dying of cold.

The following comes to us from good authority, and is a pungent satire on American republicanism as administered by the revolutionists: A firm in Nashville, one of the largest and most respectable mercantile houses in the West, paying annually many thousand dollars of taxes, and doubtless, well known to most of our Market street merchants, has, including clerks, six persons employed in the concern besides the porter, who is a negro. The latter is now the only one of the whole concern who is allowed a vote under the present Brownlow Constitution.

The point of the joke is, that the negro was the bitterest rebel of all, and was an officer's servant in the late rebel army, and when fighting by his master's side, he was the third man over the ramparts of Fort Pillow, where he fell like an avenging thunderbolt upon the negroes—who so gallantly surrendered that stronghold.—Age.

The other day, in the Rump Senate, Wilson, of Massachusetts, found he could not secure a reduction of the duty on cotton imported into New England, and thereupon hoped it would be voted down, saying that "it was not a Massachusetts tariff." In the estimation of the Yankee Radicals the Government was made to uphold New England, and when it does not do so, at the expense of the rest of the States, the Yankees go into rebellion. Having had the "whip hand" in the Government for the past six years, Massachusetts has been content, but so soon as the other States shall reassert their power, we will find the New England Radicals in the same attitude towards the Union and the flag as was assumed by them previous to the "slaveholders' rebellion."

TOWN AND COUNTY AFFAIRS.

SALE NOTES, of different forms, can always be had at this office.

SALE.—Mr. Noah F. Herch desires us to state that the remainder of his property not destroyed by the fire, (farm stock and implements,) will be sold at public sale, at the late residence of Samuel Gilliland deceased, one mile northeast of Heddertburg, on the day previously advertised—Tuesday, March 12th.

CHEAP BUILDINGS.—The attention of our readers, both in town and country, is directed to a communication on our first page, on the subject of cheap houses. The ideas thrown out strike us very favorably—indeed, they are "just the thing" at this particular time, when the need of dwellings is so generally felt, and the high-price of material almost everywhere blocks up the way to a supply.

MORE SNOW.—The deepest snow of the winter fell last week, commencing about 8 o'clock on Tuesday evening and continuing "with variations" until 6 o'clock on Thursday evening—forty-six hours. The first fell into the mud and immediately melted, but that process presently stopped, and the snow commenced "piling up," until its depth on the level must have been over a foot. The sleighing, however, has been poor, and is now about "played out."

This winter will be noted hereafter as a season of great and frequent snows, as snow-storms have happened in very unusual places and to a very extraordinary extent. They have extended from Great Britain westward to the Pacific Ocean, and on our own continent as far south as Texas.

ORDINATION & INSTALLATION.—Rev. J. M. Clemens, late of Sheboygan Classis, was ordained and installed as Pastor of the Littlestown charge of the German Reformed Church, on Wednesday week, at Littlestown. Rev. Mr. Sechler, of Hanover, preached the sermon. Rev. Mr. Zieber, of the same place, conducted the ordination, and Rev. Mr. Deatrich, of Gettysburg, the installation services. The exercises were of a highly interesting character throughout.

Rev. D. M. Blackwelder, of the New Chester Lutheran church, has resigned, and accepted the Petersburg charge. He has already removed to Petersburg.

The ladies and gentlemen of the Marsh Creek Presbyterian church have presented their pastor, Rev. J. R. Warner, with one hundred and fifty-four dollars.

Gen. Jacob G. Lauman, a native of York, and for several years a resident of Petersburg, this county, died at Burlington, Iowa, on the 9th inst. He commanded the Fourth Iowa Regiment of Infantry in the late war, and participated in the battles of Belmont, Fort Donelson and others, in one of which he was severely wounded in the thigh, and was promoted to the rank of Brigadier General for courage and conduct. Though he again went into service, he was soon disabled and had to retire.

Edward Ertter, baggage master on the Gettysburg Railroad, had his left hand so badly crushed as to lose the finger, whilst sitting cars at the Junction, week before last.

The Columbia Bridge.—The State Senate, on Wednesday, passed the bill to compel the Pennsylvania Railroad Company to rebuild the Columbia Bridge within two years.

In the Senate, on Monday, McConaughy presented a petition from citizens of Gettysburg against the repeal of Sunday laws, and for a revision of the license laws to arrest intemperance.

The Gettysburg Brass Band, under Prof. Gundrum, treated the town to some charming music on Friday, the 22d.

Mr. John Bender, of Strabtownship, the other day, brought to town a hog weighing 504 pounds. Verily, hog stock is on the rise.

