A correspondent of the Country Gentle-man writes of his success with the "Early Goodrich" potato. He says: "I bought a peck of seed last spring, of the variety, and planted, from which I raised twenty-

40TH YEAR -- NO. 35.

Choice Miscellany.

The "Gettysburg Asylum for Invalid Sel-Two weeks ago we received the prospectus of the above named company—chartered by the Legislature, with a retary, we printed the prospectus and gave it an editorial notice in the Democrat of the 7th inst. The bill was sent to General Hoffman, Philadelphia, from whom we received an answer on Saturlay. He received an answer on Saturky. He says that he never has had any connection with the matter, nor does he know J. O. Hoffman, whose name is not found in the Philadelphia Directory. gentlemen have been deceived into an endorsment in a similar manner.

We take this occasion to warn the public against the "Gettysburg Asylum" scheme, for we do not believe it to be what is represented. Within a week the Attorney General has taken steps to test the legality of it, and General Meade has withdrawn from it. We believe it to be a money-making concern, and if we are not mistaken, something worse. It is impossible that the quantity of diamonds and jewelry advertised, was purchased at the South during the war. If gotten there at all, they were stolen from the owners. We advise the public to have nothing to do with this scheme.

Doylestown Democrat.

In conversing with some of the gentlemen practically familiar with the subject of breeding, who were in attendance at the recent exhibition of horses in this city, we found it to be the opinion of many of them that it was far better to have colts dropped late in the season than in the spring, as is now the almost universal practice, and in some sections of the State the former is fast gaining ground.

It certainly has many adventages.—

Where colts come in the spring and are taken off at the approach of cold weather, they are poorly fitted to withstand the severe season of winter, are obliged to be kept on dry forage, if given a little grain as an extra feed, they are often ingired by it, as their system is easily "Mother what does recorrectly definition."

POLITICAL PREACHING.

The custom of discoursing upon political issues in the pulpit, which grew to such a lamentable degree during the war, has always seemed to us one of the most dangerous for the interests of the church that could ever have been introduced, its modulant has the second course. that could ever have been introduced. It produced heart-burnings which many years will not effice, and led thousands to look upon the practice of religion in a sense which was poorly calculated to improve either their moral or religious juclinations. We care not what a man'a political creed may be, he cannot ful fo imbibe a repurpular and the country of the countr pointeal creed may be, he cannot full to imbibe a repugnance against the preach-er who inveigles him in to the sanctuary under the pretence of discoursing to him upon subjects which concern his eternal salvation, and then proceeds to attack his deep-seated convictions upon matters of Government. With the excitement generated by the rebellion, the practice of political preaching has, happily, almost passed away, and we are glad to know that many ministers are willing to confess their mistakes mean this antichartered by the Legislature, with a request that we advertise it two months and call attention to it editorially. It proposes to operate on the lottery plan, the prizes drawn for consisting of jewelry "purchased" in the South daing the war. We had a strong suspicion that all things were not right, but General Meade's name being used for President, and that of J. O. Hoffman—whom we mistook for Gen. J. W. Hoffman—for Secretary, we printed the proposetus and cave is a where reform appears to be hopeless. ties where reform appears to be hopeless. Among the numerous arguments against political preaching which have appeared, none more clearly and tersely express

> sometimes spoken of as political crises sink into utter insignificance by the side duties, in calling men to repontance, and pointing their trembling trust to the Lamb of God. It is a startling thought that there are men who visit our sanctu-aries, and, having heard once, are dismclined to repeat the visit, because they feel that they have been treated to a worlly show, or been fed on political or metaphysical rhetoric. Multitudes of intelligent and even educated men, who ought to be found openly and boldly on the side of religion, are abandoning our churches, and, although the leading cause of their withdrawal is one for which they are along responsible. It is which they are alone responsible, it is to be feared that, in some cases, there is only too much ground for the reason by which they extenuate the guilt of their neglect. To every church and to every

temperance question is stirring up a-contention among the brethren in the Radical party. The Cincinnati Enquir-or thus states the particulars of a recent case: "A person by the name of Sebos-ski, who was a Radical member of the Dividene.
