THE NEW WORK ON SINGING,

BASSINI'S

TWENTY MELODIC EXERCISES,

IN FORM OF

SOLFEGGIOS FOR SOPRANO OR MEZZO SOPRANO VOICES,

INTENDED AS

Studies to acquire the Art of Singing.

"THESE exercises were composed to be used simultaneously with his system, 'THE ART OF SINGING,' or with any *other method* for the cultivation of the voice, and will take the place of CONCONE'S SOLFEGGIOS; being more melodious and better adapted for teaching.

"Some of these exercises are specially beautiful as well as useful, a mingling of the *dulce et utile*, which secures the interest as well as the improvement of the student. The various styles developed in these exercises render them invaluable in an educational point of view, as they tend to enlarge the intelligence and appreciation, and at the same time form the taste of the pupil. They must be studied carefully with reference to the innumerable marks of expression and forms of ornamentation. Upon the intelligence with which they are rendered depends the actual sterling advancement of the pupil; any evasion or slurring in these respects is time and effort wasted, while, on the other hand, a close and patient investigation, and a minutely faithful execution of them, will give unexpected power and facility, and open to the student the means and resources by which great artists produce their most brilliant and profound effects."—*Watson's Art Journal.*