Capt. Jenifer, who was the occasion of much excitement at Hanover in April, 1861, died at Richmond week before last.

Those of our readers who have not already subscribed for their Papers and Magazines for this year, will find the Catalogue of Messrs. Blackwell & Co., of 92 Cedar st., New York, a useful guide. Their advertisement appears in our paper, and a copy of their catalogue may be seen at our office. We recommend this firm with confidence.

The annexed newspaper extract comes to us in a letter through the mail, with this additional information: "Felix Bolter, who was shot at Ogdun, Kan., was a son of Jacob and Rebecca Bolter, near Fairfield, Adams county, Pa., aged 31 years and 8 months. He leaves father and mother, a wife and four children, and a large circle of friends, to mourn his loss."

Correction.—From a private letter from Ogdun we learn that our report of the circumstances of the murder of Marshal Bolter, Ogdun, Kan., soldiers was incorrect. The person that wrote the notice obtained the particulars partly from common report and partly from the Junction office. We did not have time to attend the examination and ascertain for ourselves. The correct notice says: "These six desperadoes came to Ogdun under the influence of liquor. Three of them went to the house of Mr. Boston with the purpose to insult the women. The Sergeant, Ogdun, Kan., told the men if any one interfered to shoot them down. The Marshal heard the alarm and ran to the spot. He was not armed, but had a small can in his hand. He demanded peace and told them to go away; that they were in a private house, and that it was his duty to see that they went away. Poor fellow, while repeating these words he was shot through the chest by a rifle ball, and fell dead almost instantly. It was the first shot fired. One of the citizens of Ogdun, who was on the front part of the house, and got inside as soon as the Marshal was shot. The soldiers were fired on and two of them were wounded. They went away threatening, but did not return. The Marshal had no arms with him and never fired a shot."

IMPORTANT BOUNTY DECISION. WASHINGTON, Feb. 18.—The Secretary of War has decided that every bounty claimant shall be regarded as having served to the end of the war who enlisted for three years, and was mustered out with his organization, or who received the services of the latter were no longer required, and is therefore entitled to the additional bounty under the act of July 25, 1865. This is really a very important decision. It is the claim of a large class of soldiers for the addition of bounty who would otherwise be deprived of the privileges of that act.

In his message of 1861 Abraham Lincoln said: "The right of each State to order and control its own domestic institutions according to its own judgment exclusively, is essential to the balance of power on which the perfection and endurance of our political fabric depend. In any violation of that right, the Union is destroyed, and the endurance of the Republic left to the old friends of Mr. Lincoln ponder these facts."

Mr. Williams, of Pennsylvania, during a recent debate in the House of Representatives, said "It was better that the rebel States should remain outside of the Union for generations than that they should come back when they could form political alliances." That is the essence of Radicalism. The dominant party in Congress are opposed to bringing the Southern States back into the Union, not on account of political expediency, but for fear of losing some portion of their present power. How long will the people permit a party to control the destinies of the Nation, which unblushingly ignores right and justice for mere selfish and partisan ends?

A recent telegram from Connecticut announced that P. T. Barnum, famous for his woolly horse and patent medicine, had been nominated for Congress by the Radicals of the Fourth district of that State.

The last soldier of the American Revolution, Samuel Downing, of the State of New York, died week before last. His age is set down at 106 years.

Special Notice Column.

CHIFFADORO'S PILLS.—These Pills are safe and secure, all the best qualities of the herbs, which they are composed, without any of their bad effects. They are in all cases and do harm in none.

Children's Lives Saved for 50 Cents. Thousands of Children die annually of Croup, Now, mothers, if you would spend 50 cents, and give your child a bottle of Dr. Tobias' Venetian Linctus in the house, you need never lose your child to the attack of this terrible complaint. It is now 19 years since I have put up my Linctus, and never heard of a child dying of Croup when my Linctus was used; but hundreds of cases of cures have been reported to me, and many states that it has saved their children. It is now 19 years since I have put up my Linctus, and never heard of a child dying of Croup when my Linctus was used; but hundreds of cases of cures have been reported to me, and many states that it has saved their children.

Work and Actions. Both sexes should bear in mind that in instances of indisposition where Pills are needed, due caution should be observed in their selection. Most of those sent upon the shores of mankind, are made of the most poisonous herbs, and are powdered with opium, jalap, calomel, gamboge, Epsom salts, and Harrier oil. But Dr. Bayard's Pills are made of the most pure and healthful ingredients in every form, anti-bilious in action, alterative in effect, and perfectly safe in their use. They are perfectly safe in their use. They are perfectly safe in their use. They are perfectly safe in their use.
