These Instruments stand unrivalled by any thing found in this country or in Europe, as is admitted by all impartial judges. The most emisment Pipe Organ Builders and Performers, the last to discover excellence in reed Tone, pronounced them vastly superior to all others for exceedingly quick articulation and round Tone, the essential feature in instruments of this class. We invite the severe scrutiny and criticism of all.

PATENT VOX HUMANA TREMOLO. PATENT VOX HUMANA TREMOLO,
This late and most wonderful invention (so acknowledged by all leading artists) will be found
only in the Estev Instruments. In attempting
to describe the effect of this stop, we are at loss
for language. Its beauties cannot be written, but
must be heard to be appreciated. By this stop
an ordinary performer can produce an effect
which requires a life time of practice for an artist
upon a violin. It entirely changes the reed Tone,
giving the sympathetic sweetness of the human
volve, making it so includious and pure that it
never fails to eachant the listener.
