ACROSS THE CONTINENT. The Company now offer & limited amount FIRST MORIGAGE BONDS.

FINEST STYLE OF THE ART. having thirty years to run, and bearing annual interest, payable on the first day of January and June 4, 1865, tf July, in the City of New York, at the rate of BIX PER CENT, IN GOLD,

NINETY CENTS ON THE DOLLAR. This road was completed from Omaha 305 miles west on the first of January, 1867, and is fully equipped; and trains are regularly running over it. The Company has now on hand sufficient iron, ties, &c., to finish the remaining portion to the eastern base of the Rocky Mountains, 212 miles, which is under contract to be done September 1st of this year, and it is expected that the entire road will be in running order from Omaha to its western connection with the Central Pacific now being rapidly built eastward from Sacra-

mento, Cal., during 1870. MEANS OF THE COMPANY. Estimating the distance to be built by the Union Pacific to be 1,565 miles, the United States Government issues its Six per cent. Thirty-year Bonds to the Company as the road is finished at the average rate of about \$28,250 per mile, amounting

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special Act of Conress are made a First Mortgage on the entire line, the bonds of the United States being subordi-

The Government makes a donation of 12,800 cres of land to the mile, amounting to 20.032,000 acres, estimated to be worth \$30,000,000, making the total resources, exclusive of the capl ital, \$118,416,000; but the full value of the lands

cannot now be realized. The authorized Capital Stock of the Company is lions have already been paid in, and of which it is not supposed that more than twenty-five millions at most will be required. The cost of the road is estimated by competent

ngineers to be about one landred million dollars, exclusive of equipment. PROSPECTS FOR BUSINESS. The railroad connection between Omaha and the East is now complete, and the earnings on the

Union Pacific on the sections already-finished for the first two weeks in May were \$113 00%. These sectional earnings as the road progresses will much more than pay the interest on the Company's bonds, and the through buriness over the nly line of railroad between the Atlantic and Pacific must be immense.

VALUE AND SECURITY OF THE BONDS.

The Company respectfully submit, that the above statement of facts fully demonstrates the ecurity of their Bonds, and as additional proof they would suggest that the Bonds now offered are less than ten million dollars on 517 miles of oad, on which over twenty million dollars have already been expended; -on 230 miles of this road the cars are new running, and the remaining 187 miles are nearly completed. At the present rate of premium on gold thes Bonds pay an annual interest on the present

_____ BOOTH AND THE LORD'S PRAYER.

In the palmy days of Booth, the great tragedian, together with several friends, was invited to dine by a person who was opposed to theatres and theatre-going, and yet had curiosity enough to wish to see something of the lion of the day. Booth, as a particular favor, to read the Lord's prayer. He expressed his willingness to afford the company this gratification, and all eyes turned expectantly towards him. Slowly and reverently he arose. All were a-tonished at the play of emotions that convulsed him counterpart. countenance. His face became deathly pale, and his eyes, tremblingly turned upwards, were wet with tears.
